parent child separation psychosocial effects on development is an abstracted bibliography dealing with the consequences of parental separation and deprivation on the developing child and adolescent we were interested in investigating the literature pertaining to the absence of a parent for reasons other than parental death main topics included were maternal or paternal absence

due to desertion military duty imprisonment parental institutionalization and divorce restricted parenting articles were included when they dealt with maternal or paternal inattention rather than physical abuse particular problems with being a single parent were viewed from the perspective of child development because of the wealth of literature available in this area it became necessary to exclude topics such as laboratory studies dealing with temporary separation normative attachment studies effects of maternal employment child abuse child institutionalization and the like other related topics will be the subject of forthcoming books these include the effect of parental death on the child and problems of childhood hospitalization in parent child separation each of the 690 main references have abstracts which were derived from three main sources psychological abstracts author supplied abstracts and those written by the authors of this book in compiling this book it became necessary because of size limitations to focus on articles published after 1960 however several pre 1960 articles and books were important from a historical perspective and are included in a separate section marked historical references these represent important earlier contributions to this vast subject area

seminar paper from the year 2017 in the subject sociology relationships and family grade a language english abstract this paper focuses on the importance of parents during the upbringing of a child with a major event such as a divorce the children are heavily affected which can result in a child's emotional problems suicidal thoughts stress and trauma parents separation becomes a reason for the child not to get attention and the bond he used to share with his parents weakens which leads to a communication distance where a child is no longer able to talk to anyone alongside the child's education is also affected there might be chances they indulge in inappropriate acts including the use of drugs and alcohols or sexual activities is divorce harmful to children is one of the most frequently asked questions in the past two decades about family life the researchers have chosen this topic because children are the tomorrow of any nation and any harm to their upbringing would affect the entire nation itself objectives of this research are to find out ways in which the parents divorce affects the upbringing of children and solutions to minimize the aftermath of emotional and social stress the research design consists of different methods through which data is collected for the study at hand research is employed which includes both qualitative and quantitative analysis along with primary and secondary research methods a survey method is selected in order to practice against the issue of divorce in families mainly affecting their children which is unfortunately common in our society and also to authentically conduct the study without the study being too biased for primary research questionnaires and interviews were conducted as tools however articles were referred to as secondary research

the long awaited companion volume to the extremely popular angles on psychology as text has arrived this excellent new book provides coverage of the edexcel a2 specification

## abstract

edited by internationally recognized authorities in the field this expanded and updated new edition of the bestselling handbook containing more than 100 new articles is aimed at the design and operation of modern particle accelerators it is intended as a vade mecum for professional engineers and physicists engaged in these subjects with a collection of more than 2000 equations 300 illustrations and 500 graphs and tables here one will find in addition to the common formulae of previous compilations hard to find specialized formulae recipes and material data pooled from the lifetime experience of many of the world s most able practitioners of the art and science of accelerators the eight chapters include both theoretical and practical matters as well as an extensive glossary of accelerator types chapters on beam dynamics and electromagnetic and nuclear interactions deal with linear and nonlinear single particle and collective effects including spin motion beam environment beam beam beam electron beam ion and intrabeam interactions the impedance concept and related calculations are dealt with at length as are the instabilities associated with the various interactions mentioned a chapter on operational considerations includes discussions on the assessment and correction of orbit and optics errors real time feedbacks generation of short photon pulses bunch compression tuning of normal and superconducting linacs energy recovery linacs free electron lasers cooling space charge compensation brightness of light sources collider luminosity optimization and collision schemes chapters on mechanical and electrical considerations present material data and important aspects of component design including heat transfer and refrigeration hardware systems for particle sources feedback systems confinement and acceleration both normal conducting and superconducting receive detailed treatment in a subsystems chapter beam measurement techniques and apparatus being treated therein as well the closing chapter gives data and methods for radiation protection computations as well as much data on radiation damage to various materials and devices a detailed name and subject index is provided together with reliable references to the literature where the most detailed information available on all subjects treated can be found

nsa is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976 pre dating the prestigious inis database which began in 1970 nsa existed as a printed product volumes 1 33 initially created by doe s predecessor the u s atomic energy commission aec nsa includes citations to scientific and technical reports from the aec the u s energy research and development administration and its contractors plus other agencies and international organizations universities and industrial and research organizations references to books conference proceedings papers patents dissertations engineering drawings and journal articles from worldwide sources are also included abstracts and full text are provided if available
