IntroBooks Timothy S. Hatten Abdi Abdillahi Hassan (Matan)

though scores of books have been written by western and indian authors on principles of management there is always a place for a book which is to the point brief yet comprehensive authentic and reliable and presented in indian setting in a simple language free from technical jargon the authors of this book have emphasised these characteristics to present an ideal textbook on the subject this book covers the courses in principles and theory of business management it has been presented in an analytical style to make the subject easy to understand and easier to memorise questions at the end of each chapter have been drawn from the latest actual university papers so that the student may practice for examination

introduction to business management 11e offers an overview of business management within the south african context the textbook is written for undergraduate students who are doing a course in introductory business management as part of their degree or diploma at a university or university of technology

this book contains discussions about the basics of business management as outlined in this publication encompasses the following key areas the fundamental concepts of management and business strategic planning in business management organizational structure and design leadership in business management human resources management marketing management financial management business ethics and corporate social responsibility entrepreneurship and innovation and an analysis of current trends and future directions in business management

small business management in the 21st century offers a unique perspective and set of capabilities for instructors the authors designed this book with a less can be more approach and by treating small business management as a practical human activity rather than as an abstract theoretical concept the text has a format and structure that will be familiar to you if you use other books on small business management yet it brings a fresh perspective by incorporating three distinctive and unique themes and an important new feature disaster watch which is embedded throughout the entire text these themes assure that students see the material in an integrated context rather than a stream of separate and distinct topics open textbook library

contains information on economic systems entrepreneurship productivity planning marketing public relations

in this indispensable handbook the author distills a wealth of knowledge and proven industry practices into a single potent resource designed for a broad audience be it aspiring entrepreneurs seasoned executives business students or individuals eager to enhance their managerial skills readers will not only discover strategies to create and sustain a successful business but also learn how to become a leader prospering individually professionally and corporately are you prepared to transcend traditional roles and forge ahead armed with the skills and expertise that are in high demand in today's dynamic and unpredictable market landscape this book is set to be your definitive guide helping you strategize for the future and navigate the imminent challenges in a rapidly evolving economic landscape

businesses deliver value to their stakeholders including customers employees suppliers communities and shareholders therefore value creation is pivotal to management theory but there is a lack of agreement amongst scholars about value at the conceptual level this book uses invariant properties of human activities to develop a novel theory of value to help resolve controversies and integrate scholarship from different specialisms to establish boundaries for the task of integration business management and organisation scholarship is identified as being an applied supra disciplinary mega field its fragmented nature means that different academic fields such as strategic management and marketing approach the concept of value in distinct ways based on their respective roots in economics and other social sciences tracing the evolution of ideas on value over time a new theoretical framework is developed the integrating theory of value co creation as an alternative to existing theories on value creation for individuals and organisations the cornerstone of the integrating theory of value co creation is that exchange is the fundamental basis for value co creation which enables it to cover both provider and customer perspectives given its interdisciplinary approach this book will appeal to any social scientist interested in the management of organisations

this book encompasses two core areas of business management the first part of principles of management covers topics on nature and scope functions and strategic management planning organising communication leadership control evolution of management thought business environment social responsibilities of business and entrepreneurship 21 chapters followed by second part of human resource development covering topics such as hrd personnel management recruitment selection

training and development motivation wage payment and labour welfare 8 chapters all in a simple and easy to understand language for the benefit of undergraduate university students

principles of business and management is a refreshing introductory book to business studies it features examples which are easy to understand as they are drawn from everyday experiences a wide range of questions which help the reader to appreciate the pervasive nature of business in their environment today case studies with sample answers that act as a guide to tackling examination questions while appreciating the challenges of business broad coverage of business and management concepts which are prevalent in the business world today it is this approach that makes the book an enjoyable read as well as a powerful companion for introduction to business and management

the links between manpower management financial control and information management systems are clearly defined in business management a brief expos where an analysis of budgeting for manpower needed for production and marketing basic steps in accounting procedures and stages in data processing are expounded it is realised that whereas the factory processes raw materials and produces goods for sale a data processing department processes basic data and produces basic business documents and control information for management to keep them informed of events within the business this enables them to coordinate different activities of the organisation s functional groups and to control the day to day transactions and be in a position to take whatever corrective action is necessary to achieve the objectives of the particular business furthermore an efficient data processing system makes it possible to adjust the situation before it goes out of hand by adjusting income distribution and combating organisation inefficiency with carefully structured data processing systems a general method can be established for decision making or policy making in individual cases of manpower recruitment and development investment projects and income distribution a brief description of the complexities of economic and business affairs may be necessarily misleading but i hope that this booklet is not more misleading than the average of such materials it is an attempt to explain the immense complexity of the real world by logical theories which provide the student with worthwhile intellectual exercise and excitement business management a brief expos offers to the professional student the start up entrepreneur the small and medium size businessman and the business executive a preliminary survey of the fields of manpower development accountancy and electronic data processing the wider public whose enlightened interest is the mainspring of social progress

may i hope find in its pages something to stimulate reflection upon those larger issues which must be determined if at all by the consensus of their opinion the purpose of this booklet is to give the reader an insight into the way organisations emerge and grow and the relationships between manpower management financial management and management information systems in particular business management a brief expos will be of help to the busy chief executive officer who hardly has time to read through different volumes associated with manpower management financial control and computerised management information systems nevertheless more reading and details may be found in a handbook in business management by the same author jacob wilson chikuhwa has also published a number of books on zimbabwe s socio economic developments

an excellent book for commerce students appearing in competitive professional and other examinations 1 management meaning characteristics and functional area 2 management nature principles levels and limitations 3 functions of management and managerial roles 4 development of management thought 5 planning 6 types of plans and corporate planning 7 management by objectives m b o 8 decision making 9 environment analysis and diagnosis 10 nature and process of organisation 11 organisation structure and forms of organisation 12 departmentation 13 authority responsibility and delegation of authority 14 centralisation and decentralisation 15 direction concept and techniques 16 managerial control 17 techniques of control 18 motivation 19 leading and leadership 20 co ordination meaning and nature 21 communication 22 management of change

the purpose of the book is to provide practical cases in business management these cases are based on real life experiences encountered by employees managers and business experts in different organizations in various sectors around the world the book integrates global issues with a local flare to provide practical experiences in various business settings the cases include general business management problems human resource management operational issues and financial challenges facing business on a daily basis
