since its publication fifty years ago this work has established itself as a classic it casts the visual process in psychological terms and describes the creative way one's eye organizes visual material according to specific psychological premises in 1974 this book was revised and expanded and since then it has continued to burnish rudolf arnheim's reputation as a groundbreaking theoretician in the fields of art and psychology since its publication fifty years ago this work has established itself as a classic it casts the visual process in psychological terms and describes the creative way one's eye organizes visual material according to specific psychological premises in 19

for the general reader

the mystery of the guardian and the threshold he protects belong among the central most significant themes on the path of modern initiation for without the encounter with the guardian the threshold to the spiritual world can never be crossed in full consciousness the consequence would then be that for all the experiences in the realm on the other side of the threshold there can be no certainty as to the truth of their contents from the preface just as an entire plant is contained in seminal form in its seed the whole of anthroposophy can be discovered in rudolf steiner's central work the philosophy of freedom intuitive thinking as a spiritual path a book that lays the foundation for a modern scientific path to the spiritual world given the centrality of the guardian of the threshold to modern initiation one may ask where this theme can be found in the philosophy of freedom sergei prokofieff presents his insights to this little researched question in the first part of this volume in the second part he investigates the connection of the philosophy of freedom to the content of rudolf steiner's research into to what he called the fifth gospel prokofieff's thoughtful commentary

sheds new light on the connection between rudolf steiner's early work and what he developed later in life study of the relevant texts reveals that the roots of steiner's early work lie in the same spiritual reality the christ impulse as that of the later anthroposophy he would develop

rudolf arnheim has been known since the publication of his groundbreaking *art and visual perception* in 1974 as an authority on the psychological interpretation of the visual arts two anniversary volumes celebrate the landmark anniversaries of his works in 2009 in *the power of the center* arnheim uses a wealth of examples to consider the factors that determine the overall organization of visual form in works of painting sculpture and architecture *the dynamics of architectural form* explores the unexpected perceptual consequences of architecture with arnheim's customary clarity and precision

for many years rudolf arnheim known as the leading psychologist of art has been keeping notebooks in which to jot down observations ideas questions and even after a stay in japan for a year poems in the haiku pattern some of these notes found their way into his books known and prized the world over such as *art and visual perception* *visual thinking* and *the power of the center* see list below now he has selected from the remaining riches of his notebooks the items in this volume the book will be a joy to ramble through for all lovers of arnheim's work and indeed for anyone who shares arnheim's contagious interest in the order that lies behind art nature and human life it is a seedbed of ideas and observations in his special fields of psychology and the arts i have avoided mere images and i have avoided mere thoughts says arnheim in the introduction but whenever an episode observed or a striking sentence read yielded a piece of insight i had not met before i wrote it down and preserved it there are also glimpses of his personal life his wife his cats his students his neighbors and colleagues he is always concrete in the manner that has become his trademark often witty and sometimes a bit wicked in the blend of life and thought caught in these jottings psychology and the arts

are of course prominent but philosophy religion and the natural sciences add to the medley of topics always addressed in a way to sharpen the senses of the reader who sharing arnheim s cue from dylan thomas may accompany him through the parables of sun light and the legends of the green chapels and the twice told fields of childhood all of rudolf arnheim s books have been published by the university of california press

contains a o a chapter order and complexity in landscape design

seeing into screens eye tracking and the moving image is the first dedicated anthology that explores vision and perception as it materializes as viewers watch screen content while nearly all moving image research either imagines how its audience responds to the screen or focuses upon external responses this collection utilizes the data produced from eye tracking technology to assess

seeing and knowing gazing and perceiving the editors divide their collection into the following four sections eye tracking performance which addresses the ways viewers respond to screen genre actor and star auteur and cinematography eye tracking aesthetics which explores the way viewers gaze upon colour light movement and space eye tracking inscription which examines the way the viewer responds to subtitles translation and written information found in the screen world and eye tracking augmentation which examines the role of simulation mediation and technological intervention in the way viewers engage with screen content at a time when the nature of viewing the screen is extending and diversifying across different platforms and exhibitions seeing into screens is a timely exploration of how viewers watch the screen

thousands of readers who have profited from engagement with the lively mind of rudolf arnheim over the decades will receive news of this new collection of essays expectantly in the essays collected here as in his earlier work on a large variety of art forms arnheim explores concrete poetry and the metaphors of dante photography and the meaning of music there are essays on color composition forgeries and the problems of perspective on art in education and therapy on the style of artists late works and the reading of maps also in a triplet of essays on pioneers in the psychology of art max wertheimer gustav theodor fechner and wilhelm worringer arnheim goes back to the roots of modern thinking about the mechanisms of artistic perception

