time and philosophy presents a detailed survey of continental thought through an historical account of its key texts the common theme taken up in each text is how philosophical thought should respond to time looking at the development of continental philosophy in both europe and america the philosophers discussed range from hegel marx kierkegaard nietzsche husserl heidegger arendt adorno and horkheimer sartre de beauvoir foucault derrida to the most influential thinkers of today agamben badiou butler and ranciere throughout the concern is to elucidate the primary texts for readers coming to them for the first time but beyond this time and philosophy aims to reveal the philosophical rigour which underpins and connects the history of continental thought

contemporary continental thought gives one central reference that brings together topics from many sources this collection of readings provides a sense of the variety and depth of the contemporary thinker s positions it is accessible and timely with excellent selections that address a variety of issues this anthology on recent continental philosophy is unique because it brings together in one volume 1 an overview of critical theory structuralism french feminism deconstruction poststructuralism postcolonialism and postmodernism 2 brief introductions to and representative and accessible selections by twenty important figures along with their photographs and 3 commentary on the more than the thirty included readings this book is the only one of its kind on the market and is interesting reading for anyone involved or interested in contemporary commentary and thought

continental philosophy a contemporary introduction is ideal for students coming to the topic for the first time it introduces the origins and development of the tradition tracing it from kant to the present day taking a clear thematic approach andrew cutrofello introduces and assesses continental philosophy s relation to fundamental questions in philosophy such as ethics humanism phenomenology politics and metaphysics centring the book around the following questions what is knowledge what is moral obligation for what should we hope what is man what is critique andrew cutrofello s style is lively and engaging he also introduces the major as well as the lesser known thinkers of the continental tradition from kant mill and nietzsche and husserl to heidegger merleau ponty sartre levinas bataille and kristeva

early twentieth century continental philosophy elaborates the basic project of contemporary continental philosophy which culminates in a movement toward the outside leonard lawlor interprets key texts by major figures in the continental tradition including bergson foucault freud heidegger husserl and merleau ponty to develop the broad sweep of the aims of continental philosophy lawlor discusses major theoretical trends in the work of these

philosophers immanence difference multiplicity and the overcoming of metaphysics his conception of continental philosophy as a unified project enables lawlor to think beyond its european origins and envision a global sphere of philosophical inquiry that will revitalize the field

simon critchley s very short introduction shows that continental philosophy encompasses a distinct set of philosophical traditions and practices with a compelling range of problems all too often ignored by the analytic tradition he discusses the ideas and approaches of philosophers such as kant hegel nietzsche husserl heidegger sartre habermas foucault and derrida and introduces key concepts such as existentialism nihilism and phenomenology by explaining their place in the continental tradition about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

this book frames the mission of the continental philosophy and history of thought series at lexington books international leading scholars contribute essays that explore and redefine the relationship between received arguments in contemporary continental philosophy and various influential figures and arguments in the history of thought by bringing continental philosophy and the histories of thought into dialogue editors christian lotz and antonio calcagno broaden the standard canon of what is considered continental philosophy by including important yet understudied figures and arguments in the tradition the chapters also deepen and contextualize significant movements and debate in the field by showing their rich historical underpinnings thereby establishing new viewpoints in specific constituent subfields of philosophy reading continental philosophy and the history of thought shows the growing richness of continental philosophy via unexplored rethinking of the history of thought the contributors expand continental philosophy with and through the recovery of important historical developments figures and lines of thought

taken together these intimate self portraits provide a vibrant overview of the multiplicity and depth of continental philosophy in america jacket

the blackwell guide to continental philosophy is an accessible but sophisticated introduction to the most important figures in continental philosophy in the last 200 years presents a definitive introduction to the core figures and

topics of continental philosophy contains newly commissioned essays all of which are written by internationally distinguished scholars provides a solid foundation for further study subjects include hegel schopenhauer kierkegaard marx and marxism nietzsche husserl and phenomenology heidegger sartre critical theory habermas gadamer foucault derrida postmodernism and french feminism

from kant to kierkegaard from hegel to heidegger continental philosophers have indelibly shaped the trajectory of western thought since the eighteenth century although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition the most comprehensive reference work to date this eight volume history of continental philosophy will both encapsulate the subject and reorient our understanding of it beginning with an overview of kant's philosophy and its initial reception the history traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism the final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment

covering the complete development of post kantian continental philosophy this volume serves as an essential reference work for philosophers and those engaged in the many disciplines that are integrally related to continental and european philosophy

continental philosophy has traditionally seen philosophy as historical claiming that there are no new beginnings in the discipline and that we must revisit the work of earlier thinkers again and again yet continental philosophers rarely argue explicitly for their view of philosophy's past and the discussions of the topic that exist tend to be riddled with confusion here robert piercey asks why and explores what the continental tradition must do to come to terms with this crisis piercey traces the confusion about history back to hegel who he argues sends a mixed message about historical thinking one that is later adopted by heidegger and then passed on to his successors in addition to telling the story of this crisis piercey offers an account of historical thinking that does not lead to the difficulties that currently plague the continental tradition the result is a highly original look at the development of continental thought and the nature of philosophy's historical turn

the continental philosophy reader is the first complete anthology of classic writings from the major figures in

