today we can no longer hide under the pretence that the grace of god alone suffices to make one a good priest a close study of the history of priestly formation has shown that not just the training of priests can ensure an authentic priest product rather a continuous effort to adapt the training to the current world situation so that

priests would be in the position to discharge their duties effectively such readiness to adaptability should of course not lose sight of the meaning and function of the priest as revealed in the person of jesus a service to the world in the bid to assess the models for the training of priests in south eastern nigeria the author using a historical critical method traced the history of the models and events that shaped the current modules for the training of priests in south eastern nigeria at the end of the historical research he proffered some suggestions for improvement amendment and solidification of the training of priests in the area as one of the younger african churches the examination of the training of priests in south eastern nigeria will also serve as a paradigm or typology for understanding the dynamics and the process of training of priests in other african countries since most of these local churches share relatively similar historical cultural economic and socio political circumstances

religious life and priesthood reclaims the vision of vatican ii for contemporary priests religious and ecclesial ministers the book examines the historical context the key players and the implementation of vatican ii documents on the priesthood the training of priests and the religious life book jacket

in models of priestly formation msgr charles murphy helps us understand key moments in the history of priestly training and vocation and pointing us toward developments that may help priests be trained more effectively in light of increasingly complex demands on their time and talents

the concept and institution of priesthood in the catholic church has been the subject of serious challenge not only since the time of the protestant reformation but also more recently from within the catholic church as the second vatican council 1962 1965 and theologians afterward have reconsidered the place and function of priests in relation to both bishops and laity in dialogue with those challenges and by means of research into scripture and the theological tradition patristic medieval and modern the author of this book considers classic images of priests and priestly ministry as a way of recovering an understanding of the priesthood that is at once both biblically and theological sound
