a collection of case studies for nursing students and practitioners
offers 148 examples that foster creative thinking skills in medical
surgical pediatric maternity and psychiatric situations

presents a detailed overview of the activities and publications of
the gci scientific program covering the period 1984 1994

this volume presents the proceedings of an international symposium
organized by the getty conservation institute and the j paul getty
museum the first conference of its kind in twenty years the
symposium assembled an international group of conservators of
painted panels and gave them the opportunity to discuss their
philosophies and share their work methods illustrated in color
throughout this volume presents thirty one papers grouped into four
topic areas wood science and technology history of panel
manufacturing techniques history of the structural conservation of
panel paintings and current approaches to the structural
conservation of panel paintings

offers overview of applications of geosciences to sustainable
development and geophilanthropic efforts worldwide and offers
advice to guide creation of development projects primacy of
geologic input to all development activities is highlighted along
with problems that are encountered and environmental issues that
must be addressed

on 15 17 september 1993 innsbruck austria search another remarkable
case that of the pre colum hosted the international mummy symposium
this bian miner from restauradora mine near chuqincamata does not
mean that beautiful north tyrol was the setting in northern chile

is the result of impregnation with for a gathering of the world s most prominent mummies copper salts and the mummy became an attraction as themselves but rather the exciting discovery of a late copper man at various fairs around the country as he neolithic glacial mummy released from the ice of the was found with a complete set of miner s tools the otztal alps provided the focus of attention for numerous mummy offers a unique insight into the life and working scholars from many different parts of the world to come conditions of an indio miner of the first millennium ad together to address various questions relating to mum even so the mummified remains comprise only the skel mified human remains eton with a completely rigid covering of skin whereas normally researchers studying the remains of histori the other soft parts have not survived calor prehistoric human bodies will at best have bony in contrast mummification in ice and especially in substance to work on it is rarely the case that soft parts the permafrost can produce much better results

the purpose of this study was to determine whether a 40 reduction in traffic fatalities and injuries by 2010 is a reasonable goal to include in virginia s state level strategic highway safety plan or whether such a goal is overly optimistic to achieve the study objective the scope of the study was limited to making the following determinations 1 forecast the total number of traffic fatalities and injuries in virginia in 2010 assuming three scenarios in scenario 1 no state level traffic safety plan or major traffic engineering safety improvements are implemented between now and 2010 in scenario 2 only four traffic engineering improvements are made between now and 2010 in scenario 3 a primary seat belt law along with the four engineering improvements from scenario 2 are implemented 2 determine the probability that virginia can achieve a 40 reduction in fatalities and injuries by 2010 under scenarios 2 and 3 3 determine realistic goals for the reduction of traffic fatalities and injuries in virginia in 2010 based on the forecasts under the three scenarios the 40 reduction goals are overly optimistic assuming a normal distribution of the forecasts the probabilities of achieving 40 reduction goals for fatalities and injuries are very low or low under scenario 2 if the four engineering treatments are implemented at the 50 level the probabilities that virginia would achieve 40 reductions in 2010 are

1 2 for fatalities and 0 012 for injuries under scenario 3 assuming that the primary enforcement seat belt law was enacted and the four engineering treatments were implemented at the 50 level the probabilities are 8 6 for fatalities and 0 05 for injuries accounting for a slight increase in fatalities and injuries in 2010 compared to 2004 realistic goals for virginia are a 10 maximum of 20 reduction goal for fatalities and a 5 maximum of 10 reduction goal for injuries these recommended goals assume that virginia enacts a primary enforcement seat belt law and exercises enforcement efforts accordingly and deploys engineering crash countermeasures comparable to the 20 to 30 level of implementation of the four treatments used in this study namely 1 adding an exclusive left turn lane to intersections 2 modifying the signal change intervals 3 installing centerline rumble strips and 4 installing upgrading guardrail

europaean glacial landscapes maximum extent of glaciations brings together relevant experts on the history of glaciers and their impact on the landscape of the main regions of europe in some regions the largest recorded glaciations occurred before the last glacial cycle in one of the major glacial cycles of the middle pleistocene however the best preserved evidence of glaciation in the landscape is from the last glacial cycle late pleistocene the book also analyses these older glacial landforms that can sometimes still be seen in the landscape today this analysis provides a better understanding of the succession of pleistocene glaciations and the intervening interglacial periods examining their possible continental synchrony or asynchrony of past glacier behaviour the result of this analysis gives important new insights and information on the origin and effects of climatic and geomorphological variability across europe europaean glacial landscapes maximum extent of glaciations examines the landscapes produced by glaciers throughout europe the geomorphological effects of glaciations as well as the chronology and evolution of the past glaciers with the aim of understanding the interrelationship between glacial expansion and climate changes on this continent this book is a valuable tool for geographers geologist environmental scientists researchers in physics and earth sciences provides a synthesis that highlights the main similarities or differences through both space and time during the maximum recorded

expansions of pleistocene glaciers in europe features research from experts in glacial geomorphology palaeo glaciology palaeo climatology and palaeo oceanography on glacial expansion in europe includes detailed color figures and maps providing a comprehensive comparison of the glacial landscapes of european pleistocene glaciers

this book provides a comprehensive overview of the landscapes and landforms of switzerland it covers the country s geological and tectonic context together with its climatic context geomorphological history structural and karstic landscapes glacial and periglacial landscapes landscapes with natural hazards geomorphology and society and the preservation of its geomorphological heritage richly illustrated it presents case studies on some of the country s most famous natural sites including the matterhorn aletsch glacier sardona tectonic arena and engadine among others
