a treasure trove of useful well organized information on sea going parenting gary cap n fatty  
goodlander author of buy outfit and sail choosing a boat that is right for your family handling the  
naysayers keeping your children safe healthy and entertained afloat this inspirational and  
comprehensive guide may be just what you need to turn your dream into a reality the three authors

who have each voyaged thousands of miles with children on board provide a factual and balanced look at the realities of family life on the sea from their own experience and with information from interviews with dozens of other voyaging parents they discuss caring for an infant on board handling the changing needs of children as they grow education options ensuring parents find the private time to keep their relationships in tune and helping children make the eventual transition back to shore life added to the authors voices are sidebars from other cruising parents with specialized information on subjects as diverse as handling special diets and how your children can keep in touch with friends around the world a unique bonus chapter written by a dozen former cruising kids looks at the long term effects of breaking away from shoreside normalcy a substantial appendix of resources provides valuable further information on the subjects covered in this book it is said that every parent inflicts their lifestyle choices on their children read this book to find why heading out to sea with your children may be the most rewarding infliction of all

psychology third edition builds upon the experience and reputations of phil zimbardo and ann weber with the addition of a new co author bob johnson who has a wealth of teaching experience at the community college level this briefer less expensive book presents psychology in a meaningful manageable format that focuses on the key questions and core concepts of psychology introductory psychology covers such a wide range of topics and issues that it becomes difficult for readers to see the forest for the trees to make key psychological concepts more meaningful the authors found inspiration in a classic chess study this study showed that experts did no better than novices at remembering the location of pieces on a chess board when they were placed randomly only when the patterns represented actual game situations did they make sense and therefore become more easily memorable for the experts clearly meaningful patterns are easier to remember and understand than random arrangements and psychology applies this by presenting the field of psychology in meaningful patterns to enhance comprehension these concepts are then applied to readers own lives study skills and the world around them finally psychology integrates a cross cultural and multicultural perspective to make psychology meaningful for everyone for anyone interested in introductory psychology
