in the next wave of conduct regulation in financial markets from 2021 conduct regulators in the uk and elsewhere expect firms to produce evidence on how they are improving behaviour and culture facing this many practitioners are anxious that their current reporting and management information mi are irrelevant to meeting as yet unclear regulatory expectations this book provides the insights and tools firms need to report on culture securing both enhanced business value and the regulator s approval culture is now seen as a key contributor to good governance feeding into existing discourse on environmental social and governance esg factors and the emerging dialogue on non financial mis conduct but conventional measures of business quality are unfit for the new reporting agenda culture audit in financial services follows the arc of behavioural regulation to examine what the regulator really wants before offering guidance on how culture audit differs from conventional auditing how to put the latest pure research findings to work and the key features of well designed conduct and culture reports written by an impartial author and a variety of contributors with extensive experience working with practitioners regulators and many of the world s finest academic initiatives this book is filled with practical grounded advice on how best to approach this new challenge and avoid infractions

for a long time the topic of national development banks was limited to a debate between admirers and detractors of these institutions often inserted into a more general debate of state versus markets since the 2007 8 north atlantic financial crisis however interest and support for these institutions has broadly increased in both developing and developed countries key issues such as understanding how development banks work what their main aims are and what their links with the private financial and corporate sector are have come to the forefront and there is an increased interest in what instruments incentives and governance work better in general and in particular contexts the future of national development banks provides an in depth study of several key examples of these institutions based in brazil chile china colombia germany mexico and peru it explores horizontal issues such as their role in innovation and structural change sustainable infrastructure financing financial inclusion and regulatory rules it provides both research and policy oriented perspectives on how these banks can make a significant contribution to a countries development and analyses their roles within broader economic policy their governance

and the main instruments they use to perform their function the future of national development banks has important policy implications for countries that have these institutions and can improve them and countries that do not have them yet and can learn from best practice

the evolution of banking and the challenge for regulators autor beethoven herrera valencia editores asobancaria y univesidad sergio arboleda los criptoactivos han generado una severa disrupción en las tecnologías financieras en la teoría monetaria y en la regulación la tecnología blockchain sobre la cual reposan las criptomonedas es un sistema informático de bloques distribuidos que permite transferir información matemática utilizando algoritmos por parte de cualquier individuo que se conecte a esa plataforma para ello se requiere un supercomputador energía suficiente hay un sobreconsumo de energía y conocimiento matemático si logra resolver el problema planteado por la plataforma puede obtener una fracción del bitcoin llamada satoshi en homenaje al creador de la plataforma con ese criptoactivo el minero puede hacer transacciones de un bitcoin por un ethereum ahí sería un cambio de criptoactivo por criptoactivo o un criptoactivo como el bitcoin por dólares o euros o cambiar ese criptoactivo por bienes físicos o servicios según la teoría de smith todo bien o servicio fruto del trabajo humano encierra valor y quienes hacen criptografía dedican mucho tiempo deben ser muy calificados en suma el problema de las criptomonedas no está en ellas mismas sino en las plataformas de intercambio

more than thirty years have passed since latin america began the arduous task of transitioning from military led rule to democracy in this time more countries have moved toward the institutional bases of democracy than at any time in the region s history nearly all countries have held free competitive elections and most have had peaceful alternations in power between opposing political forces despite these advances however latin american countries continue to face serious domestic and international challenges to the consolidation of stable democratic governance the challenges range from weak political institutions corruption legacies of militarism transnational crime and globalization among others in the second edition of latin american democracy contributors both academics and practitioners north americans latin americans and spaniards explore and assess the state of democratic consolidation in latin america by focusing on the specific issues and challenges confronting democratic governance in the region this thoroughly updated revision provides new chapters on the environment decentralization the economy indigenous groups and the role of china in the region

recent authoritative evidence suggests that an estimated 200 million children under five fail to achieve their developmental potential due to factors including poor health and nutrition and the lack of stable high quality care a significant number of the world s children today lack the basic rights to health development and protection in light of such statistics early childhood services for young children have expanded around the world the sage handbook of early childhood policy draws critical attention to policy in early childhood education and care ecec its relationship to service provision and its impact on the lives of children and families the perspectives of leading academics and researchers from europe north america south america africa australasia and asia have been arranged around five key themes part 1 the relationship between research policy and practice country case studies part 2 equitable early childhood services intervention to improve children s life chances part 3
