why are group decisions so hard since the beginning of human history people have made decisions in groups first in families and villages and now as part of companies governments school boards religious organizations or any one of countless other groups and having more than one person to help decide is good because the group benefits from the collective knowledge of all of its members and this results in better decisions right back to reality we've all been involved in group decisions and they're hard and they often turn out badly why many blame bad decisions on groupthink without a clear idea of what that term really means now nudge coauthor cass sunstein and leading decision making scholar reid hastie shed light on the specifics of why and how group decisions go wrong and offer tactics and lessons to help leaders avoid the pitfalls and reach better outcomes in the first part of the book they explain in clear and fascinating detail the distinct problems groups run into they often amplify rather than correct individual errors in judgment they fall victim to cascade effects as members follow what others say or do they become polarized adopting more extreme positions than the ones they began with they emphasize what everybody knows instead of focusing on critical information that only a few people know in the second part of the book the authors turn to straightforward methods and advice for making groups smarter these approaches include silencing the leader so that the views of other group members can surface rethinking rewards and incentives to encourage people to reveal their own knowledge thoughtfully assigning roles that are aligned with people's unique strengths and more with examples from a broad range of organizations from google to the cia and written in an engaging and witty style wiser will not only enlighten you it will help your team and your organization make better decisions decisions that lead to greater success

effects of group dynamics on decision making

the complete guide to understanding the structure of homeland security law new topics featuring leading authors cover topics on security threats of separatism secession and rightwing extremism aviation industry's crew resource management principles and ethics legal and social issues in homeland security legal and social issues in homeland security in addition the chapter devoted to the trans pacific partnership is a description of economic statecraft what we really

are good and bad outcomes significantly affected by the decision making process itself indeed they are in that certain decision making techniques and practices limit the ability of policymakers to achieve their goals and advance the national interest the success of policy often turns on the quality of the decision making process mark schaffer and scott crichlow

identify the factors that contribute to good and bad policymaking such as the personalities of political leaders the structure of decision making groups and the nature of the exchange between participating individuals analyzing thirty nine foreign policy cases across nine administrations and incorporating both statistical analyses and case studies including a detailed examination of the decision to invade iraq in 2003 the authors pinpoint the factors that are likely to lead to successful or failed decision making and they suggest ways to improve the process schaffer and crichlow show how the staffing of key offices and the structure of central decision making bodies determine the path of an administration even before topics are introduced additionally they link the psychological characteristics of leaders to the quality of their decision processing there is no greater work available on understanding and improving the dynamics of contemporary decision making

the book that reveals how today s most successful leaders turn vision into reality featuring profiles of jeff bezos bill gates mark zuckerberg steve jobs reed hastings mike lawrie and more consensus negotiation compromise a democratic approach to leadership drives most organizations today consensus based decision making may be popular but it is far from the best approach in business it s also rarely the right approach for c level executives especially now that digital technology is driving real business disruption simply put consensus is an innovation killer the most successful disruptive companies are propelled forward by mandate driven leaders these leaders are inspired by a compelling belief idea strategy or tactic through their willpower organizations are thrust into the future the mandate driven leadership model is the hallmark of visionaries who have changed entire industries and sustained consistent innovation in their own companies the power of mandate reveals what it takes to be an effective leader in today s disruptive business environment you ll learn how the most audacious visionaries managed turn their visions into reality this timely book will help you discover your inner visionary avoid the pitfalls of consensus leadership create a mandate driven culture develop leadership skills in others and more profiles of the most successful mandate driven leaders including amazon s jeff bezos apple s steve jobs facebook s mark zuckerberg netflix s reed hastings airbnb s brian chesky dxc technology s mike lawrie and microsoft s bill gates provide invaluable leadership lessons you can begin applying today

this radically new work provides an innovative approach to the question of why the suez crisis erupted bertjan verbeek here applies foreign policy analysis framework to british decision making during the crisis providing the first full foreign policy analysis of this important event moreover the book offers a new interpretation on british decision making during the crisis many existing studies of suez emphasise the role of the prime minister sir anthony eden and often focus on the matter of collusion with israel this study demonstrates that small group dynamics in the institutional context of cabinet decision making in the british political system are much more important this study offers the possibility of determining more precisely the interrelationship between systemic constraints on states behaviour and the actual behaviour of states under such constraints
