describes learning disabilities and what can be done to overcome them

bernice wong s learning about learning disabilities was the first text to give equal attention to the intellectual conceptual and practical aspects of learning disabilities the third edition of this popular title presents 80 new material keeping the chapters up to date in this fast moving field with new contributors and seven new chapters coverage is both comprehensive and thorough with three sections encompassing the research aspects of learning disabilities the instructional aspects of learning disabilities and the issues germane to different age ranges of the learning disabled children adolescents and adults chapters summarizing research on learning disabilities include coverage of adhd memory language processing social competence self regulation and brain structures as they apply to learning disabilities chapters focusing on instructional aspects of learning disabilities include coverage of teaching literacy reading comprehension writing and mathematics readers will find learning about learning disabilities third edition suitable for use as a reference source for researchers or a graduate level text reviews from previous editions an undergraduate text that strikes a careful balance between the intellectual psychological and practical aspects of learning disabilities book news inc this text provides a balanced focus on both the conceptual and practical aspects of learning disabilities its research coverage is more comprehensive and of greater depth than any other ld textbook and it is distinctive in its treatment of such important areas as consultation skills and service delivery child assessment news learning about learning disabilities provides a broad overview of some important issues in relation to the education and development of pupils with learning disabilities wong has succeeded in providing detailed descriptions and comments within a book which covers a broad range of topics without exception the chapters are clearly written and accessible and many provide the reader with challenging ideas and practical suggestions british journal of special education provides a balanced focus on both the conceptual and the practical aspects of learning disabilities research coverage more comprehensive and of greater depth than any other textbook about learning disabilities the work is distinctive in its treatment of such important areas as consultation skills and service delivery

this book uses the concept of learning disability to explore what it means to be human it argues that we need to learn with rather than from or about learning disability this crucial distinction means being open to what learning disability can teach us about what it means to be human this approach comes from recognising learning disability as an organising concept a concept which radically transforms our sense of what it means to be or not be a person after reflecting on the author s

relationship to learning disability the book explores relationships and tensions between conceptualisations of learning disability and of the human through historical ontology the book initially examines how the phenomenon of learning disability came into being it then explores ways in which the concept of learning disability has over the course of the 20th and 21st centuries radically transformed our sense not only of education and learning but also of who is or is not deemed entitled to full citizenship and the associated rights and so who is or is not fully human each chapter of the book exposes tensions and contradictions apparent in the ways we tend to think about personhood and learning disability illuminating them through a series a binary oppositions human and not fully human menacing and vulnerable controlled and abandoned capable and incapable human and posthuman the book concludes by drawing together these tensions and contradictions to challenge the prevailing metanarrative of disability and make the case for a more inclusive conceptualisation of what it means to be human it will be of interest to all scholars and students of disability studies the history of learning disability humanism and posthumanism and learning disability advocacy

specific learning disability is by far the largest category of conditions served in special education unfortunately few parents and educators truly understand what a learning disability is many erroneously believe it is a politically correct term for mildly mentally retarded or dull normal further while most laypeople have heard of dyslexia rarely do they know about other types of learning disabilities such as dysnomia or dyscalculia in addition to explaining what learning disabilities are and how they should be diagnosed learning disabilities what are they also explores the many different types of learning disabilities that affect children and adults today moreover it presents a host of strategies and resources that can show parents and teachers how to help children succeed easy to read and informative this book is essential for any parent or teacher who has a child with a learning disability

the present title networks and systems has been designed for the undergraduate students of engineering of all streams it is a comprehensive book dealing with the basics with clear and easy understandable illustrations subject matter has been dealt in straight forward manner it has been the content endeavour of the author to furnish maximum substance keeping in view of the limitations of the size of the volume efforts have been made to condense the matter as far as practicable it is hoped that this book will not only meet the requirements of indian students but will also be

useful as a guideline to the teachers in their teaching contents introduction circuit concepts signals and systems network functions poles and zeros network theorems two port networks fourier transforms the laplace transformation elements of network synthesis

practical up to date guidance on identifying specific learning disability essentials of specific learning disability identification provides accessible authoritative guidance on specific learning disability sld with the most up to date information on assessment identification interventions and more contributions by leading experts examine multiple theoretical orientations and various identification approaches for dyslexia dyscalculia dysgraphia and other common slds emphasizing real world utility this book provides important information for professionals who work with children and youth at risk many of the sld identification practices can be put to work immediately and the expert coverage offers many strategies and interventions for student support in the classroom this new second edition has been updated to align with the most current understanding of sld manifestations diagnostic assessment and evidence based interventions and includes new material covering nonverbal learning disability speech language impairment general learning difficulties and differentially diagnosing sld from other conditions early sld identification and the right kind of help can raise the trajectory of a child s life this book provides in depth information to facilitate accurate identification and appropriate intervention to help you help the children in your care understand how sld manifests in academic performance learn theory and research based approaches to sld identification examine the latest information about new aspects of sld determination utilize appropriate and effective intervention strategies for student support if a child s learning disability is caught early and the correct type of support is provided that child gets the chance to develop the skills that lead to achievement in school and beyond as a high incidence disorder sld affects 10 15 percent of the general population making successful identification an essential skill for those who work with children essentials of specific learning disability identification provides authoritative guidance and practical methods that can help you start changing children s lives today

