this new and updated edition of international security studies provides students with a comprehensive introduction to the subject of security studies with a strong emphasis on the use of case studies to illustrate theoretical debates in addition to presenting the major theoretical perspectives the book examines a range of important and controversial topics in covering both traditional military and non military security issues such as wmd proliferation humanitarian intervention food security and

environmental security the volume also offers a wide range of case studies providing detailed analyses of important global security issues the 37 chapters contain pedagogical features and recommended further reading and are divided into five thematic sections conceptual and theoretical military security non military security institutions and security case studies updates for the second edition include new chapters on cybersecurity and the insecurity of the lgbt community substantial revisions to existing chapters to incorporate analysis of important international political developments including the trump presidency brexit north korean nuclear standoff the syrian civil war yemen civil war mediterranean migration crisis climate change diplomacy and the sustainable development goals this textbook will be essential reading for all students of security studies and highly recommended for students of critical security studies human security peace and conflict studies foreign policy and international relations in general

conflict be it war between states ethnic violence civil war or terrorist activity endures despite immense efforts to end it how do states cope with conflict minimize future threats and reduce the risk of insecurity morgan outlines a spectrum of solutions states use to manage violent conflict ranging from strategies that individual governments enact largely on their own such as distribution of power deterrence or arms control to those such as collective security and multilateralism that are more global in nature the book progresses into tactical and practical actions from negotiation and mediation to peace imposition morgan evaluates each strategy and tactic in terms of how well it addresses three levels of security systemic state and societal to show how they are interrelated and complementary to each other in important ways addressing insecurity at one level often elicits further insecurity at another morgan shows students how these various levels interact either to a state s advantage or to its detriment so they can comprehensively analyze the ways that political actors manage or incite conflict useful pedagogical features help students master the material terms and concepts boxes go beyond simple definitions and provide students with a concept s evolution over time or the controversy surrounding the meaning of a certain term cases and context boxes offer needed background and interesting detail about pivotal cases of conflict both historical and contemporary in nature key terms are bolded throughout and compiled in a glossary annotated bibliographic essays at the end of each chapter point students to additional sources for further study

international security studies iss has changed and diversified in many ways since 1945 this book provides the first intellectual history of the development of the subject in that period it explains how iss evolved from an initial concern with the strategic consequences of superpower rivalry and nuclear weapons to its current diversity in which environmental economic human and other securities sit alongside military security and in which approaches ranging from traditional realist analysis to feminism and post colonialism are in play it sets out the driving forces that shaped debates in iss shows what makes iss a single conversation across its diversity and gives an authoritative account of debates on all the main topics within iss this is an unparalleled survey of the literature and institutions of iss that will be an invaluable guide for

all students and scholars of iss whether traditionalist new agenda or critical

the first work of its kind this strategic assessment of china s national security reveals the nation s intentions capabilities and threats and their implications for the united states and the world as china continues to develop the strategic means to advance its national interests in asia and around the world assessing its role in international security is the greatest strategic challenge now faced by the united states and its allies china and international security facilitates this critically important understanding analyzing topics that range from strategic geography and orientation to gender ratios using detailed case studies and sharing expert insights the work provides historical internal and contemporary analyses that reveal the nature and character of china s national security this three volume set is written for scholars students and policymakers the volumes offer in depth articles penned by intelligence professionals and journalists as well as entries by scholars in fields as diverse as international politics history and strategic studies while other works may attempt to predict the future of china s rise or the nature of china s future bilateral relationships none so thoroughly examines the totality of china s domestic regional and international security and their implications

international security is a cutting edge analysis of the key security challenges and developments in the post cold war world drawing on a wide range of contemporary examples from the iraq war to the rise of china it is an essential guide for students and policy makers seeking to understand the theoretical and empirical debates over the fast changing nature of international security today the book is organized into four main parts part 1 provides an analytical framework for the book identifying the most significant post cold war shifts in international security and recent theoretical developments in security studies part 2 analyses the root causes for contemporary warfare the dilemmas and debates over military intervention and the role played by the un nato and other organizations in maintaining international peace and security part 3 assesses the challenges of environmental security including the threat of resource based conflict most notably over oil and water and the perceived security challenges of international migration part 4 discusses the new security challenges posed by international terrorism the proliferation of weapons of mass destruction and cyber warfare it explores the strategies and policies adopted by the united states particularly in the aftermath of 9 11 and assesses the implications of the rise of china and other emerging powers this book will be essential reading for students and analysts of international relations international security and strategic studies

