in this book ethnographic historical and epidemiologic data are brought to bear on the subject of the acquired immune deficiency syndrome aids in haiti the forces that have helped to determine rates and pattern of spread of human immunodeficiency virus hiv are examined as are social responses to aids in rural and urban haiti and in parts of north america history and its calculus of economic and symbolic power also help to explain why residents of a small village in rural haiti came to understand aids in the manner that they did drawing on several years of fieldwork the evolution of a cultural model of aids is traced in a small village in rural haiti it was possible to

document first the lack of such a model and then the elaboration over time of a widely shared representation of aids the experience of three villagers who died of complications of aids is examined in detail and the importance of their suffering to the evolution of a cultural model is demonstrated epidemiologic and ethnographic studies are prefaced by a geographically broad historical analysis which suggests the outlines of relations between a powerful center the united states and a peripheral client state haiti these relations constitute an important part of a political economic network termed the west atlantic system the epidemiology of hiv and aids in haiti and elsewhere in the caribbean is reviewed and the relation between the degree of involvement in the west atlantic system and the prevalence of hiv is suggested it is further suggested that the history of hiv in the dominican republic jamaica trinidad and tobago and the bahamas is similar to that documented here for haiti

does the scientific theory that hiv came to north america from haiti stem from underlying attitudes of racism and ethnocentrism in the united states rather than from hard evidence award winning author and anthropologist physician paul farmer answers with this the first full length ethnographic study of aids in a poor society first published in 1992 this new edition has been updated and a new preface added

does the scientific theory that hiv came to north america from haiti stem from underlying attitudes of racism and ethnocentrism in the united states rather than from hard evidence paul farmer answers with this ethnographic study of aids in a poor society

dr paul farmer is one of the most extraordinary people i ve ever known partner to the poor recounts his relentless efforts to eradicate disease humanize health care alleviate poverty and increase opportunity and empowerment in the developing world it will inspire us all to do our parts william j clinton if the world is curious about paul farmer there is a reason for that no one has done more than he has in bringing modern medicine to the poor across the globe and no one has exceeded him in making us appreciate the diverse barriers that prevent proper medicine from reaching the underdogs of the world in this wonderful collection of essays putting together paul farmer s writings over more than two decades we can see how his far reaching ideas have developed and radically enhanced the understanding of the challenges faced by healthcare in the uneven world in which we live this is an altogether outstanding book amartya sen nobel laureate economics to delve into these pages is to join one of the world s great explorers on an epic life journey to grapple with culture poverty disease health care ethics and ultimately our common humanity in the age of aids paul farmer is a pioneer guide and inspiration at a time of unprecedented contrasts between wealth and poverty power and powerlessness health and disease compassion and neglect his medical expertise anthropological vision and unflinching decency have helped to recharge our world with moral purpose jeffrey d sachs columbia university wow perfect for teaching this is more than vintage farmer editor haun saussy knows farmer s work inside out and has assembled and organized 25 classic articles that project the heart of farmer s brilliant radical inspiring eminently practical and dare i say genuinely subversive work philippe

bourgeois author of righteous dopefiend if they gave nobel prizes for raising moral awareness paul farmer would have won his a long time ago for several decades now his work has posed a challenge to anyone who dares say that radically improving the health of the world s poor can t be done this splendid compilation of the best of his work allows us to follow a restless creative compassionate mind in action in and out of prisons and barrios and mud huts and hospital wards from haiti to rwanda to moscow never taking no for an answer adam hochschild author of bury the chains paul farmer is a deep scholar of haitian society a formidable medical anthropologist an implacable theorist of structural violence and health as a human right and an ethicist for whom the place of social justice in medicine and in the world is an existential need this book is the platform of interconnected intellectual academic and practical engagements upon which the amazing world transforming life of farmer stands arthur kleinman author of what really matters living a moral life amidst uncertainty and danger this collection shows the impressive catalytic effects of original scholarship when combined with action activism and a commitment to social justice in health paul farmer and his pih colleagues have twice changed world health organization policies they continue to have a lasting impact on the global health movement and on the lives of the poor peter brown emory university

set in haiti following the 2004 coup and enhanced by research carried out after the 2010 earthquake killing with kindness analyzes the impact of official development aid on recipient non governmental organizations ngos and their relationships with local communities it offers rich ethnographic comparisons of two haitian women s ngos working in hiv aids prevention and examines participation and autonomy as well as donor policies that inhibit these goals

the book shows clearly how the equation of disease with outsiders and illness with genetic inferiority broadly affected not only immigration policy and health care but even the workplace and schools

a study of how migrants adapt to their new country while still maintaining ties to the old with an emphasis on haitian migrants to the us

this new collection turns a critical anthropological eye on the nature of health policy internationally the authors reveal the prevailing social inequalities that often represent significant threats to the health and well being of the poor ethnic minorities and women the authors define an anthropology of policy concerned with decision making and the impact of health policy on human lives it will be a critical resource for researchers and practitioners in medical anthropology medical sociology public policy and public health care
