a challenging new look at the great thinkers whose ideas have shaped our civilization from socrates to sartre presents a rousing and readable introduction to the lives and times of the great philosophers this thought provoking book takes us from the inception of western society in plato's athens to today when the commanding power of marxism has captured one third of the world t z lavine elton professor of philosophy at george washington university makes philosophy come alive with astonishing clarity to give us a deeper more meaningful understanding of ourselves and our times from socrates to sartre discusses western philosophers in terms of the historical and intellectual environment which influenced them and it connects their lasting ideas to the public and private choices we face in america today from socrates to sartre formed the basis of from the pbs television series of the same name

in from socrates to summerhill and beyond towards a philosophy of education for

personal responsibility ronald swartz offers an evolving development of fallible liberal democratic self governing educational philosophies he suggests that educators can benefit from having dialogues about questions such as these 1 are there some authorities that can be consistently relied upon to tell school members what they should do and learn while they are in school 2 how should the imagination of social theorists be both used and checked in the development and implementation of innovative educational reforms 3 how can teachers in personal responsibility schools help their students learn these questions are representative of problems that swartz raises in his book swartz identifies four educational programs as personal responsibility schools these are little commonwealth homer lane summerhill a s neill orphans home janusz korczak and sudbury valley school daniel greenberg swartz then suggests that these learning environments create social institutions that are liberal democratic and self governing and therefore endorse the policy of personal responsibility this policy states all school members students included are fallible authorities who should be personally responsible for determining their own school activities and many policies that govern a school schools which incorporate this policy can interchangeably be referred to as personal responsibility self governing or summerhill style schools in providing an historical and philosophical understanding of summerhill style schools swartz suggests that these educational alternatives have intellectual roots in the ideas associated with socrates as portrayed in plato s apology specifically in personal responsibility schools teachers are not viewed as authorities who attempt to transmit wisdom to their students rather self governing schools follow the socratic tradition which claims that teachers can be viewed as fallible authorities who attempt to engage students in dialogues about questions of interest to students the interpretation of plato s works used by swartz can be found in karl popper s the open society and its enemies swartz has also been significantly influenced by the educational writings of bertrand russell and paul goodman goodman s compulsory miseducation makes it clear that schools which follow in the tradition of summerhill compete with the educational programs that are an outgrowth of john dewey s writings in summary swartz s book aims to engage educators in dialogues that will lead to improved educational theories and practices

a new york times notable book for 2011 we all want to know how to live but before the good life was reduced to ten easy steps or a prescription from the doctor philosophers offered arresting answers to the most fundamental questions about who we are and what makes for a life worth living in examined lives james miller returns to this vibrant tradition with short lively biographies of twelve famous philosophers socrates spent his life examining himself and the assumptions of others his most famous student plato risked his reputation to tutor a tyrant diogenes carried a bright lamp in broad daylight and announced he was looking for a man aristotle s alliance with alexander the great presaged seneca s complex role in the court of the roman emperor nero augustine discovered god within himself montaigne and descartes struggled to explore their deepest convictions in eras of murderous religious warfare rousseau aspired to a life of perfect virtue kant elaborated a new ideal of autonomy emerson successfully preached a gospel of self reliance for the new american nation and nietzsche tried to compose into one and

bring together what is fragment and riddle and dreadful chance in man before he lapsed into catatonic madness with a flair for paradox and rich anecdote examined lives is a book that confirms the continuing relevance of philosophy today and explores the most urgent questions about what it means to live a good life

a history of philosophy in twelve thinkers the whole performance combines polyglot philological rigor with supple intellectual sympathy and it is all presented in a spirit of fun this bracing and approachable book shows that there is life in philosophy yet times literary supplement exceptionally engaging geuss has a remarkable knack for putting even familiar thinkers in a new light notre dame philosophical reviews geuss is something like the consummate teacher his analyses navigable and crystal his guidance on point doug phillips key reporter raymond geuss explores the ideas of twelve philosophers who broke dramatically with prevailing wisdom from socrates and plato in the ancient world to nietzsche wittgenstein and adorno the result is a striking account of some of the most innovative thinkers in western history and an indirect manifesto for how to pursue philosophy today geuss cautions that philosophers attempts to break from convention do not necessarily make the world a better place montaigne s ideas may have been benign but the fate of those of hobbes hegel and nietzsche has been more varied yet in the act of provoking people to think differently philosophers remind us that we are not fated to live within the systems of thought we inherit

ethics are a set of human rules which morally allow an individual to interact in or live freely within a group of people this may be in society at large a team a professional body or a group of people with similar interests historically ethics or moral philosophy are as old as human comprehension these can be traced back to the pre historic prohibited and accepted patterns of attitudes through the ages attempts were made by thinkers to clarify the way people behave share things mix in numbers and maintain standards in modern times the catalogue of such values and rules become part of all professions ethical contacts change with the advent of a new belief codes of practice and reliance on each other the brief historical survey of western ethics from socrates to the 21st century has shown constant themes each of these major questions is considered by this book in terms of meta ethics normative ethics and applied ethics

discussions on akrasia lack of control or weakness of will in greek philosophy have been particularly vivid and intense for the past two decades standard stories that presented socrates as the philosopher who simply denied the phenomenon and plato and aristotle as rehabilitating it straightforwardly against socrates have been challenged in many different ways building on those challenges this collective provides new and in some cases opposed ways of reading well known as well as more neglected texts its 13 contributions written by experts in the field cover the whole history of greek ethics from socrates to plotinus through plato aristotle and the stoics cleanthes chrysippus epictetus

since its inception philosophy has struggled to perfect individual understanding through discussion and dialogue based in personal poetic or dramatic investigation

the positions of such philosophers as socrates spinoza rousseau nietzsche foucault and derrida differ in almost every respect yet these thinkers all share a common method of practicing philosophy not as a detached intellectual discipline but as a worldly art what is the love that turns into knowledge and how is the knowledge we seek already a form of love reading key texts from socrates to derrida this book addresses the fundamental tension between love and knowledge that informs the history of western philosophy loveknowledge returns to the long tradition of philosophy as an exercise not only of the mind but also of the soul asking whether philosophy can shape and inform our lives and communities
