includes annually 1961 home goods data book

definitions and typical illustrations of railroads and industrial cars their parts and equipment cars built in america for export to foreign countries descriptions and illustrations of shops and equipment employed in the construction and repair of cars

this volume showcases the valuable achievements of the romanian technology and industry worldwide it started from the premise that the history of romanian technique is scarcely known outside the borders of romania the main romanian contributions to the world s

technological heritage are missing except for a few names in the field of aviation from the great encyclopedias and dictionaries published worldwide this is due among other reasons to the insufficient promotion in widely spoken languages of the history of romanian technology the multidisciplinary approach of the volumes means that the field of technology had to be split into several branches the present volume includes the following industries electrical engineering energy technology biomedicine maritime and rail transport automotive industry aviation the history of engineering societies of engineering education of intellectual property and of inventions as well as a synopsis of the personalities of romanian engineering have been tackled in separate chapters for each field are engaged the collaboration of authors who have already published a history of their field certain chapters were drafted with the aid of specialists who have played the part of policy makers in the elaboration of development strategies for romania and who are familiar not only with the facts and the history of their field but also with the philosophy behind its development

vol 29 no 8 37 no 7 aug 1937 july 1944 include the section aviation
