weaving together a collection of original essays this book looks at the transnational circulations of people concepts and practices in anthropology revealing the many ways that they cross borders the essays focus on european anthropological traditions and beyond including broader transnational interactions to uncover the intricate fabrics of interconnected influences that have shaped anthropology by presenting these diverse threads the volume challenges the notion of singular separated traditions of anthropology and demonstrates how the field has been shaped by a rich plurality of transnational connections negotiations and entanglements in the past and today

the sixth edition of this bestselling text offers a concise history of anthropological theory from antiquity to the twenty first century

with new and significantly revised sections that reflect the current state of the field

in the early 1990s queer anthropology represented a new and radically different approach to anthropological research on sexuality and gender but it is now an established subfield of sociocultural anthropology queer anthropology provides a concise accessible overview of queer anthropology s academic and activist origins its key theoretical and methodological principles its strengths and weaknesses and how it has changed since its first appearance over thirty years ago each chapter includes discussion questions recommended readings and ethnographic examples to illustrate key concepts or themes the book is written in accessible language for students instructors and non specialist readers interested in how anthropologists think research and write about gender sex and sexuality designed for introductory anthropology gender and or queer studies courses queer anthropology provides important insights into the past present and future of queer anthropological research

anthropologists in arms looks at the moral and ethical debates surrounding the recent development of military anthropology particularly the practice of embedding anthropologists with combat troops in iraq and afghanistan lucas traces the troubled history of social scientists collaborating with national military security and intelligence organizations and shows how these complex and frequently misunderstood historical concerns contribute to the contemporary moral controversy he gives special attention to the human terrain systems project developed by the u s army under the direction of general david petraeus although this project has been criticized as unethical by academic anthropologists in the u s and the u k lucas shows that the moral status of that program is much more ambiguous than these blanket criticisms would suggest anthropologists in arms concludes with a call for a thorough review of hts itself and suggests alternative strategies for providing anthropological knowledge to military forces engaged in irregular warfare knowledge that might in turn help military forces to ameliorate the suffering imposed on noncombatants while respecting the privacy security and human rights of indigenous populations

applying cultural anthropology an introductory reader is a collection of articles that provide compelling examples of applied research in cultural anthropology in this age of globalization and increased cultural intolerance the basic messages of public anthropology are more important than ever the eighth edition offers 8 new readings and a new chart at the beginning of the text to help instructors and students locate key themes and topics
