beyond et disclosure direct et dialogue learning the lessons of love and self responsibility and that is what we are here now to do we are simply sharing our perspective our guidance to you so you can take that knowledge and derive your form of ability to what best suits you through your vibration it is all about you it truly is we are not here to save you we are not here to say oh go ahead and meet us here at this time we will pick you up off your planet and we will take you to sirius no that is not our role that is not our mission that is not why we are here we are here to help you because we love you all because you truly are our

family but we cannot get involved with being your savior figures that is not why we are here that is what many other civilizations are stating as well too they are your true benevolent allies that we will always guide you and help you when and if you need it but we are not here to get involved we are not here to get down to your planet and save you that is not our role that is not our request in that sense we are not here to share technology with you we are not here to say oh once the quarantine is down we are going to come down and live on your planet no that is not why we are here either you alone all one are brilliantly able to surmount any obstacle you may encounter and once you are passed this form of density and you move on to a higher density you will join our interstellar alliance the association of worlds as a planet of beings that has grown back to their original greatness that is the understanding

what is the origin of the universe are we alone in the universe using clear and plain language the author explores these two interesting scientific philosophical themes with a broad range of studies including astronomy cosmology chemistry biology geology and planet science the first part discusses the origins of everything from the big bang to humankind it follows the long course of evolution from original matter to the formation of more complex structures from the furthest galaxies to the nearest stars from planets to organic molecules from the first and most elementary forms of life through to the reptiles the dinosaurs and the advent of man the second part traces the history of the earth and evaluates the risks of extinction in the future as predicted by scientists is the earth the only habitable planet in the universe this question initiates the discussion on the importance of the earth's position in the solar system and the significance of our geologically alive planet the final part is dedicated to the search for extraterrestrial beings with identifiable life forms it also describes attempts for searching from the past to the near future this remarkable book provides the best answers we have to the epic questions about us and our place in the universe

beyond earth the hidden truths of human creation are we truly a product of natural evolution or is there a deeper mystery hidden in our past for centuries scientists historians and theologians have debated the origins of humanity but what if the answers we seek have been hidden in plain sight within ancient texts unexplained artifacts and the very structure of our dna beyond earth the hidden truths of human creation explores the compelling evidence that challenges the mainstream narrative of human history this groundbreaking book delves into the anomalies in human biology that suggest we may not be entirely native to earth ancient myths and religious texts that speak of celestial beings guiding human development the mysterious ruins and artifacts that defy conventional historical timelines the rapid leap in human intelligence was it

evolution or something else the possibility of extraterrestrial intervention in the genetic and cultural advancement of mankind from the lost civilizations of earth to the unexplained knowledge of the ancients this book presents a thought provoking investigation into the secrets of our past if you are fascinated by alternative history ancient mysteries and the search for humanity's true origins beyond earth is a must read join the journey to uncover the ultimate question are we alone or have we been guided by something far greater perfect for readers of graham hancock zecharia sitchin erich von däniken and those interested in ancient civilizations extraterrestrial theories and hidden history

this the second book in the beyond trilogy expands on john and katie's experiences and photographs of the orb phenomena covered in their first book it reveals astounding new photographs and opens up exciting new questions about the whole nature of paranormal phenomena in general john and katie's photographs of orbs angels and other apparitions have brought them into worldwide contact with other experiencers and researchers it is from this basis that they now take a major step beyond the visible photographable phenomena and current new age notions about orbs to reveal new insights about the paranormal could it be that orbs are the indicators of a wider beyond reality is the symbology of orbs as images of oneness drawing our attention to the most important orb of all the orb of earth on which we all live their ongoing photographs personal experiences and the amazing synchronistic events they found themselves part of reveal a conscious purposeful phenomena that can interact with us as individuals whoever and wherever we are this inevitably leads to a spiritual perspective that crosses all religious and cultural boundaries helping us to see that this one blue orb of earth on which we all live is greater than all that divides us orbs beyond is the vital visual link between beyond photography and the forthcoming beyond reality

the ancient alien hypothesis the connections between ancient archeological sites and ancient extraterrestrials is a captivating exploration into the possibility that extraterrestrial beings have played a crucial role in shaping our past drawing from archaeological sites and ancient texts this book delves into the enigmatic evidence suggesting our ancestors may have had otherworldly help in constructing awe inspiring monuments from the world's oldest megalithic structure gobekli tepe to the mystifying puma punku the author weaves a compelling narrative that reveals astonishing connections between ancient sites and extraterrestrial influence the book takes readers on a journey through the precision cut walls of sacsayhuaman the celestial alignments of teotihuacan the enigmatic geoglyphs of the nazca lines and the cosmic coordinates of the great pyramids of giza the author further explores the celestial knowledge of the moai on easter island the megalithic observatories of

