braveheart is the true story of william wallace who led the scottish people to fight for the country they loved

this book examines literary examples concerning william wallace against the background of various historical sources and evaluates the construction the changes and the relevance of this scottish national myth for over 700 years william wallace has been fascinating people what he achieved for his country is almost unbelievable already during his lifetime wallace s reputation must have been legendary over the centuries a powerful myth has been created around his person which was fostered by diverse writers and even by hollywood there have been several periods throughout scottish history when the interest in william wallace intensified enormously resulting in an increase of literary publications on the freedom fighter these climaxes appeared whenever the scots were dissatisfied with the english rule and brought the old animosity between england and scotland to new life these tensions caused many writers to revive memories of wallace and his ideals by projecting the medieval story into their own time thus more and more bits and pieces were added to the myth whose message seems to have had tremendous effects on the scots wallace s unfulfilled quest of freeing scotland even became an issue in several programs of political parties with the release of the film braveheart in the mid 1990s the wallace cult was reborn once more was it the prevailing political situation that stimulated such an overwhelming enthusiasm for william wallace again did the wallace myth influence the devolution movement is wallace s spirit still alive today do the scots still cherish what he fought for and will they finally achieve his goal of a fully independent scottish nation with regard to the current political situation the author finds interesting answers to these questions and discusses the chances for a possible scottish independence

film and television have been accepted as having a pervasive influence on how people understand the world an important aspect of this is the relationship of history and film the different views of the past

created by film television and video are only now attracting closer attention from historians cultural critics and filmmakers this volume seeks to advance the critical exploration scholars have recently begun barta begins by addressing the various ways the past is screened for our understanding and relates the art of film to other media the essays that follow deal primarily with the changing perspectives of political and social developments and changing concepts of ideology gender or culture in films and television programs made for historically shaped reasons chapters by filmmakers explore issues of context and intent in their own projects scholars and general readers interested in film and cultural studies will find this an important volume
