as experienced by the united states competition has played out in three distinct types of threat activity sabotage the destruction of capabilities espionage the theft of specific capabilities and defection the carrying of knowledge out of the country today the changing innovation environment has created new challenges significant advances are being made in start ups as well as larger companies who no longer rely on u s government contracts not only does this place a key element of national power in the hands of the private sector but it often leaves washington at an informational disadvantage in understanding technologies this book analyzes these concepts from the perspective of the united states experience in the field of innovation security historical and recent examples illustrate the threats to innovation the various approaches to mitigating them

and how the evolution of the innovative process now requires rethinking how the united states can benefit from and preserve its cutting edge human capital

this report responds to the mandate for the committee to monitor investigate and report on the national security implications of the bilateral trade and economic relationship between the u s and the people s republic of china includes detailed treatment of investigations of the following areas the u s china trade and economic relationship china s activities directly affecting u s security interests china in asia china s media and information controls the impact in china and the u s comprehensive list of the commission s recommendations additional views of commissioners appendices charts and tables

in the 2010s america s adversaries conducted numerous damaging cyber operations inside the united states the office of personnel management breach attacks on banks persistent intellectual property theft by china and the russian intervention in the 2016 election the us possessor of the world s most powerful cyber arsenal responded in 2018 by unveiling a new defend forward strategy it is a large step in the direction of more aggressive action in cyberspace albeit for defensive ends the us has not attempted to hide this shift to the contrary it has telegraphed the change but the telegraphing has taken place at a highly abstract level very little is known about precisely what types of operations defend forward entails while the us government has asserted that defend forward is consistent with domestic and international law it has not explained how the new strategy overcomes the perceived legal constraints that previously tempered us responses to cyber intrusions and threats this volume edited by jack goldsmith and featuring a cast of leading scholars in the field provides an authoritative overview of the origins and operation of defend forward and a comprehensive assessment of its legality for anyone interested in the future of great power conflict and the cyber strategies that the us is deploying against its adversaries the united states defend forward cyber strategy is an essential read

many years after the united states initiated a military response to the terrorist attacks of september 11th 2001 the nation continues to prosecute what it considers an armed conflict against transnational terrorist groups understanding how the law of armed conflict applies to and regulates military operations executed within the scope of this armed conflict against transnational non state terrorist groups is as important today as it was in september 2001 in the war on terror and the laws of war seven legal scholars each with experience as military officers focus on how to strike an effective balance between the necessity of using armed violence to subdue a threat to the nation with the humanitarian interest of mitigating the suffering inevitably associated with that use each chapter addresses a specific operational issue including the national right of self defense military targeting and the use of drones detention interrogation trial by military commission of captured terrorist operatives and the impact of battlefield perspectives on counter terror military operations while illustrating how the law of armed conflict influences resolution of that issue this second edition carries on the critical mission of continuing the ongoing dialogue about the law from an unabashedly military perspective bringing practical wisdom to the contentious topic of applying international law to the battlefield

in the violent world of radical extremists the enemy of my enemy is my friend this study reveals how that precept plays out in the unexpected bonding between militant islam and the extreme right in america and europe it provides an insightful and sane look at the possibilities for collaboration between these groups
