international law is constantly navigating the tension between preserving the status quo and adapting to new exigencies but when and how do such adaptation processes give way to a more profound transformation if not a crisis of international law to address the question of how attacks on the international legal order are changing the value orientation of international law this book brings together scholars of international law and international relations by combining theoretical and methodological analyses with individual case studies this book offers readers conceptualizations and tools to systematically examine value change and explore the drivers and mechanisms of these processes these case studies scrutinize value change in the foundational norms of the post 1945 order and in norms representing the rise of the international legal order post 1990 they cover diverse issues the prohibition of torture the protection of women s rights the prohibition of the use of force the nonproliferation of nuclear weapons sustainability norms and accountability for core international crimes the challenges to each norm the reactions by norm defenders and the fate of each norm are also studied combined the analyses show that while a few norms have remained surprisingly robust several are changing either in substance or in legal or social validity the book concludes by integrating the conceptual and empirical

insights from this interdisciplinary exchange to assess and explain the ambiguous nature of value change in international law beyond the extremes of mere progress or decline

a treatise on the augustinian doctrine of predestination by james mozley bowling first published in 1883 is a rare manuscript the original residing in one of the great libraries of the world this book is a reproduction of that original which has been scanned and cleaned by state of the art publishing tools for better readability and enhanced appreciation restoration editors mission is to bring long out of print manuscripts back to life some smudges annotations or unclear text may still exist due to permanent damage to the original work we believe the literary significance of the text justifies offering this reproduction allowing a new generation to appreciate it

walking in circles friendships will abound with an eye toward heaven angels around about found upon the sands tinted glasses which help to see yesterday comes quickly where will we be a star held dear it will ring a silent chime stand tall in your faith as a giant be humble and oh so very kind long after death a path will be seen words are most deadly listen don t speak temptation will be offered let the curtains be sewn shut a fortune for the sinner joints no longer rust roses colored black others will be blue many strings will be pulled the scent will be true hidden in the shadows paper will unfold eyes will be sleepy a transformation will be bold the truth in a tear frozen from the sky aligned past the suns it burns very bright all exits covered prayers each and every heard not one but two of each his is the word

with seven of its justices appointed by republican presidents today s supreme court has significantly altered america s legal landscape since 1986 by tilting constitutional jurisprudence to the right that was the goal of presidents reagan and bush in filling court vacancies and has been felt in cases related to federalism economic rights and affirmative action however liberal issues such as abortion have moved only marginally to the right while rulings by the court on school prayer and gay rights have moved constitutional

doctrine slightly to the left in this collection of original articles prominent constitutional scholars are joined by new voices from the cutting edge of academia to subject the rehnquist court to closer scrutiny and to show that its brand of conservatism is less extreme than many have supposed reflecting views across the political spectrum the contributors help readers understand the court dynamic its constrained conservatism and the forces that shape constitutional law in general as these authors show the overall pattern of decision making in the rehnquist era cannot be attributed to any single unified approach to constitutional analysis instead today s court can only be understood as the product of a complex interaction among individual justices each with an idiosyncratic view of the proper interpretation of the constitution and the role of the court in the american political system these provocative essays are designed to provide readers with insight into this interaction by focusing on each member of the bench from the staunch conservatism of clarence thomas to the accommodationism of sandra day o connor to the liberal constitutionalism of david souter the essays analyze the unique approach of each justice to interpreting the constitution they also show that the current justices are the product of a nomination and confirmation process that has undergone a major transformation in recent decades one which favors experienced often unknown jurists over high profile public servants by concentrating attention on its members rehnquist justice allows us to better understand the supreme court as a whole and by assessing today s judiciary in light of a public philosophy that looks askance at government it shows us that the supreme court has truly become a mirror of its times

during the second half of the nineteenth century and the first half of the twentieth insurgencies erupted in imperial states and colonies around the world including britain s as nicole rizzuto shows the writings of ukrainian born joseph conrad anglo irish rebecca west jamaicans h g de lisser and v s reid and kenyan ng gi wa thiong o testify to contested events in colonial modernity in ways that question premises underlying approaches in trauma and memory studies and invite us to reassess divisions and

classifications in literary studies that generate such categories as modernist colonial postcolonial national and world literatures departing from tenets of modernist studies and from methods in the field of trauma and memory studies rizzuto contends that acute as well as chronic disruptions to imperial and national power and the legal and extra legal responses they inspired shape the formal practices of literatures from the modernist colonial and postcolonial periods