European thought and provides a powerful introduction to one of the 20th century's most influential intellectual movements

acknowledgments introduction by Walter Brogan and James Risser part 1 intersecting the tradition 1 imagination metaphysics wonder John Sallis 2 private irony liberal hope Richard Rorty 3 stereoscopic thinking and the law of resemblances Aristotle on tragedy and metaphor Dennis J. This book challenges and renews the discussions that have historically characterized the tradition of continental thought in the areas of ethics feminism aesthetics and political theory. The classical origins of this tradition phenomenology existentialism and hermeneutics emerged according to models that were foundational and systematic in character. The book shows that continental philosophy is now woven between counter discourses and concrete interventions complicated in the relationship between theory and practice that is in the transition between concept and determination idea and intuition the ontic and the ontological experience and judgment

Continental philosophy of science provides an expert guide to the major twentieth century French and German philosophical thinking on science. A comprehensive introduction by the editor provides a unified interpretative survey of continental work on philosophy of science. Interpretative essays are complemented by key primary source selections. Includes previously untranslated texts by Bergson Bachelard and Canguilhem and new translations of texts by Hegel and Cassirer. Contributors include Terry Pinkard Jean Gayon Richard Tieszen Michael Friedman Joseph Rouse Mary Tiles Hans Jörg Rheinberger Linda Alcoff Todd May Axel Honneth and Penelope Deutscher

The idea of continental philosophy has never been properly explained in philosophical terms in this short and

engaging book simon glendinning attempts finally to succeed where others have failed although not by giving an account of its internal unity but by showing instead why no such account can be given providing a clear picture of the current state of the contemporary philosophical culture glendinning traces the origins and development of the idea of a distinctive continental tradition critiquing current attempts to survey the field of contemporary philosophy

descartes philosophy plays a special role in the works of both renowned and marginal writers in the continental tradition particularly in their views on society and politics this is the first book length study to consider political responses to descartes in 19th and 20th century european thinkers alon segev shows how on the one hand continental authors utilize descartes philosophy to advance the core ideas of enlightenment and to combat the movements and systems of capitalism materialism absolutism fascism nazism and neo paganism however on the other hand segev also demonstrates that continental authors have also discerned in descartes philosophy the main source of all these maladies of modernity these opposing views are examined as they are unfolded in known and forgotten texts by authors such as vico sorel nietzsche husserl and heidegger and by lesser known figures such as baader borkenau and böhm by exploring celebrated and overlooked texts and authors alon segev both details the cartesian influence on the touchstone thinkers of political modernity and also fills a wide historical gap in the research providing a significant contribution to the discussion about the crises of the contemporary social and political world in short this book enables us through descartes to assess the advantages and shortcomings of modern society bloomsbury publishing

this book punctuates the moments of crisis in continental thought from the foundational crisis of reason in husserl s call for a rigorous science of phenomenology to the current crisis of postmodernism and its rejection of husserl s metanarrative of history and rationality the mediating links between these moments is the centrality of the epochal history of being the power of cultural and disciplinary practices and the dispersal of meaning in the post husserlian and post subjective philosophies of heidegger foucault derrida and others included here are the thoughts of leading scholars who critically discuss husserl s analysis of the crisis of western thought and the importance of the concepts of world in husserl s early writings the authors analyze the deprivileging of philosophy as social critique through the text of husserl habermas foucault and recent feminist theory they examine the end of the epistemological and morally autonomous subject in continental thought together these thoughts articulate multiple points or moments of crisis without cure or end

originally published as the continuum companion to continental philosophy this book offers the definitive guide to contemporary continental thought it covers all the most pressing and important themes and categories in the field areas that have continued to attract interest historically as well as topics that have emerged more recently as active areas of research twelve specially commissioned essays from an international team of experts reveal where important work continues to be done in the field and valuably how the various topics intersect featuring a series of indispensable research tools including an a to z of key terms and concepts a chronology and a guide to practical research in the field this is the essential reference tool for anyone working in and studying continental philosophy