this is a book about the struggle of many new zealand families to have their children with learning disabilities included in local community schools it reviews the influences in the post war period that shaped the state response to the right of all children to attend school reflections from both education policy makers and parents of that time

are included the book also examines the more recent impact of neoliberal politics on education policy and the consequences experienced by families with school aged children with disabilities who may well become collateral damage in the enterprise of improving schools after examining the families experience the book asks how inclusion can be fostered in schools and classrooms practitioners and academics present research findings that indicate alternative ways of thinking and acting that attest to more ethical and humane responses to human difference citizens school personnel politicians and policy makers should be challenged by the tales from school arising from attempts to achieve a world class inclusive education system cover photograph by rod wills oratia district school

introduction in the present modern society mastery of basic academic skills reading writing and arithmetic is a necessary pre requisite for success in both school and employment setting and in society at large a large percentage of children suffer from learning disabilities or learning difficulties and therefore do not master or partially master these required academic skills not surprisingly each one learns differently most of us have our own learning difficulty to cope with some people don t do well with numbers others have difficulty in writing some people feel they have to discuss a new idea before they understand it others need to mull it over in privacy learning difficulties and learning problems are often the first descriptive terms used when a child begins to have trouble in school in some countries it is used as a synonym for learning disabilities however learning difficulties and learning disabilities are usually distinguished with learning difficulties being a broader term not all difficulties are learning disabilities children develop at different rates and sometimes what seems to be a learning disability may resolve as the child matures importantly children who are language learners are sometimes misidentified as having learning disability as these children are from impoverished backgrounds or with severe problems at home that impact their preparation for school or their behaviour the term learning difficulty has been applied to those children who have significantly greater difficulty in learning than the majority of their age they are unable to make use of the education facilities available in schools people with learning difficulties can have problems with many every day learning activities reading spelling and numeracy skills are basic to school achievement children with specific learning difficulties may show problems in all three areas or only one or two reading and spelling are closely associated skills and it is rare to find reading disabled children who are not at all handicapped in spelling most children are likely to be behind in all three areas although there are occasional

reports of subgroups showing rather more of one or the other deficit learning disability. It is a neurologically based processing problem. Children with this disability are a heterogeneous group of individuals exhibiting

with its spread of chapters covering key issues across the life cycle this text has established itself as the foundational primer for those studying the lived experiences of people with learning disabilities and their families and outcomes achieved through services and support systems recognising learning disability as a lifelong disability this accessible book is structured around the life cycle the second edition is refreshed and expanded to include seven new chapters covering aetiology breaking news about disability and early intervention transition to adulthood the sexual lives of women employment personalisation people with hidden identities with contributions from respected figures from a range of disciplines the book draws heavily upon multidisciplinary perspectives and is based on the latest research and evidence for practice the text is informed by medical social and legal models of learning disability exploring how learning disability is produced reproduced and understood extensive use is made of real life case studies designed to bring theory values policy and practice to life narrative chapters describe in the words of people with learning disabilities themselves their lives and aspirations they helpfully show readers the kinds of roles played by families advocates and services in supporting people with learning disabilities new exercises and questions have been added to encourage discussion and reflection on practice learning disability is core reading for students entering health and social care professions to work with people with learning disabilities it is a compelling reference text for practitioners as it squarely addresses the challenges facing people with learning disability their loved ones and the people supporting them contributors dawn adams kathryn almack dorothy atkinson nigel beal christine bigby alison brammer jacqui brewster hilary brown jennifer clegg lesley cogher helen combes clare connors bronach crawley eric emerson margaret flynn linda gething dan goodley peter goward gordon grant chris hatton sheila hollins jane hubert kelley johnson gwynnyth llewellyn heather mcalister michelle mccarthy alex mcclimens roy mcconkey david mcconnell keith mckinstrie fiona mackenzie ghazala mir ada montgomery lesley montisci elizabeth murphy chris oliver richard parrott paul ramcharan malcolm richardson bronwyn roberts philippa russell kirsten stalker martin stevens john taylor irene tuffrey wijne sally twist jan walmsley kate woodcock the editors and contributors are to be congratulated on the production of a relevant and contemporary text that i have no hesitation in both endorsing and

recommending to all involved in supporting and or caring for people with learning disabilities professor bob gates project leader learning disabilities workforce development nhs education south central uk this is a seminal text for students and practitioners researchers and policy makers associate professor keith r mcville deakin university australia if i were to personally recommend any book for budding or current learning disability professionals then this would be it james grainger student nurse social worker sheffield hallam university uk the book gives a true wealth of good practice scenarios that can only help practitioners be good at what they do and aspire to be lee marshall student nurse sheffield hallam university uk

this book presents an examination of the historical legal and philosophical contexts within which advocacy services have developed it discusses the professional and practical issues and problems confronting those running and using advocacy services the role of advocacy and advocacy with families and people with communication difficulties

