concerns itself with the future of sociology and of all social science the thirteen authors among them wendell bell kai t erikson scott greer robert boguslaw james mau and ivar oxaal are oriented toward a redefinition of the role of the social scientist as advisor to policymakers and administrators in all major areas of social concern for the purpose of studying and shaping the future this book contains research strategies for such futurologistic study theories on its merits and dangers as well as an annotated bibliography of social science studies of the future

master s thesis from the year 2021 in the subject business economics market research grade 1 o accadis hochschule bad homburg language english abstract mobile payment systems are an innovation that allows people to make contactless payments with a mobile device such as a smartphone at the cash register in brick and mortar retail outlets without carrying a wallet with credit

and debit cards while other countries have almost entirely adopted and integrated this innovation into their daily lives adoption rates in germany remain significantly low hence the objective of this work is to analyze the future of mobile payment systems in germany with respect to the reasons for adoption or refusal in particular the following research question was addressed will mobile payment methods replace physical cards in germany or will certain factors prevent full adoption

and however paradoxical it may seem today the grail mood is in the fullest sense to be found in russia and the future role that russia will play in the sixth post atlantean epoch a task of which i have so often had to speak rests firmly upon this unconquerable grail mood in the russian people rudolf steiner nov 3 1918 although eastern europe has been part of christian humanity for more than a thousand years its task and spiritual identity remain a mystery the answer to which cannot be found unless we look behind outer historical events to the spiritual meta historical dimensions of history this momentous work breathtaking in its scope and detail represents just such a penetrating esoteric study of eastern europe in the light of rudolf steiner s spiritual research prokofieff shows how from the earliest times the future conscience of humanity flowed from hidden mystery centers in hibernia to the eastern slavic peoples as a result qualities of compassion patience and willingness for sacrifice developed in their souls creating a truly christian grail mood despite incalculable suffering from the persecutions by the mogul hordes of the thirteenth century to the bolshevik experiment of the twentieth century this quality has become an unconquerable force in the depths of their being in illuminating the maya of outer history prokofieff reveals the forces that have been at work to hinder the progress and future intentions of humankind those adversarial forces have created a karma of materialism that the eastern slavic peoples have taken upon themselves out of their exalted willingness for sacrifice will we be able to use the present opportunity granted by this sacrifice to fulfill the primary purposes of the present cultural epoch serious study of this book

intended for students of spiritual science can lead to a profound awakening to the challenges that face humankind today

as recently as the summer of 2001 many travelers were dreading air transportation because of extensive delays associated with undercapacity of the system that all changed on 9 11 and demand for air transportation has not yet returned to peak levels most u s airlines continue to struggle for survival and some have filed for bankruptcy the situation makes it difficult to argue that strong action is urgently needed to avert a crisis of undercapacity in the air transportation system this report assesses the visions and goals for u s civil aviation and technology goals for the year 2050

this unique reference work the companion volume to the study of the future is designed to make the tools of future studies accessible to the general public as well as to professional futurists here for the first time in a single convenient format are the organizations individuals books and periodicals current research projects educational programs films audio tapes and other resources that can help anyone concerned with exploring alternatives for the future

this volume comprises the papers and debates of the second france ilo symposium on the future of work employment and social protection reflecting the aim of the symposium itself the book provides in depth reflections on work employment and social protection designed to be more than an account of the discussions this book is a useful tool for all those interested in labour market transition and the increasing importance of female labour for the future of the labour markets particularly in the developed world the book discusses the need for more family friendly policies and a more radical policy of equality between the sexes the legal dimensions of labour market change are also debated and the book explores the positive and negative sides of globalization and its links with technological change

an inquiry into the limits of the possible our problems on jupiter mercury venus conquering time transport in the future overcoming gravity communications across space benevolent electronic brains the range of this enthralling book is immense from the re making of the human mind to the vast reaches of the universe newly revised even the remarkable events of the last decade have affected few of the exciting speculations by arthur c clarke a scientist whose expert and wide knowledge is matched only by his brilliant imagination

contemporary futurist thought describes recent thinking about the future dealing with both the hopes and the fears expressed in modern times concerning what potentially lies ahead there are many such hopes and fears perhaps an overpowering number competing with each other and swirling about in the collective mind of humanity psychologist and futurist tom lombardo describes this mental universe of inspiring dreams and threatening premonitions regarding the future the book begins with an in depth examination of the highly influential literary genre of science fiction which dr lombardo identifies as the mythology of the future he next describes the modern academic discipline of future studies which attempts to apply scientific methods and principles to an understanding of the future social and technological trends in the twentieth century are then reviewed setting the stage for an analysis of the great contemporary transformation occurring in our present world given the powerful and pervasive changes taking place across the globe and throughout all aspects of human life the questions arise where are we potentially heading and perhaps more importantly where should we be heading the final chapter provides an extensive review of different answers to these questions describing theories and approaches that highlight science technology culture human psychology and religion among other areas of focus as well as integrative views which attempt to provide big pictures of all aspects of human life the book provides a rich and broad overview of contemporary ideas and visions about the future in the

conclusion dr lombardo assesses and synthesizes these myriad perspectives proposing a set of key ideas central to understanding the future this book completes the study of future consciousness begun in its companion volume the evolution of future consciousness these two volumes rich in historical detail and concise observations on the interrelatedness of a wide range of interdisciplinary topics are a significant contribution to the field of future studies and a valuable resource for educators consultants and anyone wishing to explore the significance of thinking about the future
