fundamentals of corporate finance 2nd edition offers an innovative integration of
conceptual understanding and problem solving of intuition and decision making of
the authors industry and classroom research experience with current real world
examples and online practice authors robert parrino david kidwell and thomas bates
believe that students who understand the intuition underlying the basic concepts of
finance are better able to develop the critical judgments necessary to apply
financial tools in real decision making situations their text develops intuitive thinking
while simultaneously helping students develop problem solving and computational
skills it then shows students how to apply intuition and analytical skills to decision
making while integrating it all with valuation and building shareholder value
