the law of bitcoin is the definitive guide to navigating the rules in the dynamic world of cryptocurrency this book is the first of its kind delving into cryptocurrency law in four jurisdictions canada germany the united kingdom and the united states written by knowledge leaders in the legal cryptocurrency space the law of bitcoin addresses such topics as the intersection of cryptocurrencies and criminal law taxation anti money laundering and counter terrorist financing regulations securities law consumer protection negotiable instruments currency law and financial regulation the law of bitcoin will be a leading resource and go to text both for those wishing to understand the basics of how the law affects cryptocurrency and for those in the legal community searching for sophisticated answers to more advanced questions it is unique because the authors concisely and objectively explain how bitcoin and bitcoin are lawfully viewed they provide relevant up to date clarity in a space that is often nebulous confusing and filled with conflicting partisan information the authors arrive at what will likely be unpopular conclusions that are only possible because they are not seeking to defend special interest groups this includes issues such as fungibility which is handled in a manner that flips the conventional narrative within the bitcoin community on its head yet is important for any entrepreneur developer investor and user in the nascent space the law of bitcoin is a helpful guide to novices and veterans alike tim swanson author of the anatomy of a money like informational commodity and great chain of numbers

this volume comprehensively examines all texts dealing with social justice in the prophecy of amos it also provides evidence of contemporary systemic social injustice the volume then reflects on how biblical social justice is relevant to the contemporary quest for social justice this volume demonstrates that irrespective of the hermeneutical challenges the principles gleaned from the pages of the hebrew bible can dialogue effectively with modern issues and deduce living principles that could enable us to deal with issues that confront us today it is thus a framework by which biblical social justice illuminates the contemporary quest for social justice

the business of sports provides a comprehensive foundation of the economic organizational legal and political components of the sports industry geared for journalism communication and business students but also an excellent resource for those working in sports this text introduces readers to the ever increasing complexity of an industry that is in constant flux now in its third edition the volume continues to offer a wealth of statistics and case studies up to date with the newest developments in sports business and focused on cutting edge issues and topics including the many changes in international sports and the role of analytics in decision making and tax rules that have a major effect on athletes and teams

an irresistible journey of discovery science history and myth making told through the lives and afterlives of seven famous

human ancestors over the last century the search for human ancestors has spanned four continents and resulted in the discovery of hundreds of fossils while most of these discoveries live quietly in museum collections there are a few that have become world renowned celebrity personas ambassadors of science that speak to public audiences in seven skeletons historian of science lydia pyne explores how seven such famous fossils of our ancestors have the social cachet they enjoy today drawing from archives museums and interviews pyne builds a cultural history for each celebrity fossil from its discovery to its afterlife in museum exhibits to its legacy in popular culture these seven include the three foot tall hobbit from flores the neanderthal of la chapelle the taung child the piltdown man hoax peking man australopithecus sediba and lucy each embraced and celebrated by generations and vivid examples of how discoveries of how our ancestors have been received remembered and immortalized with wit and insight pyne brings to life each fossil and how it is described put on display and shared among scientific communities and the broader public this fascinating endlessly entertaining book puts the impact of paleoanthropology into new context a reminder of how our past as a species continues to affect in astounding ways our present culture and imagination

this book analyses how digital transformation disrupts established patterns of world politics moving international relations increasingly towards digital international relations this volume examines technological agential and ordering processes that explain this fundamental change the contributors trace how digital disruption changes the international world we live in ranging from security to economics from human rights advocacy to deep fakes and from diplomacy to international law the book makes two sets of contributions first it shows that the ongoing digital revolution profoundly changes every major dimension of international politics second focusing on the interplay of technology agency and order it provides a framework for explaining these changes the book also provides a map for adjusting the study of international politics to studying international relations making a case for upgrading augmenting and rewiring the discipline theory follows practice in international relations but if the discipline wants to be able to meaningfully analyse the present and come up with plausible scenarios for the future it must not lag too far behind major transformations of the world that it studies this book facilitates that theoretical journey this book will be of much interest to students of cyber politics politics and technology and international relations

the 2012 unep foresight process on emerging global environmental issues primarily identified emerging environmental issues and possible solutions on a global scale and perspective in 2013 unep carried out a similar exercise to identify priority emerging environmental issues that are of concern to the small island developing states sids the social and economic emerging issues were also identified using the same set of criteria at the core of the process was a sids foresight panel consisting of 11 sids experts for the unep panel and 12 experts for the un desa panel from the three sids regions representing the global sids community and a wide range of disciplines the process was designed to open the discussion on emerging environmental issues to a broad range of views both from the foresight panel and a wider community of relevant experts from across the globe through the foresight process separate lists of 20 environmental and 15 socioeconomic emerging issues were identified and discussed in this report
