the black spot the one very black spot in the picture is the frightful mortality in the concentration camps i entirely agree with you in thinking that while a hundred explanations may be offered and a hundred excuses made they do not really amount to any adequate defence i should much prefer to say at once so far as the civil authorities are concerned that we were suddenly confronted with a problem not of our making with which it was beyond our power properly to grapple and no doubt its vastness was not realised soon enough it was not till six weeks or two months ago that it dawned on me personally i cannot speak for others that the enormous mortality was not merely incidental to the first formation of the camps and the sudden inrush of thousands of people already sick and starving but was going to continue the fact that it continues is no doubt a condemnation of the camp system the whole thing i think now has been a mistake alfred milner to joseph chamberlain

renowned german sociologist wolfgang sofsky looks at the concentration camp from the inside as a laboratory of cruelty and a system of absolute power built on extreme violence starvation terror labor and the business like extermination of human beings based on historical documents and the reports of survivors the book details how the resistance of prisoners was broken down arbitrary terror and routine violence destroyed personal identity and social solidarity disrupted the very ideas of time and space perverted human work into torture and unleashed innumerable atrocities as a result daily life was reduced to a permanent struggle for survival even as the meaning of self preservation was extinguished sofsky takes us from the searing unforgettable image of the muselmann auschwitz jargon for the walking dead to chronicles of epidemics terror punishments selections and torture the society of the camp was dominated by the s s and a system of graduated and forced collaboration which turned selected victims into accomplices of terror sofsky shows that the s s was not a rigid bureaucracy but a system with ample room for autonomy the s s demanded individual initiative of its members consequently although they were not required to torment or murder prisoners officers and guards often exploited their freedom to do so in passing or on a whim with cause or without the order of terror described by sofsky culminated in the organized murder of millions of european jews and gypsies in the death factories of auschwitz and treblinka by the end of this book sofsky shows that the german concentration camp system cannot be seen as a temporary lapse into barbarism instead it must be conceived as a product of modern civilization where institutionalized state run human cruelty became possible with or without the mobilizing feelings of hatred
