irrigation has been and will continue to be an agricultural and rural investment priority development of the irrigation sector faces multiple challenges including water scarcity and degradation

competition over shared resources and the impact of climate change innovations are needed to address these challenges as well as emerging needs and to promote productive equitable and sustainable water management these guidelines produced by an inter agency team highlight experiences and lessons learned from global irrigation investment operations they introduce innovative approaches tools and references and provide practical guidance on how to incorporate or apply them at each stage of the investment project cycle the guidelines will be a useful resource for national and international professionals involved in irrigation investment operations

digital technology has made culture more accessible than ever before texts audio pictures and video can easily be produced disseminated used and remixed using devices that are increasingly user friendly and affordable however along with this technological democratization comes a paradoxical flipside the norms regulating culture s use copyright and related rights have become increasingly restrictive this book brings together essays by academics librarians entrepreneurs activists and policy makers who were all part of the eu funded communia project together the authors argue that the public domain that is the informational works owned by all of us be that literature music the output of scientific research educational material or public sector information is fundamental to a healthy society the essays range from more theoretical papers on the history of copyright and the public domain to practical examples and case studies of recent projects that have engaged with the principles of open access and creative commons licensing the book is essential reading for anyone interested in the current debate about copyright and the internet it opens up discussion and offers practical solutions to the difficult question of the regulation of culture at the digital age

the eu views itself as an important actor on the world stage a perspective supported by the role it plays in global politics this collection presents a true reflection of the eu as an international actor by exploring how it is viewed externally and the impact that events like the eurozone debt crisis have had on external perceptions of the eu

how to study the contemporary dynamics between the religious the nonreligious and the secular in a globalizing world obviously their relationship is not an empirical datum liable to the procedures of verification or of logical deduction we are in need of alternative conceptual and methodological tools this volume argues that the concept of social imaginary as it is used by charles taylor is of utmost importance as a methodological tool to understand these dynamics the first section is dedicated to the conceptual clarification of taylor s notion of social imaginaries both through a historical study of their genealogy and through conceptual analysis in the second section we clarify the relation of social imaginaries to the concept of religious worldviewing understood as a process of truth seeking furthermore we discuss the practical usefulness of the concept of social imaginaries for cultural scientists by focusing on the concept of human rights as a secular social imaginary in the third and final section we relate taylor s view on the role of social imaginaries and the new paths it opens up for religious studies to other analyses of the secular religious divide as they nowadays mainly come to the fore in the debates on what is coined as the post secular

ecological complexity and diverse ecosystems give central and west asia rich natural resources and hydrocarbon reserves countries in this region are exposed to climate change risks and there is growing recognition that their carbon intensive economies necessitate greenhouse gas mitigation this report assesses the costs benefits and investment opportunities for greenhouse gas reduction in the energy and transport sectors of azerbaijan kazakhstan and uzbekistan and discusses indirect benefits of such reduction to human health and energy security it gives policymakers practitioners and academics an overview of policy measures and technologies available for emission reduction as well as scenarios of future emission trajectories in the three countries

sub saharan africa is uniquely positioned significantly increase its current agricultural productivity to lift the region s more than 400 million people out of extreme poverty and improve the livelihood of approximately 250 million smallholder farmers and pastoralists in the region to achieve that substantive digital transformation of the agriculture sector is required through improved infrastructure and

increased access to and use of digital technologies for agriculture to improve the current understanding of sub saharan africa s digital agriculture landscape the food and agriculture organization of the united nations fao and the international telecommunication union itu undertook this study in 47 countries the report is composed of 47 desk based country case studies against six thematic focal areas the aim of which is to present a snapshot of the status of digital agriculture in each country this is followed by highlights of the main findings of the analysis of the country profiles with suggested steps for future action the findings of the study are presented to fao and itu member states as well as all relevant stakeholders with the purpose of advancing and supporting investment in digital transformation of the agricultural sector in sub saharan africa

thought provoking insights on the nexus of migration and integration beyond the national context across the world and due to ongoing globalisation migration is increasingly becoming a part of daily life but more than ever migration can no longer be viewed as a simple linear trajectory from a to b the emergence of transnational communities and intense interactions between regions of origin and of destination have led to new forms of social cultural praxis and sub cultures which exert an important influence on the integration of immigrants the case of flanders the northern part of belgium and a reference point for the impact of these processes across europe is presented as a case study in this book migration and integration in flanders is structured in three thematic parts opening with chapters on the imaginaries and perceptions of people in changing migration contexts the book then proceeds with chapters which present theoretical and empiric data on changing integration dynamics in multicultural societies the final chapter concludes with a discussion of social networks mediating role the growing complexity of migration leads the contributing authors to look beyond borders both of national frontiers as migration by definition implies cross border research and of disciplines and research methods in doing so the present volume offers thought provoking essays on topical issues that stir public and political debates across europe and contributes to fundamental discussions on changing societies contributors didier boost university of antwerp noel clycq university of antwerp david de coninck ku leuven godfried engbersen erasmus university rotterdam steven groenez ku leuven kenneth hemmerechts vrije universiteit brussel dries lens university of antwerp fran[?] ois levrau university of antwerp ive marx university of antwerp joris michielsens university of antwerp ward nouwen university of antwerp edith piqueray university of antwerp christiane timmerman university of antwerp falke tibax university of antwerp rut van caudenberg university of antwerp universitat aut[?] noma de barcelona anneloes vandenbroucke ku leuven sanne van de pol university of antwerp dirk vanheule university of antwerp gert verschraegen university of antwerp sunčica vuji[?] university of antwerp gprc label
