living off the land a beginner's guide to being self sufficient table of contents introduction chapter 1

it's what you do with what you've got that matters proper management includes keeping your pastures in good shape chapter 2 moo bah cluck and oink chapter 3 eat your veggies chapter 4 fruits herbs and flowers conclusion author bio publisher introduction there's a little bit of pioneer spirit in all of us we can't help it it's in our blood for some this pioneer spirit shows itself in someone's determination to climb to the top of the corporate ladder but for others this pioneer spirit takes them back to their roots literally giving them the desire to be self-sufficient to the greatest extent possible if you are reading this book you are most likely someone wanting to be more self-sufficient good for you with the cost of food going higher and higher every week literally and the nearly constant revelations of the negative effects of chemicals processed foods and other things we ingest it's a shame more people aren't willing to do more to get back to the basics of providing for themselves yes it's true you may raise a few eyebrows or be asked if you're hooked on reruns of Little House on the Prairie but that's okay besides I bet those same people will be wishing they would have been a little less critical when you're giving away excess produce anyway the purpose of this book is to give you the direction and encouragement you need to be able to be as self-sufficient as possible so without further ado let's get started

a beginner's guide to bottling fruit and vegetables with tips on how to prepare and preserve food for long term use table of contents introduction rules of bottling types of jars and bottles sterilizing tips equipment necessary for bottling methods of sterilization hot water bath method hot water sterilization quick method oven method second oven method boiling tomatoes tomato in their own juice preserving tomatoes in brine tomato purée tomato juice bottling methods for vegetables blanching and sterilizing process for vegetables water bath method acid brine lemon juice method using bottled vegetables preparation of fruit and temperature chart timetable for sterilizing vegetables in pressure cooker conclusion author bio introduction we are everlastingly grateful to that homemaker millenniums ago who decided that she needed to preserve food for the coming winter that was a little step for her but it was a giant step for mankind soon people began to preserve food in stoneware jars the principle of preserving these fruit food items depended firstly upon the destruction by need of all the mold and bacteria in the air fruit or water as technological development and experimental sciences began to develop in ancient civilizations they discovered how to make glass containers and bottles more than 5000 years ago naturally at the same time the cook in the kitchen was experimenting on food stuffs it was only by trial and error that she learned that if she kept items of food in a moist atmosphere it would soon grow moldy and perish real fast also she learned that the exclusion of air during the sealing off the bottles prevented this mold from growing on the surface of the food along with that she found out that salt vinegar wine and oil were extremely useful mediums in which she could preserve food and that is how the art of preserving food in the shape of jams jellies pickles and chutneys came into existence so this art has come down to us through the ages and that is why many families have closely guarded secret recipes for pickling or preserving food and that is when our grannies told us in grave tones remember children the containers in which you put this jam should be totally sealed really properly that is how you are going to keep it for a long time natural vinegar and natural oil was used as an important medium since ancient times to preserve fruit pickles and other natural food items along with that salt and sugar were used as preservatives