it depends on the human being whether he merely conceives of anthroposophy or whether he experiences it rudolf steiner during the christmas period of 1923 4 rudolf steiner refounded the anthroposophical society at its headquarters in dornach switzerland this important event which has come to be known as the christmas conference can be studied on many levels and its many mysteries have been central to sergei o prokofieff s anthroposophical research over the years his beginning point has been an enduring question what did rudolf steiner mean when he called the christmas conference the start of a world turning point of time in this far

reaching work the author working from several different viewpoints guides the reader towards an answer prokofieff suggests that the impulse of the christmas conference can only be reenlivened today through conscious action by individuals to experience its spiritual essence rather than offering dogmatic conclusions he opens up paths of approaching this goal by throwing light on different aspects of the conference and what lies at its heart the foundation stone and its meditation in particular prokofieff explores three key perspectives the connection of the christmas conference with humanity s evolution the inner relationship of each individual anthroposophist to the christmas conference and the significance of the conference to rudolf steiner himself although this is major work of some length the individual chapters of may human beings hear it are complete in themselves and can therefore be studied independently of each other

is there also such a thing as the essence of color for me the essence is the spiritual aspect that lives in color making this spiritual aspect accessible is the purpose of this book kees veenman we are all familiar with the world of color but can we learn to experience color more intensely can we learn to penetrate colors in a more profound way this book takes the reader into the activity of the colors of the spectrum by investigating them meditatively the author explains aspects of color phenomenology and prepares the reader for color meditations including some that he has incorporated into his own personal practices kees veenman a phenomenologist who specializes in colors begins by observing the spring gold and the autumn gold of trees before introducing the phenomenological method whereby his research connects with goethe s theory of color and that of rudolf steiner using numerous examples and experiments veenman guides the reader toward the dynamics and essence of colors describing his research into the nature of colors along with fresh questions that help us penetrate the world of colors ever more deeply the author also considers light therapy and the relationship of colors to the seasons as well as to fairytales the reader is encouraged to meditate with and in colors to discover and experience among other things consciousness of christ all of this is presented with clear descriptions

supplemented with color images color meditation is for those who want to appreciate the phenomena and wonders the being of color more deeply and fully understand how color can enrich one's soul and spiritual activity the correspondence between the emergence and effect of a color outside us and the appearance within us is found in the polarity between light and darkness light is a symbol of clear day consciousness whereas darkness represents the impenetrability of the will here we come to the intimate relationship between the world of colors and that of human consciousness with its active and passive side christine gruwes foreword translated by laura liska from *kleurmeditatie* uitgeverij pentagon amsterdam 2015 cover image by beppe assenza 1905 1985 eklipse watercolor 23 5 x 20 5 in

this new afi film reader is the first comprehensive collection of original essays on the use of color in film contributors from diverse film studies backgrounds consider the importance of color throughout the history of the medium assessing not only the theoretical implications of color on the screen but also the ways in which developments in cinematographic technologies transformed the aesthetics of color and the nature of film archiving and restoration color and the moving image includes new writing on key directors whose work is already associated with color such as hitchcock jarman and sirk as well as others whose use of color has not yet been explored in such detail including eric rohmer and the coen brothers this volume is an excellent resource for a variety of film studies courses and the global film archiving community at large

this publication accompanies an exhibition with the same title it examines the work of beuys and steiner including using articles by other specialists in this area

over the course of the last decades there has been an increasing demand by people for spiritual experience whether it involves elemental beings past incarnations or encounters with angels but how should we distinguish between reality and illusion in such

perceptions particularly when efforts are often focused on instantaneous experience is it really possible to build a scientific foundation for metaphysics today and what role might thinking play in such a truly contemporary spirituality there is a tradition traceable to aristotle and leading to rudolf steiner that seeks to establish metaphysics as a science connecting with this noetic practise steffen hartmann argues that the sure path of personal development begins with pure thought and meditation only then under the right conditions does it lead to spiritual experience through developing our mental faculties to the point where we can properly evaluate such experience we build a new foundation for understanding the i our essential core self awareness of the i in pure thinking is the eye of the needle through which we should pass in thought we can even unite with the essence of the angels by enriching our thinking we can access as conscious mindful individuals the realm of angelic beings angels are messengers of light in this book the angels themselves are shining their light in the writings of steffen hartmann johannes greiner the strength of this text lies in its purposeful progression it is like a guided tour up a mountain that after a lot of effort offers a wonderful panoramic view matthias bideau die drei
