excerpt from how to teach beginners to read thought method as reading is the most important subject to the primary child great care should be taken that the best method be employed in presenting it the main object in teaching reading is to train the child to interpret the thoughts of others and to express them naturally as if they were his own this is best done by the thought method the child should never begin to read with less than a sentence the teaching of words and their meaning sounds etc should be used as a means only in getting the thought never as an end in themselves as soon as the teacher becomes acquainted with the little folks the first step is to get them to talk easily and naturally about familiar objects things they have seen etc to answer questions correctly and intelligently and to express themselves in complete and connected sentences this will not be found a difficult task as the children think in sentences and have talked at home and to their little

companions in complete sentences long before they entered school an attempt then by the teacher to teach reading to little children by the a b c word phonic or any method that takes from the thought is a great mistake some time should be spent in conversational lessons then from three to four months in development work from the blackboard the work should be presented in the following order 1 object 2 spoken thought 3 written thought 4 recognition of words in sentences and their meaning 5 transition from script to print the lessons to be developed and read by the pupils should always be prepared in advance by the teacher in preparing these lessons the sentences should be arranged in an orderly sequence then the blackboard development lessons will train the children to think in an orderly way about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

how to read faster than you now do how to read for main ideas how to train your perception inner speech lip movements vocalization and regressions how to get the gist quickly how to build a better reading vocabulary how to read with aggressive comprehension how to skim practicing in drawing for the gist how to whip through material with good comprehension how to read with a questioning mind final training in rapid comprehension

imagine that you have just been given the assignment of reading a book with hundreds of pages you have only two days to complete this task and produce a written report about the reading would you be able to accomplish this in a timely and effective manner the truth is not many people are able to leverage such an accomplishment in fact it is assumed that only expert readers can do this leaving the average reader struggling to get through even a few pages of a work at a time to compensate for this researchers have long debated that speed reading or the ability to read rapidly by combining phrases and sentences all at once is the key to acquiring vast amounts of information in a shorter period of time it has also been suggested that this technique is able to improve reading comprehension when implemented effectively today you can find several online courses and applications that train individuals on speed reading these courses aim to help readers improve their ability to comprehend materials without spending extensive

time on the text a strategy such as this one is truly effective for individuals that are required to read a great deal of material consider college students or graduate students the work load is almost certain to be overwhelming and professors are less inclined to sympathize with a student simply because she is required to read many books at a time instead it is up to the student to develop methods and strategies that will enable him to move through the material much more quickly while still being able to grasp the information s content effectively thus speed reading is a key element in producing these types of results this is not to say that this concept is widely accepted among all those who have studied this phenomenon as you will learn in this book as well as throughout your continued study of speed reading there are many researchers who believe that speed reading is ineffective in its ability to help a person retain information for many experts those who oppose speed reading are considered to be old fashioned myth based researchers who have not fully understood the positive effects of speed reading to these individuals the ones that oppose speed reading the reader can and will miss important details that are often grasped by those who take their time in reading a text theoretically it would be impossible for a reader to comprehend the material effectively if time is not taken to focus or fixate on each word this idea however could not be further from the truth in fact there is substantial evidence to validate that one s inability to speed read greatly hinders his progress in acquiring the information presented in a text quintessentially and for the sake of this book we will explore the many benefits of speed reading and will discuss various strategies that one can use to improve reading comprehension and completion
