disability services and disability studies in higher education considers how the two fields of disability studies and disability services in institutions of higher education impact each other disability studies is centered in the classroom an interdisciplinary field that teaches about the social contexts of disability while disability services works outside the classroom making sure students with disabilities are able to access classroom spaces and educational material oslund explores the effect of the services on the larger societies in which they are located students who encounter the respective fields and those who self identify as disabled or have an identity of disability posited on them by the society in which they live

goodley draws on decades of research to argue that disability has much to offer when we contemplate what it means to be human in the 21st century he addresses questions such as who s allowed to be human are human beings dependent and what does it mean to be human in the digital age

over recent years there has been an unprecedented upsurge of interest in the general area of disability and disability studies amongst academics and researchers throughout the world this has generated an increasingly expansive literature from a variety of perspectives including cultural studies development studies geography history philosophy social policy social psychology and sociology perhaps inevitably given this heightened interest a number of important challenges and debates have emerged which raise many significant questions for all those interested in this newly emergent and increasingly important field disability studies today provides an invaluable introduction to and an overview of these concerns and controversies although the field is increasingly interdisciplinary in nature the emphasis is primarily a sociological one since sociology continues to play a central role in the development of disability studies whilst the focus is primarily on theoretical innovation and advancement the arguments presented in this book have important political and policy implications for both disabled and non disabled people moreover since disability studies like ethnic women s and gay and lesbian studies has developed from a position of engagement and activism rather than one of detachment the articles in this volume maintain this tradition the book contains contributions from established figures as well as newcomers to the field topics covered include the history of the development of disability studies in britain and america key ideas issues and thinkers the role of the body divisions and hierarchies history power and identity work politics and the disabled peoples movement globalization human rights research and the role of the academy this book will prove invaluable to scholars researchers students and policy makers and indeed all those involved in this increasingly important area of social enquiry

disability is not just the physical sensory or intellectual impairments a person has but the exclusion from society they face as a result organisations for disabled people are a growing voice in challenging this exclusion and anti discrimination legislation is helping to change the structures in society that have contributed to it this book examines the discipline of psychology in this regard it argues that psychology has tended to ignore the socio cultural aspects of disability and treat disabled people as objects rather than arbiters of psychological intervention bringing together disabled and non disabled researchers and psychologists this book proposes ideas for an enabling psychological theory and practice and addresses questions such as how can we support the inclusion of disabled children can therapy enable rather than pathologise what can be learnt from the experience of disabled psychologists how can psychology contribute to social models of disability in examining these issues this volume challenges the reader to

reconsider the relationship between disability studies and psychology and to do so in ways that contribute to the emancipation rather than the exclusion of disabled people a key text for students on relevant courses within disability studies and psychology degrees this book is also an important resource for those who study or work in the areas of healthcare studies nursing sociology and social work dan goodley is a reader in disability studies university of sheffield with research interests in disability theory activism and methodology rebecca lawthom is principal lecturer in psychology manchester metropolitan university and a member of the research institute for health and social change her research interests are in disability community and feminist psychology

now in its second edition rethinking disability introduces new and experienced teachers to ethical framings of disability and strategies for effectively teaching and including students with disabilities in the general education classroom grounded in a disability studies framework this text s unique narrative style encourages readers to examine their beliefs about disability and the influence of historical and cultural meanings of disability upon their work as teachers the second edition offers clear and applicable suggestions for creating dynamic and inclusive classroom cultures getting to know students selecting appropriate instructional and assessment strategies co teaching and promoting an inclusive school culture this second edition is fully revised and updated to include a brief history of disability through the ages the relevance of current educational policies to inclusion technology in the inclusive classroom intersectionality and its influence upon inclusive practices working with families and issues of transition from school to the post school world each chapter now also includes a featured voice from the field written by persons with disabilities parents and teachers

emerging perspectives on disability studies brings together up and coming scholars whose works expand disability studies into new interdisciplinary contexts this includes new perspectives on disability identity historical constructions of disability the geography of disability the spiritual nature of disability governmentality and disability rights neurodiversity and challenges to medicalized constructions of autism and questions of citizenship and participation in political and sexual economies in sum this volume uses disability studies as an innovative framework for its investigation into what it means to be human

