the nazi holocaust is one of the most momentous events in human history yet it remains on many levels a baffling and unfathomable mystery by shunning simplistic explanations ronnie landau has set out in a clear thought provoking and enlightened fashion to mediate between this vast often unapproachable subject and the reader who wrestles with its meaning locating the holocaust within a number of different contexts jewish history german history genocide in the modern age the larger story of human bigotry and the triumph of ideology over conscience landau penetrates to the very heart of its moral and historical significance deeply concerned lest the holocaust as a unique phenomenon be cordoned off from the rest of human history and ghettoized within the highly charged realm of jewish experience he is at pains to show that transmitting understanding of the holocaust is about connecting with all humanity intended both for the general reader and for students and academics especially in history psychology literature and the humanities this work is an important breakthrough in the struggle to perpetuate the memory of a tragedy which the world is all too ready to forget

catholic and protestant bishops during the period of the third reich are often accused of being either sympathetic to the nazi regime or at least generally tolerant of its anti jewish stance so long as the latter did not infringe on the functions of the church with some notable exceptions that accusation is extended to many lesser figures including seminary professors and pastors most notably the exceptions include such martyred heroes as dietrich bonhoeffer and max metzger religious activists and writers still of great influence among catholic theologians the record is no less cloudy theology and politics while discussing a range of religious scholars focuses on five major theologians who were born during the kulturkampf came to maturity and international recognition during the hitler era and had an influence on catholicism in the english speaking world three were in varying degrees and for varying lengths of time sympathetic to the professed goals of the third reich karl adam karl eschweiler and joseph lortz the other two romano guardini and engelbert krebs were publicly critical of the new regime interestingly

the two theologians who have had the greatest influence in the english speaking world guardini and adam were initially on opposite sides of the nazi divide the interplay of theology and politics to which the title refers is evident in the fact that while all the theologians differed from the classic theology of the church as a perfect society and were progressive in their rejection of neo scholastic methodology they differed among themselves in envisaging the church either as the enemy of modernity or as its religious dialogue partner the first group initially approving the reich agenda were adam eschweiler the most ardent supporter and lortz the second included guardini and krebs the most ardent opponent

the senseless horror of the holocaust continues to send shockwaves through history few would question its profound influence on post war philosophy morality theological and political thinking yet the impact of the holocaust on the fine arts and in particular on contemporary art has still not received the attention it deserves this new publication accompanies a pioneering touring exhibition it comprises a series of illustrated essays by leading experts addressing the art produced by victims of the holocaust during the holocaust the influence of the holocaust on artists who were not camp inmates working during the war and in the post war period holocaust memorials and their significance and the work of a younger generation of artists many of them non jews whose relationship to the holocaust is more oblique among the artists included are r b kitaj picasso francis bacon magdalena abakanowicz christian boltanski melvin charney shimon attie zoran music susanna pieratzki mick rooney and nancy spero the works selected have in common a determination not to rely on over used visual stereotypes nor to indulge in nostalgia morbidity or sentimentality aesthetically compelling they force us to reassess a subject all too often dismissed as overworked and to reconsider the nature and potential of artistic activity after auschwitz as the century nears its end
