teaching english linguistics and literature combined explores the inextricable link between

literature and language despite being treated as separate subjects in traditional nigerian secondary schools literature and english are deeply interconnected this book highlights the need to merge these disciplines to enhance students understanding and proficiency we examine how literary teachers often focus on the socio cultural economic and religious meanings of texts while linguistic elements receive less attention this imbalance can lead to students excelling in literary analysis but struggling with english language skills our book argues for a symbiotic relationship between literature and language suggesting integrated teaching approaches to improve education and learning outcomes through practical suggestions we aim to address the poor academic performance observed at secondary and tertiary levels in nigeria by fostering a comprehensive understanding of both literature and language students can achieve greater proficiency and success

challenges of information technology education in the 21st century strives to address a variety of pertinent questions surrounding the rapidly changing area of it education such as what topics are important for the 21st century how does the internet change the task of teaching what is the role of the professor in a world of online learning this exciting book will be an invaluable resource for educators in the field of information technology

this book provides a detailed analysis of two major aspects glottalization and nasalization of the phonology and phonetics of coatzospan mixtec as well as an overview of the segmental phonology of the language from a descriptive perspective this work provides the first published phonetic data on coatzospan mixtec one of the many underdescribed indigenous languages of the americas of theoretical importance the phonological analyses of glottalization and nasalization serve as examples of how optimality theory can be implemented in the extended treatment of a single language in contrast to the typological emphasis of most optimality research by focusing in detail on the whole of nasalization and glottalization systems the book explores the implications of optimality theory for the traditional notion of underlying representation in phonological theory and motivates an extension of the mechanism of constraint conjunction to include conditional relations holding between distinct constraints in the grammar at the same time the phonetic analyses provide an example of a detailed treatment of the phonetic implementation of nasalization and glottalization in the windows framework of special interest here is the relation between phonetic data and phonological feature specification in particular the data illustrate the complexity of the relationship between patterns of phonetic implementation and feature specification and lead to the conclusion that phonetic data must be interpreted in the context of the phonological system from which they are derived this book is of interest to linguists in general and especially to researchers in both phonology and phonetics to those interested in field work on underdescribed languages and to those interested in native american languages and linguistics
