offers an accessible yet sophisticated analysis of major global turning points and future scenarios with an emphasis on actionable issues

the twenty first century is replete with uncertainty and complexity game changing events and trends are transforming the world beyond recognition for the first time in human history more people live in cities than in the countryside and greater numbers suffer from obesity than from hunger emerging economies now represent half of the global economy and during the next few decades india will be the biggest country in terms of population china the largest in output and the united states the richest among the major economies on a per capita income basis food and water shortages will likely become humankind s most important challenge in this accessible introduction mauro guillén and emilio ontiveros deploy the tools of economics sociology and political science to provide an analytical perspective on both the problems and opportunities facing business in the modern world

persistent rumour has it that globalization is doing serious damage to the nation state at the present historical juncture dramatic versions of the narrative even insist that the challenge of globalization to the nation state is so serious that this pivotal unit of the international system is in danger of disappearing in this book ulf hedetoft focuses attention on this global national nexus in some of its many differing manifestations offering both theoretical historical and analytical thoughts and perspectives on a problem which increasingly dominates academic and public debates he argues that it makes sense to talk about a global turn in international studies a change which might be as profound and consequential as the well known linguistic turn in the study of society and politics this does not mean that globalization spearheaded by the usa is ousting the nation state from the global scene in fact the global order needs nation states although their position will be radically different and their sovereignty except for a few cases without much substance populist and romantic nationalism notwithstanding there is no going back to an earlier and more virginal state of national political or cultural history in this sense globalization is irreversible whether we like it or not the global turn is here for good

illusions are part of our everyday lives but it depends what kind of illusions are navigating us through our predicaments drawing on insights from critical theory and psychoanalysis florian maiwald explores how multiple interconnected challenges force us to confront the illusions sustaining our societal norms maiwald argues that as collective illusions of progress crumble we are not responding with innovative solutions but retreating into what he terms regressive illusions backward looking fantasies that quite often masquerade as progressive ideals these illusions lead us not towards a brighter future but back into the shadows of the past this book critically examines various manifestations of these regressive tendencies including the rise of far right politics the contradictions of woke capitalism and the decay of utopian thinking in the age of ai maiwald weaves together insights from philosophy critical theory and psychoanalysis to expose the underlying mechanisms of our current social and political malaise more than a mere critique regressive illusions advocates for understanding the necessity of certain illusions while calling for a renewed capacity for critical thinking in the face of crisis

the second edition of this popular book offers an accessible yet sophisticated analysis of the game changing events and trends that are transforming the world beyond recognition for the first time in human history more people live in cities than in the countryside and greater numbers suffer from obesity than from hunger during the next few decades india will become the biggest country in terms of population china the largest in output and the united states the richest among the major economies on a per capita income basis food and water shortages will likely become humankind s most important challenges with four new chapters on the rise of the global middle class the transformative power of technology institutions and the entrepreneurial spirit and the trials and tribulations of the financial system this book provides a thorough introduction to the challenges facing business and society in the twenty first century

assessing meaning and significance of the war on terror this book raises issues related to the middle east and american policy toward that region it stresses the need for resolving the war on terrorism favourably it demonstrates the dynamics through which traditional peoples have opted to wage hopeless struggle against more powerful states

the twenty first century is replete with uncertainty and complexity game changing events and trends are transforming the world beyond recognition for the first time in human history more people live in cities than in the countryside and greater numbers suffer from obesity than from hunger emerging economies now represent half of the global economy and during the next few decades india will be the biggest country in terms of population china the largest in output and the united states the richest among the major economies on a per capita income basis food and water shortages will likely become humankind s most important challenge in this accessible introduction mauro guillen and emilio ontiveros deploy the tools of economics sociology and political science to provide an analytical perspective on both the problems and opportunities facing business in the modern world

what are the forces behind the increasing globalization of economic life how does globalization affect the functioning of national economies what difficulties confront government policymakers in dealing with the global economy these issues are addressed in this volume by leading specialists the contributors present a range of unique and varied perspectives from which they consider aspects of the increasing integration of economic life exploring implications for the functioning of domestic markets in a rapidly changing global economy the result is a collection of insights that provide a framework for understanding globalization as an economic phenomenon the determinants of national economic growth within this global context and the way in which national governments and international organizations can best achieve growth and development without instability and widening inequality are also discussed the book will appeal to economists and national and international policymakers interested in novel approaches to analysing the impact of globalization

the explosion of new themes and working areas in social sciences in the aftermath of the cold war stimulated the cultural turn of the previous decades and strengthened the position of the notion of civilization as a unit of analysis and locus of academic debate in the fields of history philosophy sociology political science and international relations given the fabricated and standardized nature of recent literature on political economic and socio cultural aspects of globalization it is crystal clear that historically and philosophically

enlightened works written from the perspective of civilizational transformation will provide the much needed sophistication to conventional social science analyses trying to elucidate the organizing principles of the global order this novel collection represents a path breaking work in the field of global civilizational studies by constituting an interdisciplinary and theoretically informed platform on which complex debates on the political economic socio cultural philosophical and ecological aspects of the global order could be conducted the editors sadik unay and muzaffer senel managed to gather a truly original collection of articles from some of the leading authorities and promising academics on the theme of global orders with special reference to a civilization transformation covering a wide spectrum in time and space from antique greece to the islamic world from europe to the us and from east asian history to current globalizations publisher s description
