The author utilizes the public school setting as the vehicle for presenting his material since the school is a cross section of the population. The model proposed here can be adapted to other social agencies that utilize group counseling techniques. The author, Dr. Sheldon D. Glass, has a significant background in group work and in child and adolescent development; he is uniquely qualified in this area because he has completed formal training in education, adult psychiatry, child psychiatry, and pediatrics.

It emphasizes unique group processes and a systemic perspective, asserting that the quality of members' interactions is the critical determinant of a group's progress. It addresses all of the essential tasks in planning, conducting, and concluding groups. Other topics include teaching essential membership skills, how to teach group members interaction skills to assist them in personal growth, and the process of becoming an effective leader for professionals in the field of group counseling.

The fourth edition of this well-respected text, first published in 1979, is a timely and thorough revision of the existing material. Group counseling has done well over the years due in large part to its comprehensive history of group work as a counseling specialty, the practical nature of the authors' explanations, the diversity of sources the authors draw upon, and the international acclaim of Dr. Landreth's work on play and filial therapy. This text will provide both novice and experienced counselors with a framework from which to expand their group counseling skills and knowledge.

This book provides an introduction to the general landscape of group counseling by way of the idea that learning to be an effective group member is essential to becoming a group leader. Interactive scenarios place the reader right into the group, providing insights into the challenges and opportunities of participation. Each chapter explores a different stage of group work and concludes with useful suggestions and tips for having a successful experience. Throughout the book, an emphasis is placed on member development and personal growth being achieved through self-awareness, interpersonal experiences, and dynamic ways of being.