this book offers a multidisciplinary analysis of emerging technologies and their impact on the new international security environment across three levels of analysis while recent technological developments such as artificial intelligence ai robotics and automation have the potential to transform international relations in positive ways they also pose challenges to peace and security and raise new ethical legal and political questions about the use of power and the role of humans in war and conflict this

book makes a contribution to these debates by considering emerging technologies across three levels of analysis 1 the international system systemic level including the balance of power 2 the state and its role in international affairs and how these technologies are redefining and challenging the state's traditional roles and 3 the relationship between the state and society including how these technologies affect individuals and non state actors this provides specific insights at each of these levels and generates a better understanding of the connections between the international and the local when it comes to technological advance across time and space the chapters examine the implications of these technologies for the balance of power examining the strategies of the us russia and china to harness ai robotics and automation and how their militaries and private corporations are responding how smaller and less powerful states and non state actors are adjusting the political ethical and legal implications of ai and automation what these technologies mean for how war and power is understood and utilized in the 21st century and how these technologies diffuse power away from the state to society individuals and non state actors this volume will be of much interest to students of international security science and technology studies law philosophy and international relations

a collection of the papers from the 1995 sandhurst conference presented by leading members of the armed forces the media and academia the conference marked a major advance in british thinking on this very topical and fast moving subject bringing together authorities from various fields in a multidisciplinary investigation which has been and will be of great interest to a wide variety of specialist readers

this oxford handbook is the definitive volume on the state of international security and the academic field of security studies it provides a tour of the most innovative and exciting news areas of research as well as major developments in established lines of inquiry it presents a comprehensive portrait of an exciting field with a distinctively forward looking theme focusing on the question what does it mean to think about the future of international security the key assumption underpinning this volume is that all scholarly claims about international security both normative and positive have implications for the future by examining international security to extract implications for the future the volume provides clarity about the real meaning and practical implications for those involved in this field yet contributions to this volume are not exclusively forecasts or prognostications and the volume reflects the fact that within the field of security studies there are diverse views on how to think about the future readers will find in this volume some of the most influential mainstream positivist voices in the field of international security as well as some of the best known scholars representing various branches of critical thinking about security the topics covered in the handbook range from conventional international security themes such as arms control alliances and great power politics to new security issues such as global health the roles of non state actors cyber security and the power of visual representations in international security the oxford handbooks of international relations is a twelve volume set of reference books offering authoritative and innovative engagements with

the principal sub fields of international relations the series as a whole is under the general editorship of christian reus smith of the university of queensland and duncan snidal of the university of oxford with each volume edited by a distinguished pair of specialists in their respective fields the series both surveys the broad terrain of international relations scholarship and reshapes it pushing each sub field in challenging new directions following the example of the original reus smit and snidal the oxford handbook of international relations each volume is organized around a strong central thematic by a pair of scholars drawn from alternative perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

this new textbook provides students with a comprehensive and accessible introduction to the subject of security studies with a strong emphasis on the use of case studies in addition to presenting the major theoretical perspectives the book examines a range of important and controversial topics in modern debates covering both traditional military and non military security issues such as proliferation humanitarian intervention food security and environmental security unlike most standard textbooks the volume also offers a wide range of case studies including chapters on the usa china the middle east russia africa the arctic the middle east europe and latin america providing detailed analyses of important global security issues the 34 chapters contain pedagogical features such as textboxes summary points and recommended further reading and are divided into five thematic sections conceptual and theoretical military security non military security institutions and security case studies this textbook will be essential reading for all students of security studies and highly recommended for students of critical security studies human security peace and conflict studies foreign policy and international relations in general

from war terrorism and weapons of mass destruction through environmental and economic crises to epidemics cyber war and piracy the twenty first century world seems beset by a daunting range of international security problems at the same time the academic study of security has become more fragmented and contested than ever before as new actors issues and theories increasingly challenge traditional concepts and approaches this innovative new text focuses on the politics of international security how and why issues are interpreted as threats to international security and how such threats are managed after a brief introduction to the field and its major theories and approaches the core chapters systematically analyze the major issues on the contemporary international security agenda each is examined according to a common framework that brings out the nature of the threat and the responses open to policy makers

this dictionary provides readers with a handy reference guide to the field of international security by including over 200 articles on a wide range of concepts issues treaties and institutions from absolute war to weapons of mass destruction

