peek inside the mind of dexter morgan police forensic analyst family man serial killer and the star of showtime s most watched series with essays from seventeen psychologists and avid fans aimed at dexter devotees and armchair psychologists the psychology of dexter takes on the psychological complexities of the popular series with an eye towards insight and accessibility it analyzes not just the title character but his family coworkers and even his viewers what makes dexter tick what makes a show about a serial killer so appealing to those of us at home and do we need to be worried about our own dark passengers from the implications of faking normalcy could it be behind dexter s still in progress emotional growth to where the show weighs in on the psychological debate between nature and nurture this book gives fans a peek inside dexter s psyche think you know dexter the psychology of dexter will make you think again

the first edition of formulation in psychology and psychotherapy caught the wave of growing interest in formulation in a clinical context this completely updated and revised edition summarises recent practice research developments and debates while retaining the features that made the first a leading text in the field it contains new chapters on personal construct formulation formulation in health settings and the innovative practice of using formulation in teams the book sees formulation as a dynamic process which explores personal meaning collaboratively and reflectively taking account of relational and social contexts two case studies one adult and one child illustrate the use of formulation from the perspectives of expert clinicians from six different theoretical positions the book encourages the reader to take

a constructively critical perspective on the many philosophical professional and ethical debates raised by the process of formulating people's problems among the issues explored are the social and political context of formulation formulation in relation to psychiatric diagnosis the limitations of formulation controversies and debates about formulation this readable and comprehensive guide to the field provides a clear up to date and thought provoking overview of formulation from a number of perspectives essential for clinicians working in all areas of mental health and social care psychology therapy and counselling

step inside the mind of television's most calculated killer and discover the truth behind his darkness forensic analyst brother father predator dexter morgan isn't just one of television's most unforgettable characters he's one of the most psychologically complex he kills by code hides behind charm and controls his every move with surgical precision but beneath the blood spatter and ritual lies a man defined not by evil but by fear fear of emotion of chaos of being seen the psychology behind dexter morgan control compulsion and the cost of containment takes readers on an in depth exploration of the mind behind the mask blending real psychological theory with powerful storytelling analysis this book uncovers the trauma duality and hidden humanity of the world's most beloved antihero inside you'll uncover the origins of the dark passenger and the psychology of dissociation how trauma shapes identity control and the illusion of moral clarity the truth behind dexter's code and why it's more prison than purpose his complicated relationships with debra rita hannah and the reflection of love through fear why audiences empathize with the monster and what that reveals about us all each chapter examines dexter's world through the lens of real psychology from freudian theory and trauma studies to moral philosophy and modern neuroscience peeling back the layers of control to reveal the humanity hidden underneath whether you're a devoted dexter fan or fascinated by the minds of tv's most complex antiheroes this book offers a thought provoking deep dive into the psychology of control compulsion and conscience because the real story of dexter morgan isn't about killing it's about what happens when a man spends his life trying not to feel perfect for fans of dexter breaking bad you the sopranos and mindhunter and for

readers of the psychology behind walter white the psychology behind joe goldberg and the psychology behind buffy summers

the distinguished historian winton u solberg presents a detailed case study of one institution s transformation into a modern american university the years 1894 to 1904 mark the stormy tenure of andrew s draper as president of the university of illinois draper a successful superintendent of schools with no college or university experience and no credentials as a post secondary administrator presided over many crucial improvements in the university s physical plant curricula and other areas however he failed to infuse the university with a spirit of cohesion and his term as president was fraught with conflict from his inauguration on the autocratic draper collided with deans and faculty who opposed both the substance of his changes and the manner in which he presented and implemented them this volume closely examines the draper years from the perspectives of faculty students and administrators solberg outlines the administrative faculty staff and physical infrastructure he also reveals a vibrant and varied student life including a whirl of social activities literary societies intercollegiate debate and athletics hazing religion and increasingly prominent fraternities a sharply delineated and detailed picture of a university in transition the university of illinois 1894 1904 traces the school s shift from an institution known primarily as a training ground for engineers to a full fledged university poised to compete on the national level

dr rangathan the father of library science of india promulgated the practical approach to cataloguing i e classified catalogue code which is used in libraries and is being taught in b lib sc and m lib i sc as a practical paper in fact classified catalogue code is an indian system and proved more accurate precise and explanatory to the reader s choice dr rangathan s book has been the basis of the present book a practice handbook of classified catalogue it is an exact and detailed exposition of practical cataloguing and covers books and periodicals both that are commonly purchased or subscribed in all libraries academic public and special beginning with an introduction to the concepts of classified catalogue typography document and arrangement the book includes in its wide spectrum a detailed explanation of entry aspect

of cataloguing well illustrated with practical examples that render help in having a comfortable genuine and firm grasp of the subject practice exercises provided in the book further facilitate the students of the subject in self assessment it is hoped that the book would be an asset for those interested in library science it will be highly useful to the teachers and students and practising librarians who are engaged in learning and working in cataloguing field

this engrossing text examines the legal system through the use of psychological concepts methods and research results it seeks to clarify the basic dilemmas that persist in the legal system and looks at the ethical moral legal and psychological gray areas of the law including coverage of such topics as competence to stand trial pretrial publicity and resulting changes in venue criminal profiling civil case law and civil procedures the rights of children capital punishment the psychology of criminal trials the insanity defense expert forensic testimony and analysis of eyewitness identification and lineup procedures this edition balances discussion of the legal system with psychological theory concepts and research
