regarded by his contemporaries as one of television's premier comedy creators, not Hiken was the driving creative force behind the classic 1950s and 1960s series *Sgt. Bilko* and the hilarious *Car 54, Where Are You?* King of the Half Hour, the first biography of Hiken draws extensively on exclusive first-hand interviews with some of the well-known TV personalities who worked with him, such as Carol Burnett, Fred Gwynne, Alan King, Al Lewis, and Herbert Ross. The book focuses on Hiken's immense talent and remarkable career from his early days in radio as Fred Allen's head writer to his multiple Emmy-winning years as writer, producer, director on television. In addition to re-establishing Hiken's place in broadcast history, biographer David Everitt places him in the larger story of early New York broadcasting. Hiken's career paralleled the rise and fall of television's golden age; he embodied the era's best qualities: craftsmanship, a commitment to excellence, and a distinctive uproariously funny and quirky sense of humor. At the same time, his uncompromising independence prevented him from surviving the changes in the industry that brought the golden age to an end in the 1960s. His experiences bring a fresh and until now unknown perspective to the medium's most extraordinary period.

foreseeing conflict between the legislative and executive branches over the proper functions of government, the founders of the United States built into the U.S. Constitution the checks and balances that Edwin S. Corwin called an invitation to struggle. Smist argues that congressional intelligence oversight committees, such as Senator Church's 1975-76 committee, can by taking up this struggle not only handle sensitive information responsibly but help shape rational foreign policy when Congress is shut out of the intelligence process, as in President Carter's abortive Iran rescue mission and Reagan's Iran Contra affair. The results can be catastrophic. Smist's detailed analysis of congressional oversight of U.S. intelligence from Pearl Harbor through Iran Contra is based largely on his interviews with participants, including senators, representatives, and executive branch officials. The analysis is informed by Smist's dialectical model of institutional conservatism: supportive versus investigative, radical questioning oversight, which allows him to uncover the frequently obscured historical value of previous Senate and House investigative committees. For example, the Pike Committee, 1975-76, even though its final report was suppressed by the House, was able to elicit then Secretary of State Kissinger's admission of presidential control over covert actions, thus shattering the doctrine of plausible deniability. Because these committees continue to wrestle with the principles underlying government, their unfolding drama is meaningful for the student of constitutional history. This book provides new conceptual tools for the study of intelligence oversight and gives the direct testimony of key participants, making it important not only as political science but as history.