this edited volume offers diverse and comprehensive views of china's rise and its implications to the east asian region and beyond the economic growth of china initially started in the late 1970s with domestic and rural reforms has been increasingly driven by china's industrialization and integration into the regional and global markets the gro

this book examines the roles played by china and europe in the domain of international security in the 21st century bringing together chinese and european expertise on the sino european security relationship this book positions europe both the eu and the major national actors and china in a global security context it offers not merely an elaboration of the theme of bilateral security relations but also introduces a wider view on europe and china as global security actors the chapters cover four main themes the perceptions of and actual relations between europe and china as security actors relations of china and europe with third parties such as the us russia and iran europe and china as actors in multilateral security approaches europe and china as potential security actors in each other's technological domain or region given the increasingly prominent roles that both china and europe play in international security as permanent members of the un security council in the european case through the informal and partial representation of the uk and france through their extensive global economic interests and their important relations with the usa this book provides a timely examination of the current state and future developments in the sino european relationship this book will be of much interest to students of international security chinese politics eu studies and ir in general

this textbook presents security studies as a branch of international relations theory providing readers with the critical conceptual tools to develop their expertise the author evaluates the claims of rival theories realism neorealism liberal institutionalism classical economic liberalism and marxism to explain why international actors choose or eschew force and coercive threats in order to elicit favorable outcomes in their interdependent exchanges also discussed are behaviorism and constructivism contesting approaches to validate prevailing security paradigms the author argues that only an interdisciplinary approach to security drawing on the insights of each perspective can meet the rigorous requirements of testable theory and the practical needs of actors in an increasingly globalizing world the book will provide students and scholars of international relations and security studies with a valuable survey of the subject and includes essay questions and guides to further reading

this book develops the idea that since decolonisation regional patterns of security have become more prominent in international politics the authors combine an operational theory of regional security with an empirical application across the whole of the international system individual chapters cover africa the balkans cis europe east asia eu europe the middle east north america south america and south asia the main focus is on the post cold war period but the history of each regional security

complex is traced back to its beginnings by relating the regional dynamics of security to current debates about the global power structure the authors unfold a distinctive interpretation of post cold war international security avoiding both the extreme oversimplifications of the unipolar view and the extreme deterritorialisations of many globalist visions of a new world disorder their framework brings out the radical diversity of security dynamics in different parts of the world

global drug trafficking intersects with a vast array of international security issues ranging from war and terrorism to migration and state stability more than just another item on the international security agenda drug trafficking in fact exacerbates threats to national and international security in this light the book argues that global drug trafficking should not be treated as one international security issue among many rather due to the unique nature of the trade illegal drugs have made key threats to national and international security more complex durable and acute drug trafficking therefore makes traditional understandings of international security inadequate each chapter examines how drug trafficking affects a particular security issue such as rogue nations weak and failing states protracted intrastate conflicts terrorism transnational crime public health and cyber security while some texts see drug trafficking as an international threat in itself others place it under the topic of transnational organized crime arguing that the threats emanate from criminal groups this book on the other hand provides a thorough understanding of how a vast array of threats to international security are exacerbated by drug trafficking

helping students identify and discuss main issues in international security today this book evaluates the contending schools of thought and their key assumptions it explains why states use or chose not to use force to promote their causes each philosophy is tested in terms of its capacity to explain the rise and demise of the cold war and to address the security challenges confronting the peoples and states of the twenty first century the book also contains essay questions and guides to further reading

international security is an ambiguous concept it has many meanings to many people without an idea of how the world works or how security is defined and achieved it is impossible to create effective policies to provide security this textbook clarifies the concept of security the debates around it how it is defined and how it is pursued tracking scholarly approaches within security studies against empirical developments in international affairs historical and contemporary security issues are examined through various theoretical and conceptual models chapters cover a wide range of topics including war and warfare political violence and terrorism cyber security environmental security energy security economic security and global public health students are supported by illustrative vignettes bolded key terms and an end of book glossary maps box features discussion questions and further reading suggestions and instructors have access to adaptable lecture slides

michael sheehan provides a survey of the varied positions that scholars have adopted in interpreting security in conclusion revealing his own interpretation of security he makes the case for a postpositivist conception that links human emancipation justice and peace

in the last three decades tourism the world s largest and fastest growing industry has been constantly plagued by acts of crime and violence intentionally conducted against innocent tourists this is the first authoritative book to analyse the relationship between tourism development crime and international security issues written by an international collection of authors the book combines theoretical models case studies and the most up to date research from around the world
