in 1743 according to legend the last wolf in scotland was killed
by a huntsman near inverness long regarded in folk takes and
history as a slayer of babies a robber of graves a devourer of
battlefield dead its extinction was widely celebrated but since
then deer have multiplied destroying the vegetation on which an
array of wildlife depends and it is clear that the entire
highland ecosystem has been thrown off balance by the elimination
of a top predator jim crumley believes the old stories are pure
fiction a distortion of reality which prevents people from
thinking rationally about the huge benefits wolves could bring
with reference to wolves in other cultures and places from the
south west of england to scandinavia and north america this is a
passionate polemic which argues for the return of the wolf to
heal the damaged land
