globalization and unlimited connectedness to all places in the world give us the impression that our world is growing smaller and smaller we can get products from all over the world anytime can easily communicate with people on the other side of the planet with just a mouse click and travel almost anywhere within a day or two these developments are very inspiring and open up an array of new experiences and opportunities for us in our private lives and in international business however all these rapid changes over the past decade often lead people to believe differences between people and cultures have disappeared and that there are less cultural barriers than in our past but the contrary is true despite increasing connectivity and globalization cultural differences remain the more connected and international we become the more differences between cultures their views on the world values and communication styles become evident in international management these differences play an increasingly essential role international managers are supposed to succeed in an arena where rules are very different and difficult to understand but often not obvious they must show interest and openness in foreign cultures and their management practices in many cases even change their old often very successful ways to succeed this is a huge

challenge even managers who show great interest in understanding international business culture and who want to experience exotic cultures cannot do this so easily they still find it difficult to understand colleagues and business people from a different cultural background on top of this many work processes have not changed or adapted to a global environment yet and are still performed in the in the traditional way thus misunderstandings conflicts and stress are frequently accompanying international business activities and end in lost opportunities and business failure successful cross cultural management a guide for international managers looks at the practical implications of doing business overseas the book explains how we all have our own cultural programs and how these programs influence our management activities it discusses which cross cultural experiences managers have how they react to stress and misunderstandings during these encounters and which strategies they can develop to successfully reach their goals it covers all aspects of cross cultural management such as cross cultural negotiations conflict and leadership and explains how to deal with culture shock and which training methods to choose when preparing employees for an international assignment mini case studies and cross cultural incidents present vivid examples of the international workplace and its cultural challenges finally the book gives recommendations for international managers on how to prepare themselves for a cross cultural management future successful cross cultural management a guide for international managers is a book for managers who work overseas or frequently deal with international business partners students of international business who want to get insights into cross cultural business activities and their cultural challenges and also for people who would like to strengthen and improve their cross cultural relationships and friendships

essence of humankind and that culture continues to shape people with a magical touch of diversity and uniqueness only then will the global world greet people inclusively by embracing tolerance appreciation and happiness culture has a paramount impact on how leaders manage their colleagues and teams in the workplace one's attitudes values beliefs and perceptions all matter when people work with culturally diverse colleagues cultural differences cannot be ignored as a work structure that thrives only in a monoculture environment is hardly in existence for multinational corporation of today instead the multi-cultured environment takes priority with the soaring number of demands for global talents and workforces that need to be recruited it is clearly established in the field of international human resources that there are increasing trends and phenomenon of burgeoning cities in newly occupied cosmopolitan cities in the world such as dubai qatar jeddah kuala lumpur hong kong shanghai tokyo and many others at the end one key question matters for the journey of cultural sense making to begin what is it like to experience the forces and effects of culture in the workplace when one is an expatriate
