taking a thematic approach this book covers the main aspects of modern urban life taught on undergraduate courses the key approaches to the city within contemporary social theory are assessed tonkiss adopts an international perspective with examples

drawn from places such as new york paris and sydney

this book critically examines the new middle class and the emergence of neo urban spaces in india within the context of rapid urbanisation and changing socio spatial dynamics in urban areas in the country it looks at class as a socio spatial category where class distinction is tied to and manifests itself through the space of the city with a detailed ethnographic study of the national capital region of delhi especially gurugram it explores themes such as class subjectivity morality and social beliefs life inside gated enclaves family and everyday practices of class reproduction and the process of othering and exclusivity among others class identity vulnerability and hierarchy influence the actions and motivations of the middle class the author studies the nuances and socio political fractures stemming from the complex dynamic of class caste religion and gender that manifest in these neo urban spaces and how these shape the city and community rich in empirical resources this book will be of interest to scholars and researchers of sociology political sociology ethnography urban sociology urban studies and south asian studies

this book constitutes the refereed proceedings of the 10th international conference on spatial information theory cosit 2011 held in belfast me usa in september 2011 the 23 revised full papers were carefully reviewed and selected from 55 submissions they are organized in topical sections on maps and navigation spatial change spatial reasoning spatial cognition and social aspects of space perception and spatial semantics and space and language

communicating covid 19 analyses the changes of everyday communication in the covid 19 crisis exploring how misinformation has spread online throughout the pandemic the impact of changes on society and the way we communicate and the effect this has had on the spread of misinformation

the human world is an area of countless places and spaces the authors describe and analyze those different spaces as well as the

social relations created within them they classify types of relations and observe the functioning of neighborly relations relationships on social networks at home or in museums

this book explains how space place and mobility have shaped the experiences of disabled people both in the past and in contemporary societies the key features of this insightful study include a critical appraisal of theories of disability and a new disability model case studies to explore how the transition to capitalism disadvantaged disabled people an exploration of the western city and the policies of community care and accessibility regulation brendan gleeson presents an important contribution to the major policy debates on disability in western societies and offers new considerations for the broader debates on embodiment and space within geography

written by internationally renowned academics this volume provides a snapshot of the field of applied linguistics and illustrates how linguistics is informing and engaging with neighbouring disciplines chapters in this second volume present an overview of new and interdisciplinary applications of linguistics to such diverse fields as economics law religion tourism media studies and health care both volumes represent the best of current practice in applied linguistics and will be invaluable to students and researchers looking for an overview of the field

how do human beings negotiate the spaces in which they live work and play how are firms and institutions and their spatial behaviors being affected by processes of economic and societal change what decisions do they make about their natural and built environment and how are these decisions acted out updating and expanding concepts of decision making and choice behavior on different geographic scales this major revision of the authors acclaimed analytical behavioral geography presents theoretical foundations extensive case studies and empirical evidence of human behavior in a comprehensive range of physical social and economic settings generously illustrated with maps diagrams and tables the volume also covers issues of gender discusses traditionally excluded groups

such as the physically and mentally challenged and addresses the pressing needs of our growing elderly population

in today's multicultural and multireligious societies humour and comedy often become the focus of controversy over alleged racist or offensive content as shown for instance by the intense debate of Sacha Baron Cohen's characters Ali G and Borat and the Prophet Muhammad cartoons published in the Danish newspaper Jyllands Posten despite these intense debates commentary on humour in the academy lacks a clear way of connecting the serious and the humorous and a clear way of accounting for the serious impact of comic language the absence of a developed serious vocabulary with which to judge the humorous tends to encourage polarized debates which fail to account for the paradoxes of humour this book draws on the social theory of Zygmunt Baumann to examine the linguistic structure of humour arguing that as a form of language similar to metaphor it is both unstable and unpredictable and structurally prone to act rhetorically that is to be convincing deconstructing the dominant form of racism aimed at black people in the US and that aimed at Asians in the UK the rhetoric of racist humour shows how racist humour expresses and supports racial stereotypes in the US and UK while also exploring the forms of resistance presented by the humour of black and Asian comedians to such stereotypes an engaging exploration of modern late modern and fluid or postmodern forms of humour this book will be of interest to sociologists and scholars of cultural and media studies as well as those working in the fields of race and ethnicity humour and cultural theory

these nineteen theoretical and methodological papers which were presented in sessions held by the EAA in Lisbon in 2000 and in Esslingen in 2001 examine constructions and architectonic spaces from an archaeological perspective

during the Georgian period there was a remarkable proliferation of seductive visual imagery and written accounts of female performers focusing on the close relationship between the dramatic and visual arts at this time this beautiful and stimulating book explores popular ideas of the actress as coquette whore celebrity muse and creative agent charting her important symbolic role in contemporary

attempts to professionalize both the theatre and the practice of fine art gill perry shows how artists such as gainsborough reynolds hoppner or lawrence produced complex images of female performers as fashion icons coquettes dignified queens or creative artists the result is a rich interdisciplinary study of the georgian actress published for the paul mellon centre for studies in british art

geographers is an annual collection of studies on individuals who have made major contributions to the development of geography and geographical thought subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known including explorers independent thinkers and scholars each paper describes the geographer s education life and work and discusses their influence and spread of academic ideas each study includes a select bibliography and a brief chronology the work includes a general index and a cumulative index of geographers listed in volumes published to date published under the auspices of the international geographical union

this edited collection draws on a range of disciplines in exploring the central place of narrative in social inquiry and understanding the ethical life it provides scholarly and practical insights into the rewards and potential pitfalls of working in and with narrative it offers readers a broad range of carefully considered examples the use of art in enhancing insight into the plights of rural communities in australia the use of illness narratives in medical education applying narratives of torture survivors and torturers in shaping humane political response and policy in the face of terrorism and the place of the music as a vehicle of story telling and moral growth this volume illuminates the explicit links between the importance of narrative that is the telling of stories to create shape and meaning in our lives and ethical engagement so critical to the achievement of a good life
