why does value innovation play an important role for small and medium sized enterprises smes innovation besides imitation is the foundation to conduct business and

produce goods and services each company needs at least at one point or another during its lifecycle innovation to stay competitive within a market its importance increases throughout time because of new companies accessing existing domestic markets by overcoming the market barriers and the international integration of markets for global trading aside the well known forms of innovation a new type called value innovation was developed and published in 2005 this new category is embedded as an essential part in a strategy theory recognized as blue oceans this blue ocean strategy challenges companies to break out of their current market space but is this kind of innovation really new and usable for general management consulting the term value innovation is not new within business science however value innovation is used at a smaller scale nevertheless its meaning within the new theory which defines a new way to develop previously unidentified markets is crucial it requires an overall new perspective of the management to plan and carry out its business processes therefore its advantages are only evident in a general strategy approach can this concept be turned into a consulting model to support smes why are smes the right target group small companies often seek a market niche which can be attained by differentiation in order to survive in competitive markets usually the managers are using business strategies like cost cutting or differentiation of products processes or services to find this niche this approach originates from the assumption that a group of buyers within the market is accessible or need the traded goods or services at another level of quality prize design or function could this new theory help establish new niches the study will find answers to the questions m

inhaltsangabe abstract using the new theory blue ocean strategy of strategic behaviour the author is designing a consulting approach for management consulting business of small and medium sized enterprises sme in germany the blue ocean strategy challenges companies to break out of their current market by finding new unknown market space the purpose of the dissertation is to describe the current competitor s markets as the status quo the participants perceive in their usual strategic approach to identify then the key success factors and methods of the new theory creating of blue oceans as the alternative and mold the main issues of this approach into a consulting product the objectives are 1 identification of issues which could be described as key success factors for this new theory 2 the strengths and weaknesses of the blue ocean strategy approach 3 identifying smes as a target customer group and the value of the blue ocean approach for these target customers 4 a consulting approach for management consulting of smes the developed consulting concept could be offered to customers within their range of consulting services or be used as an internal measurement in consulting companies to find new areas for business development in order to meet the aims of this dissertation the following structure is chosen chapter 1 the chapter 1 introduces the aims and objectives of this dissertation its motivation limitations and structure chapter 2 in chapter 2 the general business strategies for competing on defined market and the sorts of innovations are explained chapter 3 in chapter 3 the terms of red oceans and blue oceans are defined and later explained how they relate to the used business strategies on the markets chapter 4 in chapter 4 the theory of blue oceans strategy will be presented on an abstract level to familiarize the reader with the key factors and main issues of this approach chapter 5 in chapter 5 the common definition of small and medium sized enterprises will be presented in a first step to follow up with the illustration of the current situation for the smes in germany referring to the results of interviews with market participants or observers and studies of literature chapter 6 in chapter 6 the consulting concept based on value innovation will be designed to understand in which way the approach differs from other consulting services there will be a short introduction into

most successful companies have operations management at their heart it enables strategy and should be part of boardroom discussions however cranfield research has shown that business strategy barely recognises the world of operations management recognising that operations management needs to be more strategic business operations models is a revolutionary new title that looks at the interrelationship of operations management and strategy in business operations models martin christopher and alan braithwaite identify the characteristics of market leading businesses that have transformed their markets and delivered super performance for their stakeholders it points to the theory gap between strategic thinking and operations and how many high performing businesses arrive at their new operating models as much by chance as judgement unpacking those observations leads to some clearly defined features of winning competitors including eliminating waste leveraging technology and utilising transformative business models business operations models offers a framework for achieving super performance and understanding when and how a company may be able to leverage its capabilities to outperform the book provides detailed international case studies that illustrate how the principles work in

practice including apple dell amazon john lewis southwest airlines aldi toyota and many others

though the concern regarding the confluence of continuity and change is well accepted there is hardly any well known framework in the literature that can be used as a benchmark to deal with this paradoxical issue keeping in view the significance of the topic and the lack of practical frameworks in managing continuity and change this book is an endeavor to fill the gap the main proposition of the book is that the strategic management of change could be better leveraged with clear understanding of continuity of the organization and consciously managing the vital and desirable areas of continuity along with change rather than leaving the continuity to be managed by default the continuity of any company provides the bedrock along which the flow of change could be channelized it adopts flowing stream as the principal metaphor for continuity and change to be taken side by side it can be treated as a stepping stone to inspire a lot of research in this area

a playbook for leaders in any walk of life with a foreword from richard leider the legendary executive life coach and best selling author the world needs positive leadership more than ever luckily there is a large untapped source of leaders who can change the world for the better all of us since each of us constantly influences those around us by definition everyone is a leader not just people with formal titles this book will help everyone tap into the power of their influence to pursue a meaningful purpose whether on the job in the community or at home all it takes is leadership intelligence a combination of 8 moral social and technical imperatives essential to our ability to positively influence others these 8 essentials include aim to be your ideal self know your real self ignite integrity and responsibility embrace empathy and compassion decide wisely let go of what you know achieve meaningful goals empower others don't wait for someone else to fix it is liberally illustrated with compelling stories of a varied cast of characters including the head of a skiing expedition to the north pole an olympic snowboarding coach a mountaineer leading a high altitude himalayan climbing team the executive director of an innovative low income senior housing community and the founder of a pioneering youth basketball program for girls examples of fixing it also come from the journeys of entrepreneurs and executives in the financial services health care educational travel and media industries in addition the book highlights insights of thought leaders such as internationally famous author and coach richard leider stephen m r covey a best selling author and global authority on leadership world renowned performance psychologist and author jim loehr and richard sheridan best selling author and co founder of the award winning software company menlo innovations authors doug lennick and chuck wachendorfer are highly qualified to share the lessons of don't wait for someone else to fix it both have decades of experience as corporate executives entrepreneurs community volunteers business coaches and parents for the reader who wants down to earth guidance about how to be a successful leader the book does more than just talk about the significance of leadership intelligence it features a wealth of practical exercises and tools for developing each of the 8 leadership intelligence essentials
