health counseling a microskills approach for counselors educators and school nurses second edition teaches the basic skills of health counseling to non professionally trained counselors merging theory and practice with specific applications to common health problems

this reader friendly text provides a sound theoretical framework for the practice of health counseling and allows students to practice review and apply the information presented the text follows iver's microskills model which breaks counseling down into discrete skills that can be mastered individually and then applied collectively healthy people objectives throughout the chapters link the content with the nation's leading health problems

theories of counseling and psychotherapy fully integrates a multicultural approach which is demonstrated in practice throughout every chapter and every theoretical approach new to the seventh edition increased focus on visual elements such as photos charts and summary tables more focus on case illustrations increased coverage of ethical and legal issues technology and on the counseling relationship added coverage of narrative counseling and brief solution focused counseling

unique in its approach this book integrates psychoanalytic cognitive behavioral and humanistic approaches in a unifying theoretical approach the main objective of this is to cut through outdated theoretical posturing and to describe what works with whom and under what circumstances issues of importance such as does therapy work or is it all biological are discussed in depth the book specifies therapeutic approaches for virtually all of the troubled people identified in the dsm iv as mentally ill in addition people who suffer from significant levels of subjective distress but would not be labeled in the dsm iv are discussed specifically treatment approaches are offered for people whose lives are empty because of issues of identity intimacy or meaning for practicing counselors and psychotherapists

helping skills for counselors and health professionals provides a model of foundational helping skills that is grounded in a multicultural framework chapters explicitly examine implicit bias and the role of culture and systems of oppression and marginalization within the lives of both individuals and communities the text also uses ecological systems theory to assist readers in conceptualizing the ways in which culture influences communication styles perceptions of professional helpers and individual needs readers will be introduced to concepts that increase awareness of micro and macro level influences on helping skills communication and the patient's life within the book's multicultural framework readers will also find tools for increasing self awareness for improving the communication skills and cultural humility

leading authorities on negotiations present the result of years of research application testing and experimentation and practical experience principles and applications from numerous disciplines are combined to create a conceptual framework for the hostage negotiator ideas and concepts are explained so that the practicing negotiator can apply the principles outlined

introduction to counselling skills explains generic counselling skills and the way in which they can be used to help people to develop their full potential and draw on their own resources

based on the microskills approach this text teaches readers basic group skills and helps them to develop the carefully sequenced tools and self confidence they will need to lead groups the microskills approach attempts to provide readers with the skills needed to break down the complex art of group leadership into single manageable teachable skills

the helping relationship is a book for learning and teaching basic philosophy helping skills and processes that are essential grounding for most professions and for all human contact occupations the helping relationship presents and illustrates skills in the order in which they are used in the helping process the primary emphasis in the helping process is to promote self help such as coping competence to solve one s own problems and draw on one s own inner strengths for social workers counselors business managers nurses and anyone involved in the helping professions

this continues to be the only counseling theory text that shows how and why to engage in the specifics of each major counseling theory it is the most detailed and specific of all texts in terms of helping students actually practice counseling and therapy the practice competencies provide students with specifics of how to use major strategies allowing instructors to expect their counseling students to present portfolios of competencies indicating that they can actually engage in the theory as well as understand it the text has infused multicultural orientation and illustrates how traditional theory can be adapted with many different populations

this edition covers the major theories in detail and takes theory directly to practice the text has a strong multicultural orientation and illustrates how traditional theory can be adapted with many different populations

this handbook offers information and tips for librarians on conducting the reference interview it features models of communication such as sense making and microtraining exercises for avoiding common pitfalls and examples of both successful and problematic interviews

john axelsons respected broad based text leads readers to a clear multi faceted understanding of people issues and counseling in contemporary america offering a complete examination of culture including various european ethnic groups the author presents a historical account of all groups and sub groups beginning with a comprehensive examination of counseling in americas pluralistic society and profiles of various ethnocultural groups this highly practical book discusses the major concerns of clients axelson has thoroughly revised the book to include they myriad changes that have taken place in society and culture while retaining the

comprehensive trilogy of people issues and counseling practices the book includes a concise summary of the major constructs of traditional counseling theories an introduction to emergent synergetic approaches and representative counseling excerpts that illustrate issues of importance to todays clients and todays multicultural counselors
