this book makes an original contribution to researching child community development so that those with specific interests in early childhood education have new theoretical tools to guide their research practices the book explicitly theorises the use of digital visual tools from a cultural historical perspective it also draws upon a range of post structuralist concepts for moving research and scholarship forward examples of visual technologies from research in different cultural communities are foregrounded in particular this book introduces contemporary methodologies for researching child and community development with a focus on visual methodology so the dynamics of development can be captured over time and analysed historically culturally socially ecologically and psychologically through a range of iterative techniques visual technology was not freely available in vygotsky s time for example and therefore potentially represents an extension of his genetic experimental approach to researching child development the book presents a range of methodological arguments about research into child and community development through which new conceptions for research centred on young children have been created the authors of the chapters also discuss why a more holistic dynamic and ethical view of research is needed for generating new knowledge about child development in a range of cultural contexts

fully revised and updated genealogy psychology and therapy highlights the importance of genealogy in the development of identity and the therapeutic potential of family history in cultivating wellbeing the popularity of amateur genealogy and family history has soared in recent times we will never know any of the people we discover from our histories in person but for several reasons we recognize that their lives shaped ours key approaches to identity and relationships lend clues to our own lives but also to what psychosocial factors run across generations attachment and abandonment trusting being let down becoming independent migration health and money all resonate with the psychological experiences that define the outlooks personalities and the ways that those who came before us related to others this new edition builds on the original book genealogy psychology and identity by highlighting the work of erik erikson along with studies of the quality of attachment historical social conditions especially war forced migration health inequalities and financial uncertainty to enable a more detailed understanding of trauma and its long shadow and to focus on how genealogy informs our identities and emotional health status exploring the transmission of trauma across generations the intergenerational transmission of

trauma is examined using analysis of real life family examples alongside an assessment of a narrative therapy approach to healing the book expands on how psychological practices together with genealogical evidence may impart resilience and emotional repair and develops the discussion of the psychological methods by which we interconnect in a reflective way with material from archival databases family stories and photographs and other sources including dna showing how people can connect with archival material using documents and texts to expand their knowledge and understanding of the psychosocial experiences of their ancestors this book will be of interest to those researching their own family tree genealogists and counsellors as well as students and researchers in social psychology and social history

this guide explores the contribution of the naturally occurring activities of infants and toddlers to their learning and development infants and toddlers benefit greatly when they have a caregiver who is sensitive and responsive to their various needs and interests who creates developmentally appropriate environments and who introduces activities that encourage the children to explore freely and be in control of what happens ideas and insights for caregivers seeking to provide that kind of support are offered in this guide along with a listing of developmentally appropriate and inappropriate practices
