This book offers a forum for discussion involving the reader in what becomes an active definition of literary journalism. Lively and readable, it also concerns the very essence of literature itself, showing how writers have reshaped styles to permit passages across the borders between fact and fiction in the process of investigating what these borders might be and if they exist at all.

This is a collection of original essays by leading Conrad scholars that rereads Conrad in light of his representations of postcolonialism, of empire, imperialism, and of modernism—questions that are once again relevant today.

So much has changed during the past decade in political campaigning that we can almost say it's a whole new ball game. This book analyzes the way campaigns were traditionally run and the extraordinary changes that have occurred in the last decade. Dennis W. Johnson looks at the most sophisticated techniques of modern campaigning: micro-targeting, online fundraising, digital communication, the new media, and examines what has changed, how those changes have dramatically transformed campaigning, and what has remained fundamentally the same. Despite new technologies and communications, campaigns are becoming more open and free-wheeling with greater involvement of activists and average voters alike, but they can also become more chaotic and difficult to control. Campaigning in the twenty-first century presents daunting challenges for candidates and professional consultants as they try to get their messages out to voters. Ironically, the more open and robust campaigns become, the greater is the need for seasoned, flexible, and imaginative professional consultants.
