global governance has become one of the most pressing issues of the 21st century as the world becomes increasingly interconnected decisions made in one corner of the globe affect millions of lives elsewhere amid these complexities ethical governance is not just desirable it is essential this book is an attempt to explore the principles frameworks challenges and opportunities in ethical global governance drawing upon case studies real world examples and emerging technological trends it provides a comprehensive guide for policymakers leaders scholars and global citizens who aspire to navigate the complexities of a rapidly changing world with integrity transparency and justice the chapters are designed to be both analytical and practical bridging theory with actionable insights i hope this work contributes to a deeper understanding of how ethics can guide global decision making inspire responsible leadership and promote sustainable equitable outcomes for all humanity

this book presents a new theory of market and capitalism detailing its key moments and general logic it is based on the distinction between two market types the simple commodity market and the capitalist one in contrast to what is usually uncritically accepted disequilibrium and imperfect competition are admitted here to be a functional norm of the capitalist market the book also shows that equilibrium and perfect competition are admitted to be a functional anomaly with crises considered as the result of such an anomaly it details the general principles and concrete measures of crisis proof policies and behavior

petroleum discovery in a country presents its policy makers with a challenging and complex task formulating and agreeing on policies that will shape the country s petroleum sector and guide the translation of the newly discovered resources into equitable and sustainable economic and social growth for the nation over the long term balancing petroleum policy provides policy makers and other stakeholders with the basic sector related knowledge they need to embark on this task it introduces a number of topics the petroleum value chain and pivotal factors affecting value creation a

consultative process for developing a nation's common vision on key petroleum development objectives design of a legislative and contractual framework petroleum fiscal regimes and their administration prudent fiscal management transparency and governance environmental and social safeguards and economic diversification through industrial linkages although much of the material is relevant to designing policies for the development of the petroleum sector in general the book gives special focus to developing countries countries in a federal or devolved setting and countries that have experienced or are still experiencing civil conflict with this focus in mind the book examines three questions ownership management and revenue sharing of petroleum resources that are central to petroleum policy in any federal or devolved state it also offers important perspectives on how to prevent violent conflicts related to such resources petroleum policies tend to vary significantly from country to country as do the objectives that such policies aim to achieve in the specific context of each particular country although there is no one size fits all policy and there are no clear cut answers to the many potential policy dilemmas associated with the discovery of petroleum resources this publication may help policy makers find the right balance among the chosen objectives and the right policy choices to achieve these objectives

this book first published in 1993 closely examines the united states government's policy toward the latin american debt crisis in the years 1982 to 1985 the united states under reagan sought to maintain the problem as strictly a private creditor debtor issue and avoided the internationalization of the problem with the election of bush however government policy changed in 1989 and this book analyses the different approaches of both administrations the successes and failures of their policies and the eventual resolution of the debt crisis
