now in its 10th edition economics by sloman garratt guest is known and loved for its active learning student friendly approach and unrivalled lecturer and student support retaining all the hall mark features of previous editions it continues to provide a balanced comprehensive and completely up to date introduction to the world of economics

managerial economics has stood the test of time for the last 45 years because of the quality of presentation of its text it has become students favourite as it provides the latest theories thoughts and applications on the subject with timely revisions to stay up to date all the time since its first edition it has provided complete

comprehensive and authentic text on micro and macro aspects of managerial economics it has now been revised thoroughly by addressing the real world complexities of applying these theories to managerial decisions key to this edition is the introduction of 17 carefully chosen case studies that demonstrate the practical application of abstract economic concepts these case studies are strategically placed in the text to enhance the learning experience offering insights into the nuanced decision making processes in varied business contexts significantly this edition introduces an entirely new part vii focusing on theories of economic growth and business cycles this part delves into detailed discussions on economic growth and the dynamics of business cycles reflecting our commitment to depth and applicability

this book contends that post keynesian economics has its own methodological and didactic basis and its realistic analysis is much needed in the current economic and financial crisis at a time when the original message of keynes's general theory is no longer present in the most university syllabuses this book celebrates the uniqueness of teaching post keynesian economics providing comparisons with traditional economic rationale and illustrating the advantages of post keynesian pedagogy against a backdrop in which neo classical textbooks prevail the expert contributors demonstrate that keynes and the general theory possess indispensable insight that would furnish students with a clearer understanding of the world economy in which they live they explore the teaching of post keynesian economics from a number of different perspectives covering topics such as open system theorizing pluralism in teaching rhetoric in the spirit of keynes uncertainty expectations and money a critique of mainstream and traditional economic textbooks is also provided this highly unique and fascinating book will provide an invaluable reference tool for teachers and researchers in post keynesian economics as well as their students

interest in john maynard keynes has increased significantly over the past decade with the publication of his collected writings increased access to his unpublished papers and the resulting explosion of secondary literature responding to this renewed attention this collection brings together economists and historians of economics with scholars from philosophy and other related fields to reconsider keynes's work and its legacy several of these essays look at keynes not simply as an economist but more broadly as a philosopher special attention is directed to his views on aesthetics and moral philosophy as well as his contributions as a probability theorist the development of the keynesian heritage is also considered how did keynesian ideas become assimilated and domesticated into the mainstream of economic thought to the point of becoming dominant as the orthodoxy of the economics profession what was the relationship between postwar british conservatives keynes's work and britain's relative economic decline the archivist in charge of keynes's papers provides an additional vantage point on keynes's working methods and the broad range of scholars interested in his writings finally all of the essays are followed by a responder's comments thus providing an exchange of viewpoints contributors a w coats allin f cottrell jacqueline cox william darity john davis robert dimand peter groenewegen kevin hoover henry e kyburg

jr david laidler michael s lawlor greg lilly d e moggridge r m o donnell kerry pearce jochen runde teddy seidenfeld j d tomlinson

this text provides an ethnography of a chinese middle school based on fieldwork conducted in 1988 to 1989 it provides a way of looking at classroom and societal interactions in terms of the interplay among criticism face and shame
