mental maths is the maths we do in our heads without the use of calculators and without writing down the calculation mental  
 maths strategies are the tricks we use to do maths in our heads there are different ways of finding the answer to any mental maths  
 problem and such strategies are the focus of this series even though calculators and computers play an enormous role in the modern  
 world we still need to go back to the basics we do need to know how to check that the sales assistant at the counter is giving us the  
 right change mental maths has become more important than ever and new primary maths syllabuses in Australia are reflecting this  
 for example NSW has placed an emphasis on mental maths in its primary syllabus and even the year 10 school certificate examin  
 ation has a compulsory non calculator section features of this book include 32 double page units of mental maths are included 8 units for  
 each school term each unit is divided into four sets a b c and d of 20 questions each each numbered question covers particular maths  
 topics throughout the book for example question 1 always covers addition while question 20 always covers geometry a special help  
 section at the front of the book gives different strategies and explanations to help students solve mental problems these are also  
 numbered so they link to the question numbers in each mental unit a fun spot unit containing fun activities and a revision unit  
 are included at the end of each 8 units extra practice sections which reinforce particular strategies appear in the lower part of each  
 page answers to all questions are in a lift out section in the centre of the book

excel writing skills provides activities and exercises designed to improve the quality of students written expression the exercises are  
 based on ten common text types in which specific grammar punctuation and language skills are used this book will develop students  
 writing skills for all school subjects in this book your child will find exercises based around ten common text types a wide variety of  
 interesting activities fun visual exercises to stimulate the imagination revision sections throughout for constant reinforcement a lift  
 out answer section

these homework texts provide an opportunity for shared activities between parent and child they provide two activities a week a variety of formal written practice and informal shared practical activities the activities focus on key number skills and there is advice for parents