the social position of learning disabled people has shifted rapidly over the last 20 years from long stay institutions first into community homes and day centres and now to a currently emerging goal of ordinary lives for individuals using person centred support and personal budgets these approaches promise to replace a century and a half of scientific pathological models based on expert assessment and of the accompanying segregated social administration which determined how and where people led their lives and who they were this innovative volume explains how concepts of learning disability intellectual disability and autism first came about describes their more recent evolution in the formal disciplines of psychology and shows the direct relevance of this historical knowledge to present and future policy practice and research goodey argues that learning disability is not a historically stable category and different people are considered learning disabled as it changes over time using psychological and anthropological theory he identifies the deeper lying pathology as inclusion phobia in which the tendency of human societies to establish an in group and to assign out groups reaches an extreme point thus the disability we call intellectual is a concept essential only to an era in which to be human is essentially to be deemed intelligent autonomous and capable of rational choice interweaving the author s historical scholarship with his practice based experience in the field learning disability and inclusion phobia challenges myths about the past as well as about present day concepts exposing both the historical continuities and the

radical discontinuities in thinking about learning disability

describes what is like to have a learning disability and how different people handle the challenges these difficulties present

discusses what a learning disability is types of learning disorders growing up with a learning disorder diagnosis and intervention adults coping with learning disorders and current trends in research and education

although learning disabilities are believed to affect a significant number of children not all of those children receive an actual diagnosis while school officials teachers and parents continue to improve education for these children the general public still has misconceptions about learning disabilities and how to help those affected by them this detailed look at learning disabilities aims to educate readers through relatable text and engaging sidebars annotated quotes from experts up to date statistics and new technologies are explored as well as the causes of and common misconceptions about life with dyslexia dyscalculia dyspraxia and more

this is an updated version of a comprehensive a resource for health professionals working with people primarily adults who have learning disabilities intellectual disabilities it will provide a comprehensive overview of the diverse approaches to treatment and management issues as well as methods to help them achieve the rehabilitation aims including the usage of non healthcare facilities split into three sections the book covers 1 underlying theory 2 assessment 3 practical methods of physical treatment and management combines history and the theory underlying learning disability and its associated conditions assessment and practical physical treatment achieves carefully assessed aims through methods appropriate to the individual client funding suggestions for working in non healthcare situations features a breadth of content that also appeals to non physiotherapists

learning disability and everyday life brings into conversation ideas from social theory with thick descriptions of the everyday life of a middle aged man with learning disabilities and autism this book is markedly ethnographic in its orientation to the gritty graininess of everyday life eating drinking walking cooking talking and so on in with and alongside learning disability however preoccupation with the small coexists with a gaze intent upon capturing a bigger picture to the extent that the things constituting everyday life are deployed as prisms through and with which to critically

reflect upon the wider worlds of disability and everyday life such attention to the small and the big the micro and the macro allows this book to explore the ordinary and everyday ways meanings about normalcy and abnormalcy ability and disability are put together enacted practised made up in the sense of constituting and fabricating and crucially accomplished through and between people in specific and invariably contingent sociocultural discursive and material conditions of possibility this book will be of specific interest not only to students and scholars of disability but also to persons with lived experiences of disability this book will also be of interest to students and scholars of anthropology and sociology

this book aims to raise awareness about the possibility of achieving the goals of the united nations convention on the rights of persons with disabilities uncrpd in order for all disabled people to enjoy the benefit of human rights the stories of people who have been supported to enjoy their rights and their citizenship will enable readers to focus on how services and support can enable people with a learning disability to have their rights upheld with an outcome of citizenship independence and achievement despite the uncrdp being in place since 2006 a significant number of learning disability service provider organisations and professionals in the uk are not aware of its existence this book aims to bridge the gap between policy and practice to demonstrate the value of a human rights approach as the foundation for services and support for people with a learning disability

written by leaders in the field of learning disabilities this volume addresses various perspectives and issues related to learning disabilities it includes chapters legal issues and learning disabilities themes and dimensions of learning disabilities and identification and assessment of students with ld

this essential text presents the core information that all nursing students and apprentices along with other key health and social care professions regardless of field need to know about caring for people with a learning disability and autism it outlines some of the key challenges faced by people with a learning disability and autism and ways in which good care can improve their quality of life people with a learning disability and autism are more likely to need support with aspects of everyday life be marginalised within society including within health and social care and die younger than the rest of the population they are also more likely to have additional communication needs sensory processing difficulties and require significant support

to access healthcare as well as other opportunities across the course of their lives this innovative text highlights the core knowledge that all health and social care professionals need and emphasises the benefits of learning across different fields of practice it presents information about common conditions key skills and where a standard approach may need to be changed when caring for a person with a learning disability and autistic people it demystifies key issues and commonly misunderstood concepts and topics including distressed behaviours consent and reasonable adjustments the book also focuses on addressing health inequalities improving communication understanding mental capacity and presents case studies throughout to illustrate how care can and should be delivered written for all who aspire to understand the needs of these individuals and to deliver care as effectively as possible this collaborative text brings together the voices of services users and their families and carers with those of nurses other health professionals lecturers and nursing students and apprentices
