this volume grown out of an international conference at freiburg university in 1999 deals with various aspects of shiite islam since the 18th century it is divided into two major parts the first of which is dedicated to traditional institutions of theology and learning and their transformation in modern times the second part treats internal debates and the activities of shiite dissidents showing that shiism is far from being uniform ideological and political developments in the 20th century and especially the islamic revolution in iran have shaped the image of modern shiism more than any other tendencies and are therefore also discussed in greater detail in parts three and four this book reflects the state of the art in this field of islamic studies its 21 contributions covering three centuries and a vast geographical range

historically incisive geographically broad reaching and brimming with illuminating anecdotes max rodenbeck new york review of books one of america s leading commentators on current events in the middle east iranian born scholar vali nasr brilliantly dissects the political and theological antagonisms within islam in this smart clear and timely book washington post still essential and still timely ten years after its original publication the shia revival provides a unique and objective understanding of the 1400 year bitter struggle between shias and sunnis and sheds crucial light on its modern day consequences a new epilogue elucidates the rise of isis and ongoing tensions between iran and saudi arabia

in mapping the role of intellectuals in iranian modern and contemporary history jahanbegloo and contributors examine the role of iranian intellectuals in the history of iranian modernity they trace the contributions of intellectuals in the construction of national identity and the iranian democratic debate analyzing how intellectuals balanced indebtedness to the west with the issue of national identity in iran recognizing how intellectual elites became beholden to political powers the contributors demonstrate the trend that intellectuals often opted for cultural dissent rather than ideological politics

this innovative book analyses the relationship between religion and politics in the middle east through a comparative study of five countries egypt israel turkey iran and saudi arabia robert d lee examines each country in terms of four domains in which state and religion necessarily interact national identity ideology institutions and political culture in each domain he considers contradictory hypotheses some of them asserting that religion is a positive force for political development and others identifying it as an obstacle among the questions the book confronts is secularization a necessary prerequisite for democratic development how is it and why is it that religion and politics are so deeply entangled in these five countries and why is it that all five countries differ so markedly in the way they identify themselves and use religion for political purposes the book argues that the nature of religious organization and practice in the middle east must be understood in the context of individual nation states the second edition is updated throughout and includes an entirely new chapter discussing the political and religious climate in saudi arabia earlier introductory analysis has been condensed to make room for new material and chronologies at the end of each chapter have been added to help students understand the broader context the second edition of religion and politics in the middle east is a robust addition to courses on the middle east

the only book of its kind this balanced and accessibly written text explores the geographical study of religion roger w stump presents a clear and meticulous examination of the intersection of religious belief and practice with the concepts of place and space he begins by analyzing the factors that have shaped the spatial distributions of religious groups including the seminal events that have fostered the organization of religions in diverse hearths and the subsequent processes of migration and conversion that have spread religious beliefs the author then assesses how major religions have diversified as they have become established in disparate places producing a variety of religious systems from a common tradition stump explores the efforts of religious groups to control secular space at various scales relating their own uses of particular spaces and the meanings they attribute to space beyond the boundaries of their own communities examining sacred space as a diverse but recurring theme in religious belief the book considers its role in religious forms of spatial behavior and as a source of conflict within and between religious groups refreshingly

jargon free and impartial this text provides a broad comparative view of religion as a focus of geographical inquiry