stonehenge and the dogon tribe s understanding of the sirius binary star system from the underground temple of malta s hypogeum to the celestial temple of angkor wat the author demonstrates an extraordinary depth of research and passion for uncovering the truth behind these ancient wonders the book also delves into the enigmatic origins of the longyou caves the advanced technology of the serapeum of saqqara and the extraterrestrial connections to the yonaguni monument in the ancient alien hypothesis the connections between ancient archeological sites and ancient extraterrestrials the author presents a thought provoking exploration of the connections between ancient archaeological sites and the possibility of extraterrestrial intervention in our distant past this book is a must read for anyone intrigued by ancient civilizations archaeology or the tantalizing possibility of life beyond our planet offering a captivating glimpse into the profound impact of ancient alien influences on human history

the gnostic revival of the enlightenment witnessed the erection of what could be called the kantian rift an epistemological barrier between external reality and the mind of the percipient arbitrarily proclaimed by german philosopher immanuel kant this barrier rendered the world as a terra incognita suddenly the world out there was deemed imperceptible and unknowable in addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and god swiftly evaporated the way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the divine collectively these surrogates could be referred to as the beyond because they epistemologically and ontologically overwhelm humanity in recent years the beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world in turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a new man their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological singularity a superweapon and extraterrestrial gods all of these are merely masks for the same counterfeit divinity the beyond

a fascinating and varied scientific philosophic exploration publishers weekly copyright libri gmbh all rights reserved

this book presents key documents from the pre 1915 history of the extraterrestrial life debate introductions and commentaries accompany each source document some of which are published here for the first time or in a new translation authors included are aristotle lucretius aquinas nicholas of cusa galileo kepler pascal fontenelle huygens newton pope voltaire kant paine

chalmers darwin wallace dostoevski lowell and antoniadi among others michael j crowe has compiled an extensive bibliography not available in other sources these materials reveal that the extraterrestrial life debate rather than being a relatively modern phenomenon has extended throughout nearly all western history and has involved many of its leading intellectuals the readings also demonstrate that belief in extraterrestrial life has had major effects on science and society and that metaphysical and religious views have permeated the debate throughout much of its history this is a valuable book that is not available anywhere else crowe s purpose is to let the reader see the original words of the authors who discussed other worlds crowe puts these documents in context by his substantial introduction and commentary such a source book serves an important purpose and is ideal for teaching and generating discussion in class the subject is of increasing importance as we find more and more about the possibilities of extraterrestrial life through current disciplines such as astrobiology bioastronomy and the search for extraterrestrial intelligence steven j dick director nasa history division nasa having established himself as the world s authority on the history of the debates about extraterrestrial life in the eighteenth and nineteenth centuries michael crowe is perfectly positioned to produce this source book the introductory commentaries on the excerpts from primary sources he has so judiciously selected reveal again and again that no one else knows this subject as well as he does frederick gregory university of florida the extraterrestrial life debate gives new meaning to the word treasury michael crowe offers us more than 2000 years of golden materials wrought by the astonishing alchemy of science religion philosophy and sheer imagination about a topic as alive today as it ever was et with all his cousins and ancestors the range of authors the book showcases and the depth of context crowe provides will make his monumental anthology the starting point for future explorations of this rich vein of human thought dennis danielson university of british columbia there are loads of books on et but only a small number of them take a historical approach anyone interested in the history of the extraterrestrial life debate will be interested in this book it does complete in a certain way previous historical work done by steven dick and michael crowe by providing large portions of original texts rather than merely short quotations from them all the various perspectives religious literary astronomical philosophical seem adequately represented the multidisciplinary aspect of the debate comes across well from the authors selected marie i george st john s university extraterrestrials may not have invaded the earth physically but for centuries they have done so mentally in many a guise they have appeared not only in works of fiction but also in serious astronomical philosophical and theological debate it is impossible to open michael crowe s handsome and fastidiously prepared anthology of primary sources without being drawn into endlessly fascinating disputes concerning the

possibility and character of extraterrestrial life savoring the many twists and turns in controversies that have extended far beyond the confines of popular astronomy professor crowe has provided students and experts alike with a generous and indispensable resource it is difficult to resist his invitation to investigate for ourselves the innumerable and often surprising ways in which the idea of intelligent life on other worlds has shaped and been shaped by perennial earthly concerns john hedley brooke andreas idreos professor emeritus of science and religion university of oxford

describes sightings and encounters with unidentified flying objects and extraterrestrial beings

discusses the near death phenomenon its after effects and implications

drawing on the latest worldwide research this comprehensive study includes rare case stories of ufo sightings from credible individuals and is filled with photographic evidence over 200 illustrations

studie over de gevolgen van onderzoek en exploitatie in de ruimte voor de mens en voor het milieu van het heelal

through illustrations and photographs the reader ventures on a journey from the earth s surface to remote boundaries of the universe and farther

a field guide for amateur astronomers

alan sokal best known for his role in the sokal hoax here turns his attention to a new set of targets pseudo science religion and misinformation in public life he argues that clear thinking combined with a respect for evidence are of the utmost importance to the survival of the human race in the twenty first century