the second edition of the disability studies reader builds and improves upon the classic first edition which has sold

well over 6000 copies since 1999 as a field disability studies burst onto the scene across the social sciences and humanities in the 1990s and the first edition of the reader gathered the best work that had been written on the subject including essays by famous authors such as susan sontag and erving goffman the new edition is more global in its coverage and adds material on genetic testing the human genome queer studies and issues in developing countries the size of the audience has grown since the first edition s publication and the second edition s new material will make it even more useful for courses on the subject courses on the subject have mushroomed in the past ten years and can now be found across the social sciences humanities and behavioral sciences

the chapters in this book exemplify ways of questioning our collective relations to normalcy as such relations affect the lives of both disabled and currently non disabled people pub desc

images of disability pervade language and literature yet disability is as the volume s introduction notes the ubiquitous unspoken topic in contemporary culture the twenty five essays in disability studies provide perspectives on disabled people and on disability in the humanities art the media medicine psychology the academy and society edited and introduced by sharon l snyder brenda jo brueggemann and rosemarie garland thomson and containing an afterword by michael bérubé author of life as we know it the volume is rich in its cast of characters including john bulwer teresa de cartagena audre lorde oliver sacks samuel johnson mark twain walt whitman in its powerful authentic accounts of disabled conditions deafness blindness ms cancer the absence of limbs in its different settings ancient greece medieval spain nazi germany the modern united states and in its mix of the intellectual and the emotional of subtle theory and plainspoken autobiography

situated in an interdisciplinary perspective that spans areas such as cultural studies law disability studies in education sociology and historiography south asia and disability studies presents a rich and complex understanding of the disability experience in south asia

disability studies has engaged with discourse analysis in key works both from the uk and the usa while the perspectives and analyses of discourse analysis have proved well suited for exploring disability however its methods have not been sufficiently developed in a disability studies context conversely discourse analysts have traditionally

been concerned with social issues and fields in which asymmetric power relations marginalization and discrimination play a central role e g gender race ethnicity and sexual orientation all of which share many analytical features with disability but although efforts have been made to integrate disability into the discourse analysis and conversation analysis canon the link between the two fields needs to be strengthened this ground breaking volume contributes to this link by thoroughly applying the analytical vocabulary of discourse analysis to issues that are central to the field of disability studies it strengthens disability studies by supplying case studies of representations and constructions of disability and disabled people in discourse theorizes the role played by language in the social construction of disability and makes disability a more salient topic for discourse analysts

by triangulating the greco roman world classical reception and disability studies this book presents a range of approaches that reassess and reimagine traditional themes from the narrative voice to sensory studies it argues that disability and disabled people are the forgotten other of not just classics but also the humanities more widely beyond the moral merits of rectifying this neglect this book also provides a series of approaches and case studies that demonstrate the intellectual value of engaging with disability studies as classicists and exploring the classical legacy in the medical humanities the book is presented in four parts communicating and controlling impairment illness and pain using creating and showcasing disability supports and services real bodies and retrieving senses disability in the ritual record and classical reception as the gateway between classics and disability studies chapters by scholars from different academic backgrounds are carefully paired in these sections in order to draw out further contrasts and nuances and produce a sum that is more than the parts the volume also explores how the ancient world and its reception have influenced medical and disability literature and how engagements with disabled people might lead to reinterpretations of familiar case studies such as the parthenon this book is primarily intended for classicists interested in disabled people in the greco roman past and in how modern disability studies may offer insights into and reinterpretations of historic case studies it will also be of interest to those working in medical humanities sensory studies and museum studies and those exploring the wider tension between representation and reality in ancient contexts as such it will appeal to people in the wider humanities who notwithstanding any interest in how disabled people are represented in literature art and cinema have had less engagement with disability studies and the lived experience of people with impairments free chapter available please go to bit.ly/3pzpo7n to access the

introduction which we have made freely available
