all over the world democratic reforms have brought power to the people but under conditions where the people have little opportunity to think about the power that they exercise in this book james fishkin combines a new theory of democracy with actual practice and shows how an idea that harks back to ancient athens can be used to revive our modern democracies when the people speak outlines deliberative democracy projects conducted by the author with various collaborators in the us china britain denmark australia italy bulgaria northern ireland and in the entire european union these projects have resulted in the massive expansion of wind power in texas the building of sewage treatment plants in china and greater mutual understanding between catholics and protestants in northern ireland

democracy requires a connection to the will of the people what does that mean in a world of fake news relentless advocacy dialogue mostly among the like minded and massive spending to manipulate public opinion what kind of opinion can the public have under such conditions what would democracy be like if the people were really thinking in depth about the policies they must live with if they really deliberated with good information about their political choices this book argues that deliberative democracy is not utopian it is a practical solution to many of democracy s ills it can supplement existing institutions with practical reforms it can apply at all levels of government and for many different kinds of policy choices this volume speaks to a recurring dilemma listen to the people and get the angry voices of populism or rely on widely distrusted elites and get policies that seem out of touch with the public s concerns instead there are methods for getting a representative and thoughtful public voice that is really worth listening to democracy is under siege in most countries where democratic institutions have low approval and face a resurgent threat from authoritarian regimes deliberative democracy can provide an antidote and can reinvigorate our democratic politics democracy when the people are thinking draws on the author s research with many collaborators on deliberative polling a process conducted in 27 countries on six continents it contributes both to political theory and to the empirical study of public opinion and participation it should interest anyone concerned about the future of democracy and how it can be revitalized
