appraisal is the way language users express their attitude towards things people behaviour or ideas in the last few decades significant achievements have been made in appraisal theory research yet little attention has been paid to appraisal in scientific texts especially in relation to the contrast to how it is applied in english and chinese this title examines the similarities and differences of appraisal systems in english and chinese scientific research articles using a self constructed corpus of scientific research articles the authors make cross linguistic comparisons in terms of the quantity and distribution patterns of categories of appraisals they creatively categorise articles into theoretical scientific research articles and applied studies and discover that for both languages each genre can have its own favorite mode of distribution for the realization of appraisal systems in addition this research helps appraisal theory systems to become more explicit specific and more applicable for the analysis of scientific research articles students and scholars of applied linguistics comparative linguistics and corpus linguistics will find this an essential reference

this volume provides an up to date and evaluative review of theoretical and empirical stances on emotion and its close interaction with language and cognition in monolingual and bilingual individuals importantly it presents a novel methodological approach that takes into account contextual information and hence goes beyond the reductionist approach to affective language that has dominated contemporary research owing to this pragmatic approach the book presents brand new findings in the field of bilingualism and affect and offers the first neurocognitive interpretation of findings reported in clinical and introspective studies in bilingualism this not only represents an invaluable contribution to the literature but may also constitute a breakthrough in the investigation of the worldwide phenomenon of bilingualism beginning with a thorough review of the history and current state of affective research and its relation to language spanning philosophical psychological neuroscientific and linguistic perspectives the volume then proceeds to explore affect manifestation using neuropragmatic methods in monolingual and bilingual individuals in doing so it brings together findings from clinical and introspective studies in bilingualism with cognitive psychophysiological and neuroimaging paradigms by combining conceptual understanding and methodological expertise from many disciplines this volume provides a comprehensive picture of the dynamic interactions between contextual and affective information in the language domain thus affect language interactions in native and non native english speakers a neuropragmatic perspective fosters a pragmatic approach to research on affective language processing in monolingual and bilingual population one that builds bridges across disciplines and sparks important new questions in the cognitive neuroscience of bi and multilingualism
