the authors are proud sponsors of the 2020 sage keith roberts teaching innovations award enabling graduate students and early career faculty to attend the annual asa pre conference teaching and learning workshop religion in sociological perspective introduces students to the systems of meaning structure and belonging that make up the complex

social phenomena we know as religion authors keith a roberts and david yamane use an active learning approach to illustrate the central theories and methods of research in the sociology of religion and show students how to apply these analytical tools to new groups they encounter the seventh edition departs from previous editions by emphasizing that the sociology of religion is an ongoing conversation among scholars in dialogue with existing scholarship and the social world this perspective is established in the new second chapter historical development of the sociology of religion other chapters feature important voices from the past alongside the views of contemporary sociologists and conclude with a glimpse of where the sociology of religion might be heading in the future at every opportunity the text has been enriched by research and examples that are meant to challenge parochial limits in the sociology of religion pushing beyond christianity congregations beliefs national borders especially the united states and even beyond religion itself to take nonreligion more seriously included with this title the password protected instructor resource site formally known as sage edge offers access to all text specific resources including a test bank and editable chapter specific powerpoint slides a student activity guide includes chapter specific exercises linked to resources within the arda

religion in sociological perspective eighth edition introduces the systems of meaning structure and belonging that make up the complex social phenomena we know as religion the author team uses an active learning approach to illustrate the central theories and methods of research in the sociology of religion and show students how to apply these analytical tools to new groups they encounter

the volume offers essential reading for undergraduates who need an introduction to the field for graduate students who wish to broaden their understanding of stratification research and for advanced scholars who seek a basic reference guide although most of the selections are middle range theoretical pieces suitable for introductory courses the anthology also includes advanced contributions on the cutting edge of research the editor outlines a modified study plan for undergraduate students requiring a basic introduction to the field

from its first edition in 1979 perspectives in sociology has provided generations of undergraduates with a clear reassuring introduction to the complications of sociological theory this revised and updated edition features a completely rewritten general introduction and conclusion all new introductions to each part clarifying how each one builds on what

came before an updated set of formative questions at the end of each chapter a comprehensive glossary of key terms while retaining its emphasis and wealth of information on the founding figures of sociology this sixth edition includes new tools that will allow students from related disciplines to access relevant sociological material quickly

this text gives students an authoritative overview of u s urban history the central theoretical issues in urban society

a valuable compendium broad in scope rich in detail it should be a most useful reference for students and teachers this is how alex inkeles of stanford university described this text it is made more so in this paperback edition aimed to reach a broad student population in sociology and psychology the new introduction written by rosenberg and turner brings the story of social psychology up to date by a rich and detailed examination of trends and tendencies of the 1980s although social psychology is a major area of specialization in sociology and psychology this text is the first comprehensive and authoritative work that looks at the subject from a sociological perspective edited by two of the foremost social psychologists in the united states this book presents a synthesis of the major theoretical and empirical contributions of social psychology they treat both traditional topics such as symbolic interaction social exchange theory small groups social roles and intergroup relations and newer approaches such as socialization processes over the life cycle sociology of the self talk and social control and the sociology of sentiments and emotions the result is an absolutely indispensable text for students and teachers who need a complete and ready reference to this burgeoning field

this fourth edition has been wholly rewritten and restructured while retaining its wealth of information about the founding figures of sociology it also includes much new material on contemporary social theory and particularly the challenge to sociology posed by the rise of post structuralism with its questioning of the whole enlightenment project new features include a concise introduction to the major debates of the twentieth century information on thinkers of the nineteenth and early twentieth century whose relevance to modern social thought is only now being recognised e g nietszche saussure simmel key debates placed in historical and philosophical context connections drawn between post structuralist thinkers like foucault and derrida and the founding figures of sociology marx weber and durkheim easy to read format four wholly new chapters tracing developments in social theory from structuralism to postmodernism

this student textbook originally published in 1991 tackles the traditional problems of the sociology of knowledge from a new perspective drawing on recent developments in social theory tim dant explores crucial questions such as the roles of power and knowledge the status of rational knowledge and the empirical analysis of knowledge he argues that from a sociological perspective knowledge ideology and discourse are different aspects of the same phenomenon and reasserts the central thesis of the sociology that knowledge is socially determined

the most popularly read adapted anthologized and incorporated primer on sociology ever written for modern readers acclaimed scholar and sociologist peter l berger lays the groundwork for a clear understanding of sociology in his straightforward introduction to the field much loved by students professors and general readers berger aligns sociology in the humanist tradition revealing its relationship to the humanities and philosophy and establishes its importance in thinking critically about the modern world throughout berger presents the contributions of some of the most important sociologists of the time including max weber Émile durkheim vilfredo pareto and thorstein veblen

moving beyond the individualisation paradigm in sociological theory this book develops an approach to the analysis of human activities and the social phenomena produced by them that centres on the processes that generate coordinated behaviours among individuals emphasising the relational and processual character of social phenomena as well as the importance of a broader cultural and historical context for analysing them the author questions the view of contemporary society that sees individuals acting in a context in which social bonds are dissolving and unveils the rationale hidden behind the chaos of everyday activities through an analysis of the continued importance of cooperation and the consequent emergence in society of various kinds of communities this volume examines the changing character of social ties an overview of transformation of social bonds and the intensification of mutual influences among individuals as they seek to address social dilemmas in new contexts the individual after modernity will appeal to social scientists with interests in social theory

emphasis on measurement techniques can interfere with understanding how well particular social programs in their field work in making a difference the practice of sociology irwin deutscher links traditional sociological concerns with applied sociology in an effort to overcome this problem he contributes to the debate over the extent to which health

educational and social programs initiated by the roosevelt kennedy and johnson administrations have been successful in intimate human terms deutscher believes that the introduction of a sociological perspective can provide a positive element to interdisciplinary pursuits this belief as well as his fresh perspectives on both the strengths and limitations inherent in applied sociology offer the field a revitalising lift as such this highly informative thought provoking volume will be of interest to sociologists and policy makers in health education crime welfare and housing

sociological social work is a lifelong social work practice which is animated by a sociological perspective social workers shorthand orientations such as strengths perspective task centred or humanistic to name but a few as a way to identify their philosophical and theoretical approaches in professional life whilst some texts have examined sociology for social work this text instead proposes that sociological social work is a legitimate and theoretically rich orientation and this book demonstrates what sociological social work looks like in our rapidly changing world this text will equip students and practitioners with a way to think sociologically not just while they are studying but as an ever present reference for making sense of social work purpose and how this is realised in a transforming world this follows an established tradition in social work literature but this book elevates and names the importance of this approach which we argue is critically needed if social work is to achieve its agenda in transformative social political economic and environmental contexts the current landscape in which we live is one that is characterised by rapid changes which have implications for the life experiences of those with whom social workers work social justice advocacy agendas and for fulfilling the purpose of social work more generally this book is essential reading for those looking to keep up with these changes

an exceptionally well known social psychologist offers the most definitive work to date on life cycle sociology appropriate as a text or supplement for courses on socialization social psychology and aging foundations of modern sociology series

this introductory text presents a unique approach to the examination of sociological principles it draws you into the material and encourages a deeper understanding of the discipline by focusing on such overarching questions as how do sociologists study society how is society possible why is there misery in the world and are human beings free you ll learn about the philosophies of classical sociologists such as marx weber durkheim mead and berger and look at how the field of sociology has approached these questions over

the past 150 years you'll also consider the benefits and drawbacks of globalization read about how individuals can affect society and learn how the tea party political movement and the revolution in Egypt illustrate social conflict as you explore sociology's compelling questions you'll find that there are often no clear and ready answers
