an investigation into the underpinnings and superstructures of the pagan world view pagan religions have tended to be more concerned with practice than with theory and in a system that has no dogma no legislated doctrine that is as it should be yet as the movement grows and matures it is inevitable that we will begin to think in a more abstract way about our models and systems john michael greer has provided a primer on the kinds of ideas and themes that must be included in any discussion of the theology and philosophy of neo pagan religions much of the book takes shape in a dialogue with existing ideas in theology philosophy and comparative religion it looks to find a middle ground between too much and
