this volume describes new frontiers in medical and service robotics in the light of recent developments in technology to advance robot design and implementation in particular the work looks at advances in design development and implementation of contemporary surgical rehabilitation and biorobots surgical robots allow surgeons greater access to areas under operation using more precise and less invasive methods rehabilitation robots facilitate and support the lives of the infirm elderly people or those with dysfunction of body parts affecting

movement these robots are also used for rehabilitation and related procedures such as training and therapy biorobots are designed to imitate the cognition of humans and animals the need to substitute humans working on delicate tiresome and monotonous tasks or working with potentially health damaging toxic materials requires intelligent high performance service robots with the ability to cooperate advanced communication and sophisticated perception and cognitive capabilities progress in this field is fast and results need to be disseminated to stimulate both practical applications and further research thus these papers are a valuable addition to existing literature

good product designs merge materials technology and hardware into a unified user experience one where the technology recedes into the background and people benefit from the capabilities and experiences available by focusing on functional gain critical awareness and emotive connection even the most multifaceted and complex technology can be made to feel straightforward and become an integral part of daily life researchers designers and developers must understand how to progress or appropriate the right technical and human knowledge to inform their innovations the 1st international smart design conference provides a timely forum and brings together researchers and practitioners to discuss issues identify challenges and future directions and share their r d findings and experiences in the areas of design materials and technology this proceedings of the 1st smart design conference held at nottingham trent university in november 2011 includes summaries of the talks given on topics ranging from intelligent textiles design to pharmaceutical packaging to the impact of social and emotional factors on design choices with the aim of informing and inspiring future application and development of smart design

roads and airports pavement surface characteristics contains the papers presented at the 9th international symposium on pavement surface characteristics surf 2022 milan italy 12 14 september 2022 the symposium was jointly organized by the italian company that manages italy s national roads anas ferrovie dello stato italiane group the world road association piarc and politecnico di milano the contributions aim to improve the quality of pavement surface characteristics while accomplishing efficiency safety sustainability and addressing new generation mobility needs the book covers topics from emerging research to engineering practice and is divided in the following sections advanced and performing construction methods and equipment next generation mobility data monitoring and performance assessment surface features and performances maintenance and preservation treatments

pavement management economic and political strategies safety and risk issues minimizing road impacts sustainability and performances issues about materials and design pavements surfaces and urban heat islands weather conditions impact airport pavements roads and airports pavement surface characteristics is of interest to academics engineers and professionals in the fields of pavement engineering transport infrastructure and related disciplines

100 questions answers about muscular dystrophy offers essential and practical guidance this unique book provides both doctor and patient perspectives and offers answers to the most asked questions by patients and their loved ones what is muscular dystrophy how do i find good medical care what should i expect at a neurology appointment how can i treat my pain along with the answers to these and other questions this book provides information on diagnosis treatment living with md new therapeutic options and more written by a leading expert on the topic with more than 20 years experience caring for patients with md 100 questions answers about muscular dystrophy is an easy to read book and must have resource for those with living md and their loved ones

english for carers ucoc version is a book which can be used in conjunction with online materials by carers personal care assistants nursing assistants and nurses who care for the elderly a variety of common situations are presented including end of life care dialogues are introduced using short youtube cartoon videos with related practice activities the book has a communication focus aimed at pre intermediate level a2 virginia allum is a medical english author who has published several efl esp books for nurses nursing assistants and doctors she is a practising registered nurse in the uk and has taught in a diploma of nurses and aged care certificate in australia she is a co author of both cambridge english for nursing books as well as several online courses for nurses and healthcare assistants

selected peer reviewed papers from the 2013 international conference on advances in materials science and manufacturing technology amsmt 2013 may 18 19 2013 xiamen fujian china

discusses the development of the motor scooter its popularity during the depression and its uses in wartime as well as its disadvantages in a world much concerned with pollution

this book is divided into three parts pt 1 getting ready shows how to set up the house pt 2

day by day guides you through every aspect of daily care pt 3 additional resources provides medical information

this second edition completely updated for 1999 2000 is a comprehensive guide to resources for and about older americans detailing national and state organizations government agencies health research centers libraries and information centers legal resources discount travel information and continuing education programs the first edition was published by gale research in 1994 older american s information directory now includes 4 000 new listings and two new chapters disability aids assistive devices and health associations support groups and hotlines which provides important information on 16 conditions including alzheimer s disease arthritis heart disease and stroke this second edition also contains two new indexes including a geographic index and a website section this comprehensive resource is a highly useful source of information for older americans searching for information and for those who care for and support them
