the reader offers a selection of 39 articles written in the words of those cultural anthropologists who are making their discipline useful realizing that many other articles could have been included the categories and the articles contained with them are meant to be suggestive rather than exhaustive the reader can be used effectively as a supplement to any introductory textbook in cultural anthropology the readings would be appropriate for undergraduate level courses in applied anthropology the intent of this reader is twofold first it is to provide undergraduate anthropology students with a wide range of examples as to how the discipline is making meaningful contributions to the mitigation of human problems and second the editor hopes to convey through the words of the practicing anthropologists themselves some of

the challenges and rewards involved in making cultural anthropology useful pref

english medium instruction in japanese higher education provides a touchstone for higher education practitioners researchers and policy makers it enables readers to more clearly understand why policies concerning english medium instruction emi are in place in japan how emi is being implemented what challenges are being addressed and what the impacts of emi may be the volume situates emi within japan s current policy context and examines the experiences of its stakeholders the chapters are written by scholars and practitioners who have direct involvement with emi in japanese higher education they look at emi from perspectives that include policy planning program design marketing and classroom practice

over the years linguistic anthropological research has shown how classrooms are socializing institutions and how language functions as one medium through which this socialization is accomplished early work in the field has captured the immediacy of social practice and language use in educational contexts and has created useful characterizations of variations in communicative competence the present work builds on the strengths of prior work showing how new theoretical concepts and empirical methods developed in linguistic anthropology over the last decade can further illuminate educational settings the authors introduce an updated linguistic anthropology of education which recognizes that in the rapidly changing field of cultural production within which children and teachers operate today the exploration of multiple pre existing forms of communicative competence is not enough this volume elaborates theory and illustrates the tools and practices of the linguistic anthropology of education to account for today s research context in which the multiplicity of identity and the multiple ways language can be used to represent it have important ramifications for how learning and social reproduction emerge within educational contexts

to help students act smart about reading and studying smart gets them actively involved in the learning process smart combines the essentials of read and class by the same authors an abundance of exercises and examples throughout each chapter makes this text and workbook ideal for both class and lab use the appendix contains four complete text chapters to which students can apply the reading and study strategies they are learning in the course

this workbook explores important concepts theories and phenomena in international relations uses real data to ground the exploration of

international relations in the real world and provides students with the tools to explore international relations on their own each chapter is organized around examples drawn from actual data that focus on a set of concepts or theories the workbook contains 12 computer based assignments microcase s student explorit software and nine data sets students have access to the same high quality data files available to professional researchers the software is so easy to use that it can be learned in minutes
